All scripture quotations are from KJV, KJ21 and NKJV

9 Wisdom hath builded her house, she hath hewn out her seven pillars:She hath killed her beasts; she hath mingled her wine; she hath also furnished her table. She hath sent forth her maidens: she crieth upon the highest places of the city,Whoso is simple, let him turn in hither: as for him that wanteth understanding, she saith to him,Come, eat of my bread, and drink of the wine which I have mingled.Forsake the foolish, and live; and go in the way of understanding. (Proverbs 9:1-6 KJV)

ACKNOWLEDGEMENTS

This book draws on 19 years of curiosity over my most core question, which was vibrating at the core of my soul when I gave my life to Jesus during my twenties—the question of *'Is God in everything?'* And if he is in everything, as he tells us in his word, then surely, he would have his fingerprints, pattern prints, or a smidge of his breath beneath the surface of numbers.

If his prints are beneath these numbers, why not extend and broaden my search beyond my first two books: Torah Data Analysis (the five books of Moses) and Project Clock Codes: Releasing Messiah's Matrix (vol 1).

Having a geography and demographics background led to this book's discoveries. A love labour well satisfied despite the chaos of reality.

I have drawn on the KJV, NKJV and KJ21 bible versions. My quest for answers has morphed into a 'hobby of discovery,' and it was through Pastor Teresa Wieteska's personal prophecy, exhortation, and encouragement that my search for God in everything was heightened and my technical horizons broadened. I am extremely grateful to the scientific community, both past and present, whose pursuit of knowledge has expanded our horizons.

I would also like to acknowledge my family, friends, and colleagues who encouraged this journey, as well as the researchers and writers (Timothy Alberino, Mark and David Flynn, Heiser, Horn, Chuck Missler, Musk, Peck, Newton, Tesla, and many others).

Saving the best for last, I'm extremely grateful to God the Father and Jesus Christ, God the Son, for sending

the comforting spirit who is teaching and leading me in the way. Bonus material like Hyperspace watch and calculators, study guides and podcast (audio overview) have been included after the cited works.

PREFACE

This book uniquely blends narrative and academic referencing styles, intentionally reflecting the Cherubim Principle. The narrative style, evident in personal storytelling and Bible verses, is complemented by the educational style, seen in the structured presentation of information and references to external sources. This book culminates years of research, exploration, and contemplation of ancient mysteries and modern curiosities.

It delves into the interconnectedness of various ancient symbols, pathways, and principles, aiming to shed light on their relevance in our existing world. By exploring pyramid pathways, portal connections, and the mysterious concept of 'maturing', this book invites readers to embark on a journey of discovery and understanding.

It seeks to bridge the gap between the past and the present, offering insights into the significance of ancient wisdom in our lives today. The preface sets the stage for a thought-provoking and insightful exploration of diverse topics, from historical mysteries to everyday curiosities.

As you dive into the following chapters, you may find inspiration, contemplation, and a deeper appreciation for the mysteries surrounding us. To enhance your reading experience, QR codes [including some images are clickable via the kindle version] are provided for readers who want to see satellite imagery for specific locations of interest, allowing you to explore these places in more detail.

They also give you the option to zoom images that require magnification, thus providing peace of mind and hopes to solidify your interpretation of the provided concepts.

We will blindfold our prejudices and presuppositions as we discover how the ancient numerical patterns, biblical passages, principles, water and coordinates are correlated with scripted numbers of time.

This includes the fabricated formulas used for hyperspace mapping, most specifically the parentheses '( )', which are used to identify specific numbers on the clock; the normal mathematical function for these does not apply in this book but is used to portray an organised flow of words. While the words: round, sum and root are used interchangeably.

We will see how the map of time has some bizarre insights that help us connect the pieces of, "For in him all things were created: things in heaven and on earth, visible and invisible, whether thrones or powers or rulers or authorities; all things have been created through him and for him. He is before all things, and in him all things hold together." [1]

Readers who purchase the paperback copy receive a companion colour pdf version for this book available on page 313, author section.

The Table of Contents is a helpful tool for reviewing the structured sections of the book as we begin a fascinating adventure from a never-before-seen perspective.

INTRODUCTION

“Now to each one of us grace has been given according to the measure of the gift of Christ. [8]This is why it says: “When He ascended on high,He led captives away, and gave gifts to men.” [9]What does “He ascended” mean, except that He also descended to the lower parts of the earth? [10]He who descended is the very One who ascended above all the heavens, in order to fill all things.[11]And it was He who gave some to be apostles, some to be prophets, some to be evangelists, and some to be pastors and teachers, [12]to equip the saints for works of ministry and to build up the body of Christ, [13]until we all reach unity in the faith and in the knowledge of the Son of God, as we mature to the full measure of the stature of Christ.[14]Then we will no longer be infants, tossed about by the waves and carried around by every wind of teaching and by the clever cunning of men in their deceitful scheming.” (Ephesians 4:7-14 NKJV)

***

Me: "Babe, do they have any pig farms in Cairns?" I asked as I looked out the window of my spouse's Holden Colorado.

Spouse: "Not that I know of. Why do you ask?" He replied, keeping his eyes on the road.

Me: "I want to see the suction machines they use to collect pigs' farts to make cooking gas. How do they even do that without it leaking?" I said, my curiosity piqued. Plus… The smell of diluted sulphur from the nearby rubbish tip sparked my question.

Me: "I mean, it would take millions of pigs to produce enough gas, and the technology must be really advanced." I said, pondering the idea after our dinner out.

Spouse: "Anna." He interrupted as we stopped at the next red light. ". . . cooking gas isn't made from pigs' farts!" He said, disbelief written all over his face.

Me: "Don't be silly. Then how is it made?" I replied with a sceptical look.

Spouse: "Anna, cooking gas is NOT made from pigs fart!" He said, looking at me with surprise.

Me: "Then how is it made?" I asked, feeling a bit embarrassed.

Spouse: "I'll tell you all about it, but trust me, it's not from pig farts."

Me: "Are you saying my cousin is a liar?!"

Spouse: "Well, yes. He was probably messing with you!"

Me: "Messing with me?"

Spouse: "Yeah, don't worry about it."

The conversation continued until we arrived home. By the time we reached the door, my unquestioning childish belief had died and been buried. Flowers were thrown on its grave without words of comfort.

***

Maturing
Life As We Know It

Have you ever believed in something and never thought to verify its truth until you voiced your belief one day during a conversation with whoever, only to learn it was all a LIE?

As we read earlier, this was the case with me as we relived my belief in the manufacturing of cooking gas. I used to think that gas was made from pig flatulence on pig farms, and I believed this until I was thirty-nine. As we read in the above dialogue, my husband helped me understand that this was false.

When we are young, we often accept what we are told without questioning whether it is true or not. As we learnt, I never thought to question nor verify the manufacturing of cooking gas until that fateful day when my husband, shocked and disbelieving at my long-held view, explained the truth.

After discovering the origins of cooking gases, I was initially astounded and felt sheepish and betrayed, but I realised that the presented truth was indeed accurate. It was like pruning a dead branch, letting go of unnecessary weight, information that did not deserve the real estate in my mind.

Recently, my spouse and I had another 'battle of the brains' with our television. I thought we had a 23-inch television and even mentioned this in the first volume — confident and without question, while my spouse thought it was 75-inch. It turns out neither of us was right, but

only after we started comparing units of measurement. This made me realise that our personal, treasured truths may not always align with the actual facts.

Actual facts staring at us in the face. The belief our minds held restricted our foresight to the facts.

As we grow, we start to see things more clearly and often realise that what we once believed may not be accurate.

This reminds me of one of Paul's teachings:

> *11 When I was a child, I spake as a child, I understood as a child, I thought as a child: but when I became a man(kind), I put away childish things. (1 Corinthians 13:11 KVJ)"*

Welcome to Volume Two of Project Clock Codes, where we will discover a fresh and thought-provoking perspective that challenges our "child-like" paradigms. Together, we will put away childish things, no longer 'tossed about by the waves and carried around by every wind of teaching and by the clever cunning of men in their deceitful scheming'.

The truth we will all learn has discovered is hidden in time.

Yes! You read right. TIME—and not in the manner we know and live by. Time will be interchanged for this book with 'clock,' hence the book's title. This truth was revealed to me after I asked God—What is his ancient

There was so much truth to process that I ignored the date because I was busy documenting the information. Later, I realised that this truth is to be shouted on the rooftops. [1]

To edify the body of Christ.

We will start with a physical graphic of a clock. Then, we will explain how to use it and briefly cover how to understand what is displayed on the following pages before getting into the details that nurture faith and bring us to maturity.

"For God is not a God of confusion." [2]

From now on, I recommend readers who are born-again believers in Jesus Christ pray that the Holy Spirit opens our eyes to what is about to unfold.

[1] Whatever I tell you in the dark, speak in the light; and what you hear in the ear, preach on the housetops. (Matthew 10:27 NKJV)

[2] "For God is not the author of confusion [disorder] but of peace, as in all the churches of the saints." (1 Corinthians 14:33)

crossroads? Where are his ancient paths that we need to walk on, the paths he mentions in Jeremiah 6:16.

After I asked the question, I was surprised to receive a prompt response from God. As a fallible human, I cannot recall the exact date or time, but I remember it was almost immediate.

How To Understand The Ancient Crossroad

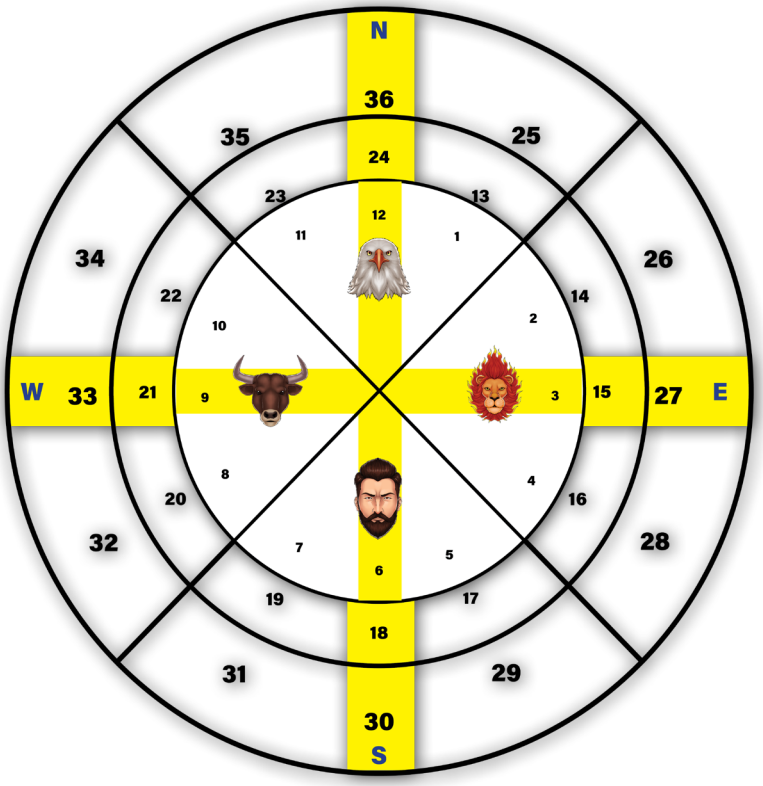

Figure 1— Ancient Crossroad

Clock Hours

There are three clock hours; one is generally used while the other two are added.

Compass Points

N is North, E is East, W is West, and S is South.

Yellow Cross

Chapter two of Numbers, the fourth book of the Bible, is an insight by Dr Chuck Missler (Koinonia House, 2006

p.15), redrawn and adjusted 90 degrees upwards to align with the time map.

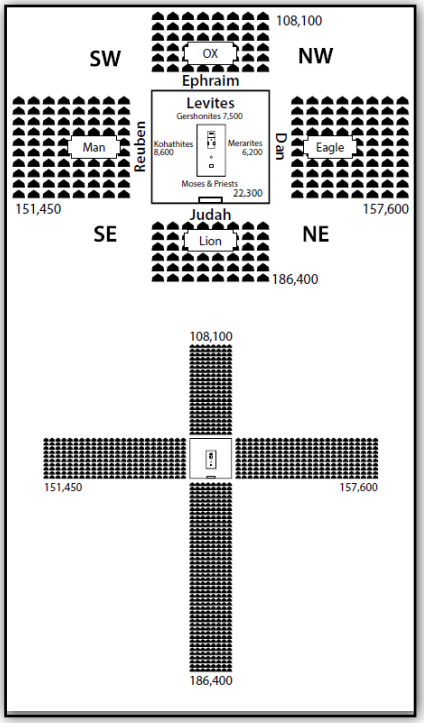

Figure 1b—Missler's insight. Source: Koinonia House, 2006, Book of Numbers Commentary, p.15

Animal Faces

Eagle is located North, Lion is located East, Bull is located West, and Man is located South—Cherubim of Heaven, God's special forces. For where the Cherubim goes, Jesus is there.

Clock hours further explained

I have condensed the clock hours to three for clarity. These hours can extend to four thousand; however, due to space constraints, I cannot include all of them. The three hours are the 12th, 24th, and 36th. In the first volume, we learned that these hours represent three ancient patterns, each pointing to the two powers of heaven and the Holy Spirit.

In the following pages, I will revisit content from the first volume, but I will avoid repeating myself to prevent spoiler alerts.

We will revisit Project Clock Code's volume one —the topic about the three ancient number patterns discovered hidden in Exodus 12:2—briefly.

Simply put, when we combined two concepts, such as the second method of Ancient Hebraic Gematria, known as Katan, and vortex math, we discovered that all large numbers can be condensed to a single number. Katan is a form in which no number is less than one and no larger than nine. We found that the superimposed "spirit number" is nine, which is associated with the Holy Spirit. To further confirm the presence of the Holy Spirit, we observed that these three patterns were concealed within His nine fruit and eighteen gifts.

If you have not read the first volume, I recommend doing so before continuing, especially if you are confused.[1] If not, by all means, continue reading.

If you are unfamiliar with the three ancient patterns 147, 258, and 369, I suggest reading the first volume of Project Clock Codes to understand how these insights were revealed. Surprisingly, these patterns are widely recognised in the secular world. You can start by delving

[1] Project Clock Codes: Releasing Messiah's Matrix, www.amazon.com

into Solfeggio's work and then comparing his patterns to Exodus 12:2, discussed in the first volume. This will help expand your understanding of the connection between our paradigms and the reality of God in everything.

Many do not fully understand the concept of God in everything. After reading this book and volume one, your understanding may change or mature. This boils down to the Cherubim placed around the clock. I call this the Cherubim Principle. If we understand the Cherubim Principle, we will understand the other volumes that will be presented in the future, God permitting.

As we return to the page about the Cherubim, we find the four heads, the leaders, and the perceptions. Most of us know this is how God instructed the Israelites in the second book of Moses— Exodus, to camp, and for good reason. We understand the physical reasons why they camped according to God's instructions. Now we will explore the other perspectives of 'why' God instructed Moses to guide his people in their camping arrangements in the desert.

The following perspective is spiritual. Those who are fully acquainted with the voice of the Holy Spirit will be aware that the eagle is the spirit of prophecy, the lion is either seen as Jesus, the avenger, the king of kings, or the roaring lion Satan who comes to kill, steal, and destroy and the serpent from Genesis 3:15. Man is the sign of things of man. The bull is a sign of the Bulls of Bashan or signs of plenty or famine. [1]

The Holy Spirit brings to our remembrance three perspectives: the perspective of personalities, the perspective of being seated in heavenly places, and the perspective of literalness.

---

[1] Joseph interprets Pharoah's dreams (Genesis 41 NKJV)

Perspective of Personalities

The Eagle

These people can see from point A to point Z. They like high places, and when storms form, they do not scatter but fly above the storm and ride the winds. These people only 'fly down' when they need to eat, raise their families, or rest. These people are optimistic about life, know the fast route to destinations, and are the first to reach destinations because of the wings God gave them. They can be misjudged as high-headed, stuck in the clouds and separate from all else.

With the eagle comes the subcategory of other birds. Historical records show that Dan changed his ensign from a snake to an eagle holding a snake, according to reputable Bible scholars such as Dr Chuck Missler and Dr Merrill F Unger (Towan, 2021, p. 244).

The Lion

Remember this: Alpha lions are chosen by the pride, the lionesses. Just like Satan fell due to his pride, some may let their pride coax them into believing they should be the leader of the heavens and earth. Human pride may also be influenced by those we surround ourselves with.

Alpha lions are natural leaders, influenced by their 'pride'—from those around them and within themselves. This indirectly hints at the importance of spiritual armour, a topic I will delve into in a future volume of Project Clock Codes.

The lion is just one of many feline species. Cougars, leopards, pumas, house cats, sphinxes, and numerous

others are currently classified as having 41 species (Wild Cats, 2024). Remember, one shoe size does not fit all. This principle, reminiscent of the Cherubim Principle known back in Adam's time, speaks volumes.

Lions have a persona that exudes leadership. With leadership comes confidence, command, and a firmness of words and deeds. They roar, and others cower. Those of the bull category will always keep their distance from danger, as East is from West. As we observe time, we see this distance glaring at us, a reminder that God created time.

The Bull

These people are detail-oriented; bulls eat the grass; therefore, their heads are always at ground level. They are humble and simple, but their simplicity is often misjudged as either boring or stupid.

They are strong-minded, especially the males, who are sometimes hot-headed and must be separated during mating season, or else all hell breaks loose.

Bulls have four parts to one stomach, which we know as four stomachs (or three to the general public). They like to reflect, dwell, and think about life's circumstances before regurgitating what they have consumed. We all regurgitate what we have been taught in life and, at times, without fact-checking, as introduced in this book.

The Man

Man is made in God's image.[1] In volume one, we learnt that the number six is of the original man, Jesus Christ! Our God the Father, whom the Holy Spirit revealed.

The original man Jesus Christ we know is the word who hovered over the waters and created all things by him, and through him, all things consist of him.[2]

He is 'The Creator'.

People under the man are inventors. All can create, but some are born to invent gadgets that marvel us non-inventors, like the Wright Brothers, Edison, Isaac Newton, and Nikola Tesla, to name a few from an exhaustive list of inventors from the future's past. They create things that enable all of us then, now, and future generations to benefit.

These people help us adapt to situations like flying in the sky like eagles, swimming and diving in the oceans like Whales and sea creatures, and 'running' our cars like lions, horses, and all those speedy creatures, which require a lot of attention to detail, much like bulls.

They make our lives easier, simpler, and fun. However, Satan comes to kill, steal and destroy things meant for humans' longevity. He destroys our unity by using our personalities against each other. He is that Cherub who fell probably because he saw who we are before we came to be, got jealous and prideful, and the rest is history.

---

[1] 27 So God created man in His own image; in the image of God He created him; male and female He created them. (Genesis 1:27 NKJV)

[2] 16 For by Him all things were created that are in heaven and that are on earth, visible and invisible, whether thrones or dominions or [a]principalities or powers. All things were created through Him and for Him. 17 And He is before all things, and in Him all things consist. (Colossians 1:16-17 NKJV)

He continues to strike our heads (which is why we need the helmet of Salvation), and we stand on his heel (a clue that we have the authority to remove their peace. [1]

More on that in a future volume.

Moreover, we must remember the strength of the eagle is the bull's weakness, the bull's strength is the eagle's weakness. The strength of the lion is the man's weakness, and the man's strength is the weakness of the lion, bull and eagle, for man has dominion over the beast.

Remember the strength of Christ is the weakness of all, and all our strength combined is still weakness compared to God's strength. Therefore, those who are in Christ are able to bite into the ninth fruit of self-control, the triple strength of our Father and Son taught by the Holy Spirit.

So let us bite into the triple strength of our God's self-control and put away our flesh weakness and be the new creation he created us to be as we delve into chapter one.

[1] 3 If the household is worthy, let your peace come upon it. But if it is not worthy, let your peace return to you. 14 And whoever will not receive you nor hear your words, when you depart from that house or city, shake off the dust from your feet. 15 Assuredly, I say to you, it will be more tolerable for the land of Sodom and Gomorrah in the day of judgment than for that city!" (Matthew 10:13-15 NKJV)

Perspective of Seated in Heavenly Places

> *and raised us together and made us sit together in the heavenly places in Christ Jesus, 7 that in the ages to come He might show the exceeding riches of His grace in His kindness toward us in Christ Jesus. (Ephesians 2:6-7 NKJV)*"

We know the Holy Spirit comes in Jesus Christ's name, and Jesus says what the Father says to him to say to us.[1]

Recall how the Levites are situated in the middle of the Israelite camp. They were the code of leaving the I out of our old nature (Levi = Lev-I = leave I) and letting the true I AM (morning son, hidden in the Sun rising from the East) inside our hearts. The Levites were high priests, but now Jesus Christ is our high priest; he is the center of our hearts, the breastplate of righteousness.

We are also aware that the Levites were not given a land inheritance, but they were to build cities anywhere in Israel of refuge for those who committed crimes unintentionally.[2] They were key to understanding God's grace and mercy toward us when we came to him for refuge. He is the king who brings peace to troubled hearts for a time.As we refocus on the clock image, we see that with Jesus Christ in the heart of believers who have the

---

[1] 26 But the [a]Helper, the Holy Spirit, whom the Father will send in My name, He will teach you all things, and bring to your remembrance all things that I said to you. 27 Peace I leave with you, My peace I give to you; not as the world gives do I give to you. Let not your heart be troubled, neither let it be afraid. (John 14:26-28)

[2] Exodus 21:12–14; Numbers 35:9–34; Deuteronomy 4:41–43, 19:1–13; Joshua 20; 1 Chronicles 6.

anointing of the bull who is as far from the lion as east to the west—literally. [1]

Will not flee but will work with the lion without fear, while the lion will not hunt the bull and those who fall under plant-eating animals. Those who have the anointing of the lion in Jesus will not look at the bulls as prey but as precious pearls under the eyes of God.

The inventors work with eagles, lions, and bulls, representing all other subcategory anointings and talents.

We see love, unity, one body, and four heads. We know Jesus is from the tribe of Judah, the fourth born; therefore, we merge the Cherubim Principle with Jesus Christ's tribe and get one head with its four primary functions. The Body of Christ is in all corners of the earth, from the N.E.W.S, who bring the gospel of Jesus Christ.

The ones he hid in time are now revealed for this time. [2]

We now see the multidimensions of the cross, the body of Christ, and the believers, as demonstrated in the

following figure.

---

[1] As far as the east is from the west, So far has He removed our transgressions from us. (Psalms 103:12). [A code of four corners of earth as seen in the clock image].

[2] 14 For if you remain completely silent at this time, relief and deliverance will arise for the Jews from another place, but you and your father's house will perish. Yet who knows whether you have come to the kingdom for such a time as this?" (Esther 4:14)

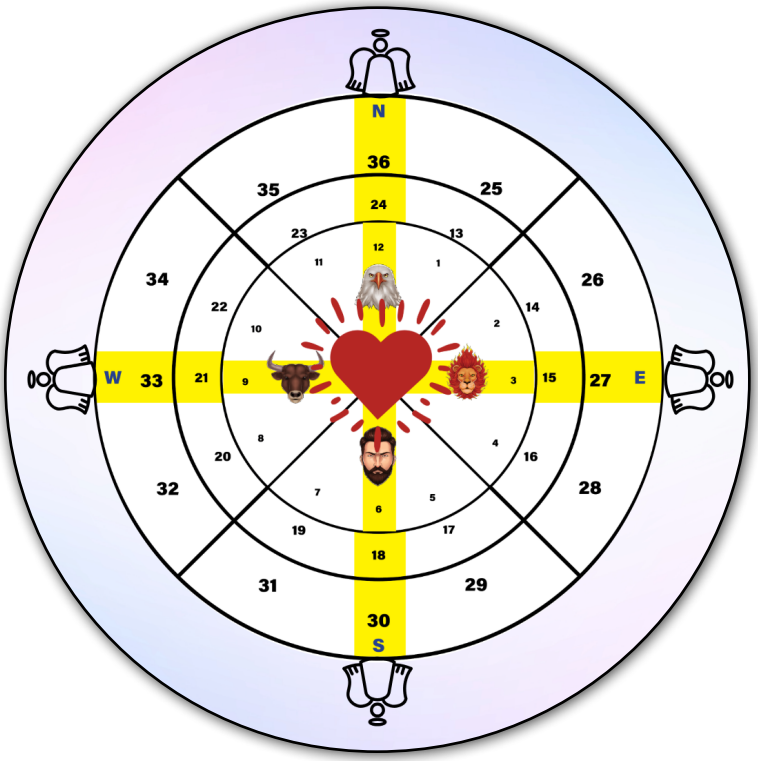

Figure 2—Ancient crossroad glimpsing the multidimensions

The Perspective of Literalness

The heavenly places where the eagle reigns, or, in other words, the aerial point of view, provide us with a literal earth view. We utilise satellites to observe Earth's locations, regardless of our preferred search engines.

Acquiring the satellite view involved talented individuals capturing photos, cartographers drawing maps, space experts creating and formatting data, and scientists

launching rockets or balloons. Their combined talents and ideas, blending and merging, have culminated in significant benefits for us.

In the first volume, readers would have undoubtedly noticed aspects of this literalness, particularly the hidden presence of the Cherubim in American locations, predominantly in schools adorned with emblems identical to the four-faced creatures.

As stated in volume one, we learned with awe how the seventh hour—termed CP (clock points) seven—is where Israel's coordinates were hidden, and that Joshua 19 also hid the exact locations for Simeon and Judah's tribe regions. This, in turn, revealed the 144'000 from Revelation 7:4 when a measurement line was drawn from their region to Mt Hermon (Towan, p.211).

Remember, Judah and Simeon's heritage was shared because Judah's heritage was too much for them. [1]

Chapter five of the first volume discusses in depth how this discovery was made, should you wish to know how. And for those wondering, America is along the clock line of the Eagle region—a fact staring us in the face when we compare the American flag ensign and the Eagle ensign in the ancient crossroads provided in Figures One and Two. Australia is along the clock lines of the Southeast.

While Egypt is on the thirtieth, a direct line from CP 12, identical to God's calendar patterns. And Mt Hermon, where the angels fell on the ninth hour.

---

[1] 9 The inheritance of the children of Simeon was included in the share of the children of Judah, for the share of the children of Judah was [a]too much for them. (Joshua 19:9)

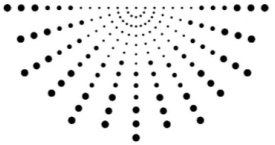
They are right on point on the clock, but we must use the extra extended hours that require a larger space than the A4 here.

Observe how the number *thirty-three* is where the bull is. Realise the interdimensional aspect of this simple clock map. With this map come stories of all ages, including our redemptions. Observe how Jesus was *twelve* when he first preached at the temple and how his ministry started at age *thirty*; he died at *thirty-three* and rose on the *third* day. This alone reveals the Hebraic calendar patterns discussed at great length in volume one, hidden in Exodus 12:2.

For this volume, we will focus on this literal perspective. As we begin Chapter One, I recommend you prepare yourself to be blown away by what is on the next page and what the Holy Spirit has taught. We will uncover forgotten knowledge as we analyse each interdimensional time facet in its most literal form.

***

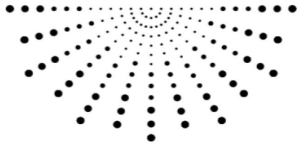
CHAPTER I



PYRAMID'S

HIDDEN PORTALS

THE CALL



Are not the Rays of Light in passing by the edges and sides of Bodies, bent several times backwards and forwards, with a motion like that of an Eel? And do not the three Fringes of colour'd Light... arise from three such bendings? —Issac Newton

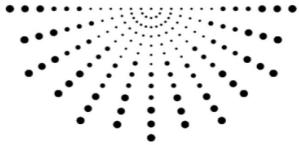
Pyramid Pathways is a name that evokes a sense of curiosity and wonder about the ancient secrets and mystical powers concealed within. Personally, I never had a keen interest in pyramids. Still, I found myself fascinated by patterns around me, ranging from colours to clothing, plants, car registrations, the number of people in a room, and even the screenshots of numbers that align, such as 18:18 or 11:11, including inverse numbers like 12:21 or 24:42. I enjoy writing numbers down and have always wondered why everything is numbered. To this day, I screenshot numbers that align whenever I check my S6 Android phone.

My interest in numbers grew after a bizarre dream that stuck with me. I could not shake it off until one day; after fasting and praying for 21 days, the dream's meaning came to light. In the dream, I was in a classroom with an angel in front of me, dressed in white linen.

The angel taught me to use strange texts and imagery on the blackboard as if the information were of utmost

importance. The lesson lasted all night, and when I woke up, my brain felt like I had just stuffed tons of books into parts of my brain that I did not even know existed. I had a mental ache, but it was not a regular headache. It felt like my brain was compacting information. Information during that time felt like it was held by an invisible wall, just like how a dam contains collected rainfall.

DIVINE GUIDANCE



The lamp of divine guidance is in your hand. Pour the oil of faith in it. It doesn't illuminate the whole path at once. It guides you one step at a time." — Shunya

After receiving information from an angel, I spent many hours trying to comprehend it. I studied ancient biblical texts and researched the ancient Hebrew menorah to understand the information better. Additionally, I sought guidance and wisdom from the Triune God by consulting the Holy Spirit in my heart, as well as prayer times and moments when I sought the calming essence of nature. During this time, I was also pursuing part-time studies at CQUniversity. I was particularly drawn to Geography and Environmental Studies and the Creative and Professional Writing majors.

I am thrilled to share my journey of discovery with you. It was a journey fueled by my hunger to know God on a deeper level, and my hunger led me to uncover the secrets of the Universe that point to Jesus Christ.

I researched the Hebrew calendar's number patterns for months, hoping to find something valuable. I spent countless hours inputting data onto Google Earth, not knowing what I would find. Nevertheless, I persevered, driven by a sense of adventure, excitement and a desire to

uncover something special—Jesus' fingerprints, pattern prints or anything that said and proved he is in all things.

As I worked, an idea occurred to pair these findings with the numbers of time and see what happens. I applied and blended both the ancient Hebrew and Vortex math mentioned earlier in the introduction, and suddenly, the Universe's secrets, as Nikola Tesla quoted, were open. The secret of the universe of 369 was born from this discovery. All I had to do was to turn the key, press and walk into the intricately layered dimensions of wonder.

I continued experimenting with this method and vortex math, which, once inside, opened a wealth of treasure. With help, I unraveled the I-Principle, an ancient concept of interconnectedness, and the Tabernacle (or hexagon) principle. These principles revealed a mind-boggling connection between nations, which I found fascinating.

During this journey, I was attacked by an evil-looking spirit, which then later led to me being suicidal—this ties in with my testimony shared in volume one. After overcoming suicidal intentions, I learned the significance of following my spiritual instincts and trusting the guidance of the Holy Spirit. It reminded me that the Bible is full of mysteries waiting to be uncovered, and we must explore and discover them as if we were searching for treasure.[1] In the following section, we will examine these discoveries and how they have manifested in various forms over the years.

---

[1] 3 Yes, if you cry out for discernment, And lift up your voice for understanding, 4 If you seek her as silver, And search for her as for hidden treasures; 5 Then you will understand the fear of the LORD, And find the knowledge of God. 6 For the LORD gives wisdom; From His mouth come knowledge and understanding; 7 He stores up sound wisdom for the upright; He is a shield to those who walk uprightly; 8 He guards the paths of justice, And preserves the way of His saints. 9 Then you will understand righteousness and justice, Equity and every good path. (Proverbs 2:3-9)

***

Isabella: "Mummy, look, eleven plus one is twelve, ten plus two is twelve, nine plus three is twelve, eight plus four is twelve, seven plus five is twelve, six plus six equals twelve and twelve is twelve."

Me (while looking at her clock on the wall): "Ah yeah, wow, will you look at that?"

Isabella (half singing): "I am TWELVE!!"

Me: "Yes, you are, darling, and that is so clever of you. I think the Holy Spirit has just spoken through you. You just helped mummy break through a blockage I was feeling, darling."

Isabella: "Really?"

Me: "Yes, Mum was praying and asking God what is next with the book I am writing."

Isabella: "What book?"

Me: "The one about the menorah secrets . . ."

[This book is the completed book Volume One of Project Clock Codes]

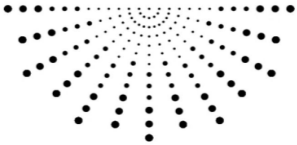
UNDERSTANDING THE PYRAMID PORTALS



The person of Jesus creates your peace; the principles of Jesus create your prosperity. — Mike Murdock

The 'I-Principle'

As we read above, my daughter, who was twelve at the time, discovered the I-Principle. We will now recollect what she said and rewrite her insight in numerical form: 11 + 1 = 12, 10 + 2 = 12, 9 + 3 = 12, 8 + 4 = 12, 7 + 5 = 12, 6 + 6 = 12, and 12 + 0 = 12. This led to the principal being named after her, as her first name is Isabella and starts with the letter "I".

On a personal note, it suddenly dawned on me while walking out of her room that night while reflecting on her discovery. Satan knew her talent and stole it before she was even born, just like how the fallen angels tried to steal the Son of Man – Jesus Christ's foreplaned redemption plan for us. Naturally, I became angry but realised I must not give room to the enemy and committed her and her purpose to God.

Returning to the subject at hand, we will focus on a figure that I refer to as the Hidden Twelve. The Hidden Twelve is essentially the basis for every other I-P, and when we use vortex math, we arrive at the single digit of three.

Three is the first crucial number, followed by six and nine as the second and third keys. From research and elaborated on in the first volume, no matter where we look, three, six and nine are the foundation numbers for everything.

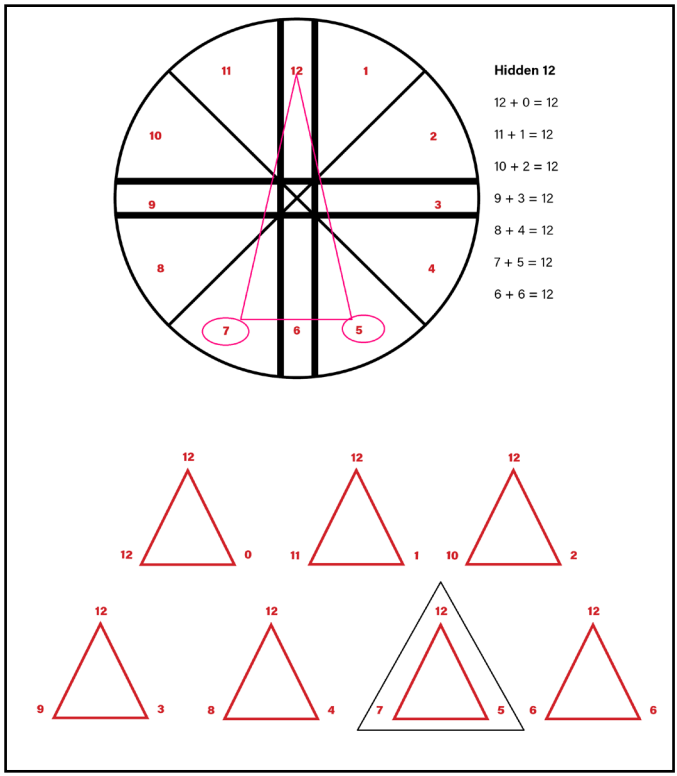


Figure 3— The Hidden Twelve

As we see in Figure three, number three, the first and founding numbers, all numbers from left to right clock points, result in twelve, which rounds to three.

For example, 7 + 5 = 12 therefore 1 + 2 = 3.

We need to know all founding numbers to pair and match coordinates for every nation. However, before doing that, we must understand the three number patterns that all nations fall under. This will help us decipher which pyramid code each nation belongs to.

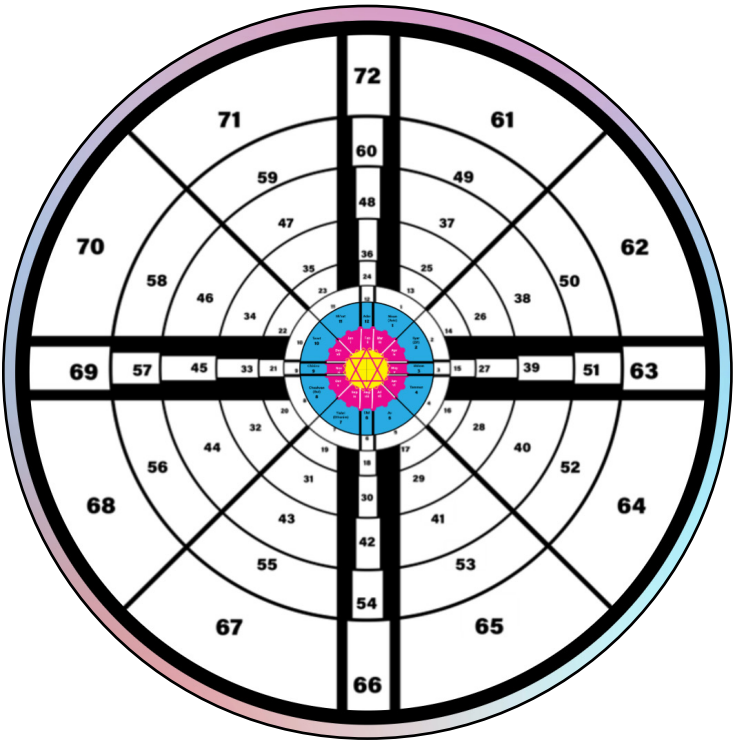

Figure 4—Extended numbers on a clock, ranging from the 12th hour to the 72nd hour

Figure four is to be used as the founding map on which the nation is accurately based, according to the Pyramid Pathway map. For example, America is in the NE & NW region of the clock; therefore, it is connected to three and six pyramid codes.

Australia is in the SE region of the clock; therefore, Australia will be connected to the pyramid codes of three and six, depending on natural factors that change these numbers from time to time, in theory.

Some nations are connected to all pyramid pathways (from this point on, I will say portals); these portals can connect to the NW or NE, but regions along the 'equator' can connect to all points.

We will now focus on these three founding points in their unveiled form before proceeding to the next stage.

Figure five displays the rounded numbers of Figure four from scripted numbers of time, which are twined with the ancient calendars God gave to Moses during the Exodus[1] period. All number patterns on the clock and Exodus are identical as we learnt in volume one.

The appendices contain hypothetical formulas for hyperspace time skipping.

[1] When God swaps the first month to the seventh, the second to the fifth, the third to the ninth and so on as seen in Exodus 12:2

The key to understanding 'expansion one' is:

- Blue = God's calendars given to Moses
- Yellow = Time
- Pink = Gregorian calendar
- Following the Dead Sea Scrolls' interpretation.[1]

[1] The Ancient Dead Sea Scroll Calendar and The Prophecies it Reveals by Ken Johnson, TH.D.

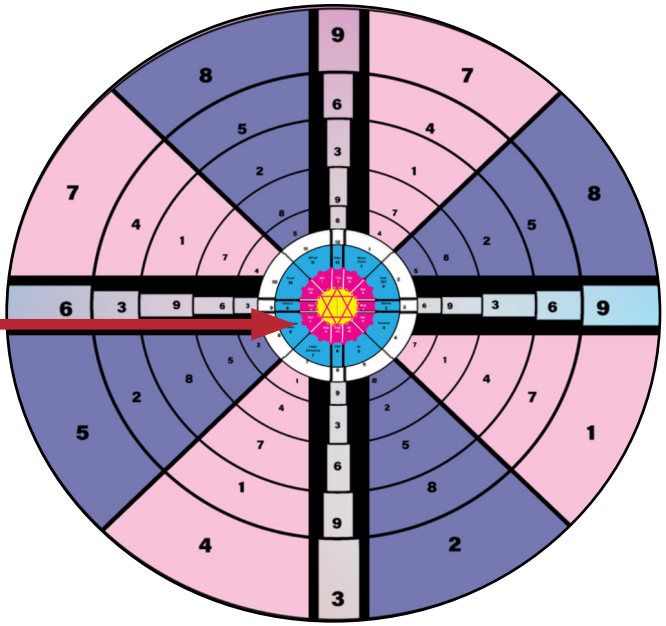

Figure 5—Ancient Hebrew calendar paired with Gregorian calendar and adjusted to align with the clock structure

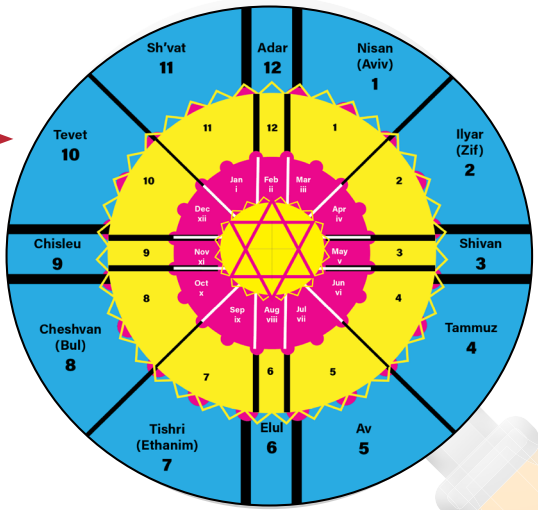


Expansion 1—Zoomed and improved middle section for figures four and five

EVIDENCE OF THESE PATTERNS AROUND US

We are called to communicate regardless of how people will accept or reject. — Dan Lutz

God's Three Forms

As we analyse Figure five, observe how these condensed numbers from Figure four all come in the three ancient patterns mentioned briefly in the introduction. Observe how the circle's first half has non-changing numbers, depicting heaven's realm or the unseen realm. The bottom half has numbers that the sequence of the pattern shuffles, hinting at the law of decay.

Observe how the tenth hour is the first hour, the eleventh hour is the second hour, then we have the twelfth hour, which is the repeat of one and two glued together, then we proceed to the first hour as the first hour, then the second as the second hour. Then, with the third hour, which is the addition of one and two. Notice how the first and second hours repeat three times subtly, but then the third hour is obvious. In comparison, the hidden is concealed from a literal perspective in the eleventh and tenth hours.

Here we see a glimpse of the two powers of heaven, God, the Father; God, the Son; and God the Holy Spirit in their three forms:

The *obvious*, the *subtle* and the *hidden*.

Understanding God's ultimate literalness is vital to understanding how he is all perspectives and that we who belong to him must see this. It is part of our maturity to reach the next level to do greater work from all levels, all interconnectedness, all perspectives, combined and never separated, for he is in ALL things.

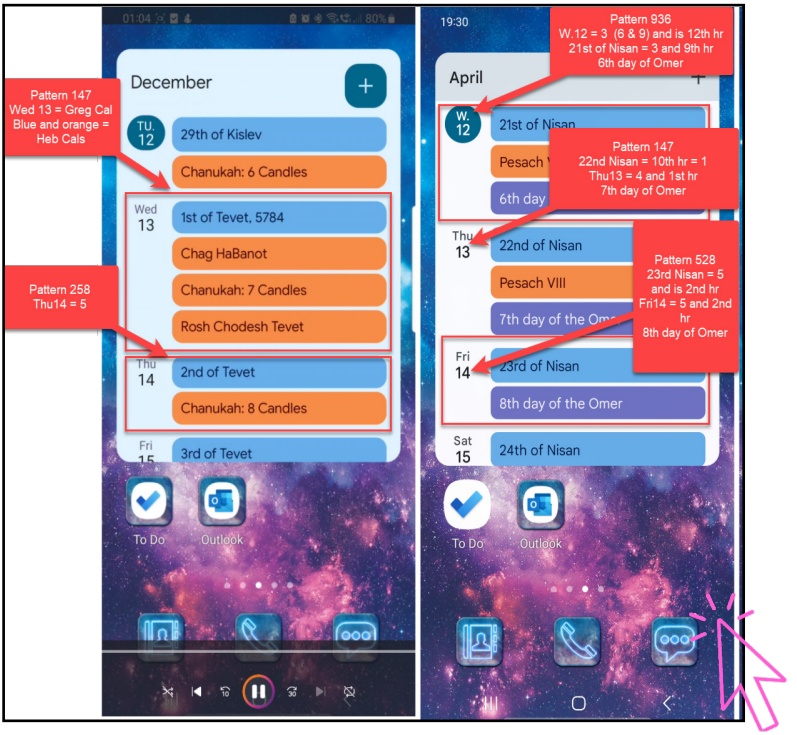
We will deviate and briefly analyse some personal screenshots from my Android S6 phone that reveal these patterns. Next, we will look at coordinates aligning with a "bull's eye" view and bizarre correlations to UFO sightings. We will revisit some graphs[1] created from God's ancient calendar data mentioned in volume one, I will elaborate here on how these reveal ancient Star Forts worldwide.

Then, we will skim the surface of how these star forts look from cymatics experiments where sound is made visible. After this, we will continue with the pyramid pathways.

[1] Towan, p187 – chapter 5 (kindle version)

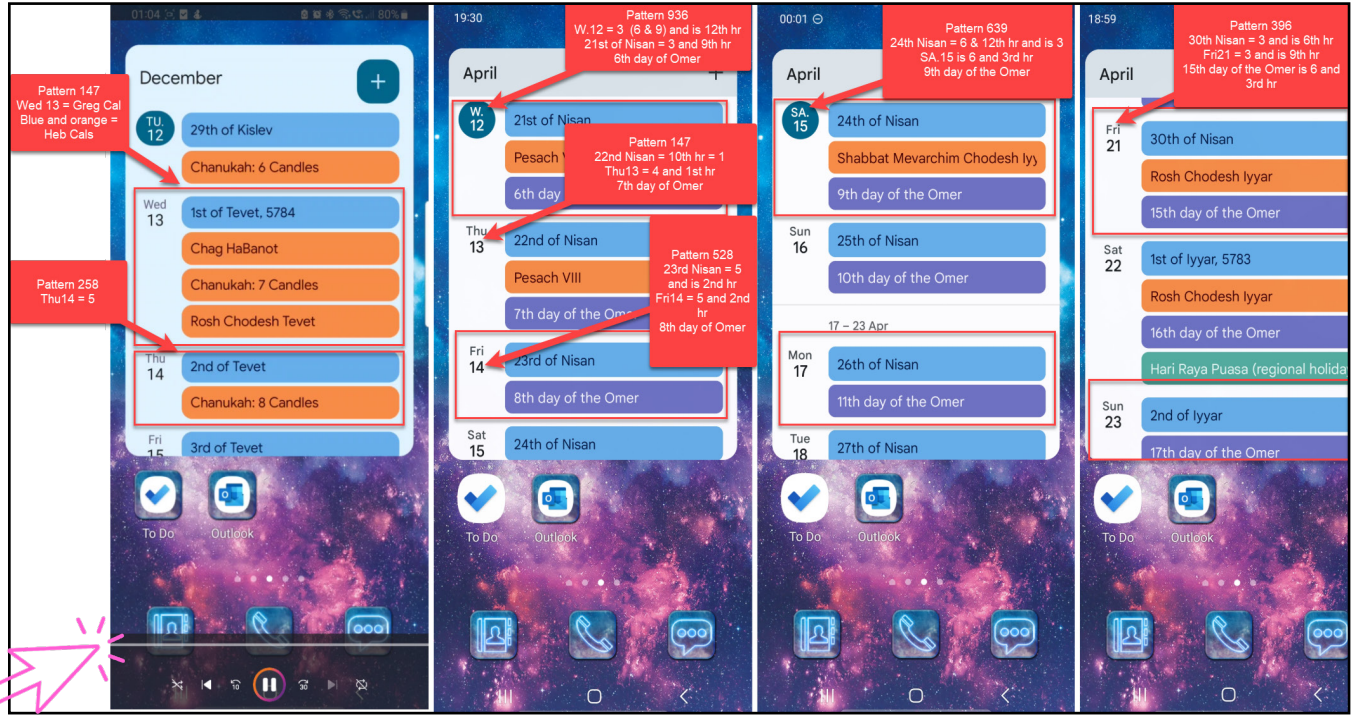
Combining the Gregorian and Hebrew Calendars

The screenshots you're about to observe have God's patterns these were created on Monday, 25 December 2023, at 9:54:13 PM. Brisbane, QLD time.



Screenshot 1—December and April

The following page has a larger view with two extra screenshots. These are meant to be a testiment to how God is in everything whether we know it or not. Readers need to adjust the next page.



Screenshot 1b—December and April

Observe and compare these to Figure five. I have labelled some correlations in red in screenshot one. Let us take a look at December. According to the Essene calendar, December is on Tevet, the 10th Month on the Jewish Calendar; we know ten rounds to one.

Moreover, here we so happen to have the first pattern of 147. As we analyse December, we see that the 29th of Kislev appears to be the ending of a time before moving on to the 1st of Tevet, 5784.

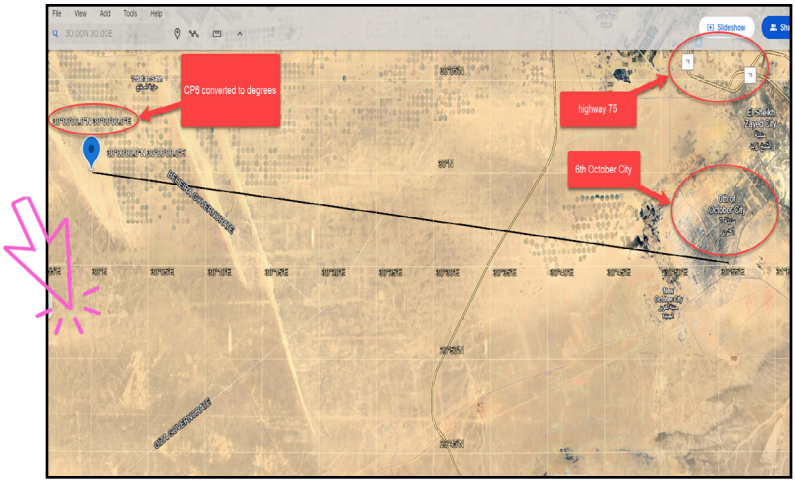
Observe how CP5 and CP7 are the first of the 'I-Principle' from Figure three. At the same time, CP8 and CP4 are second. For future reference, CPs 12 & 6 and CPs 3 & 9 are direct lines.

Egypt

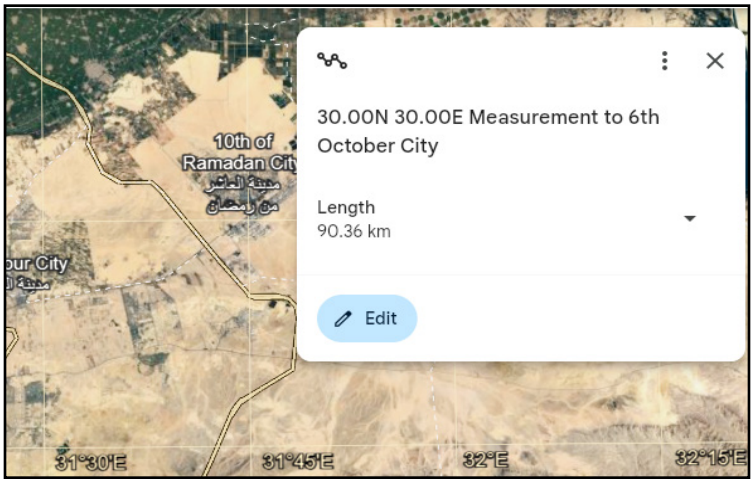
Some of us are familiar with Egypt's Highway 75, which hints at the three pyramids and the coordinates 30°N 30°E. Some of us may know about the city in Egypt called 6th of October City.

Ironically, the Pyramids of Giza are Eastward of Map 1, and with it comes the Sphinx. Another detail to consider is that the black line in Map 1 is the measurement line from the CP6 converted to coordinates to the 6th of October City, measuring 90.36 km.[1] These are patterns we cannot fabricate by ourselves.

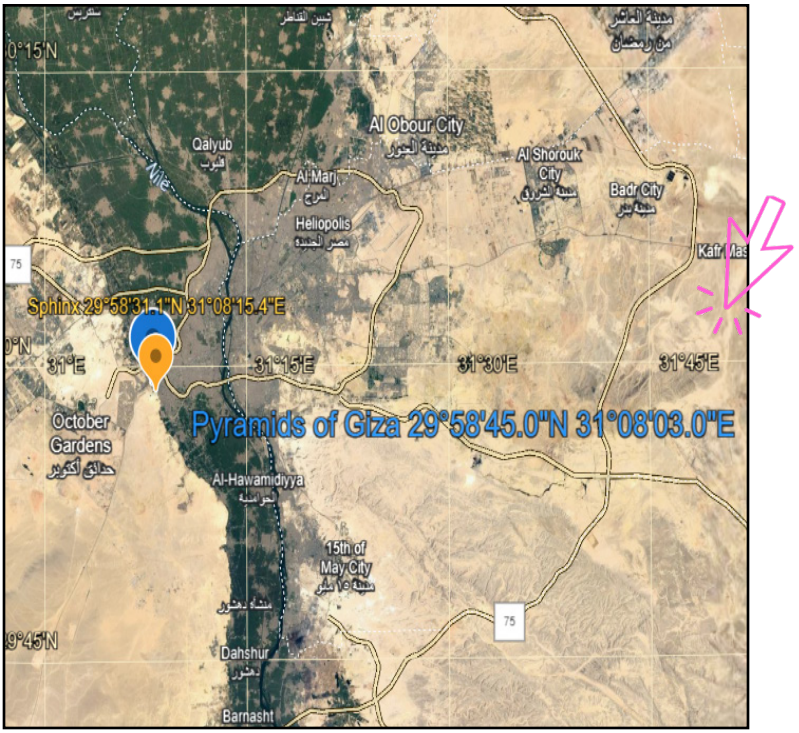
[1] Link to Google Earth: https://earth.google.com/earth/d/12bgx0099ZMivnwgj6b4d8zI29PfkovF?usp=sharing



Map 1—CPs 6 converts to 30.00N 30.00E Egypt, highway 75 correlation with 6th of October City (Google Earth, 2024)



Map 2—Measurement for CP6 conversion to 6th of October City, Egypt (Google Earth, 2024)



Map 3—Sphinx not far from the Pyramid of Giza (Google Earth, 2024)

Scan QR Code

To view Egypt Google Earth Link

Many of us know that the Sphinx is an ancient monument of the head of a woman and the body of a lion (Bullinger, 2015, p. 13). Notice how the Pyramid of Giza and the Sphinx coordinates start with the number twenty-nine, which happens to align with the number 29th of Kislev also known as Chisleu(v) which happens to be on CP9 for the first expanded calendric wheel shown earlier.

UFO Sightings

The highest number of UFO recorded sightings since 1561—where only two were reported, was in July 2014, where 1135 UFO sightings were recorded worldwide. The year 1561, the year of the first two solid UFO sightings, occurred ten years after numbers in chapters and verses were added to the Bible.[1]

'The first English Bible to use the verses was a translation by William Whittingham in 1557. The first English Bible to use the chapter and verse divisions was the Geneva Bible, published in 1560 by Sir Rowland Hill' (Steward, 2023).

The second highest number of UFO sightings was recorded six years before 2020. In April 2020, Passover, one of the Feasts of the Lord, occurred Wednesday through Thursday, April 8-16. The Jewish year moon calendar was 5780 and had the second highest record of 1061 UFO sightings for the entire Earth (NUFORC Reports by Month, 2024).

The third-highest number of UFO sightings was in June 2013, when 1000 sightings were recorded (NUFORC Reports by Month, 2024).

[1] 'Verse divisions were not to come along for another three centuries. In 1551, a Parisian printer named Robert Stephanus published a Greek and Latin edition of the New Testament in which each chapter was divided into separate verses. These are the verse divisions still in use today. They first appeared in an English translation in the 1560 Geneva Version' (Ehrman, 2022).

Table 1—The three highest recordings of UFO sightings and Israel correlation

YEAR	UFO SIGHTINGS RECORDS	HEBREW CORRELATION	OTHER
2013/06	1000	25th June Tuesday 17th of Tammuz. [1]	21 June Solstice Summer Northern Hemisphere
2014/07	1135	15th July Tuesday 17th of Tammuz. [2]	June 21 June Solstice
2020/04	1061	Passover Wed Thurs, 8th – 16th April. [3] Celebrated between the 15th and 22nd day of the month of Nissan. [4] Highest recorded warmer temperatures. [5]	The year the world stood still was the Covid-19 lockdown. [6] Spring Northern Hemisphere

[1] Table: 25th June, https://www.timeanddate.com/holidays/israel/2013

[2] 15th July, https://www.timeanddate.com/holidays/israel/2014

[3] Passover, https://www.umass.edu/orsl/resources/jewish/holidays/calendar

[4] Nissan, https://www.acton.org/publications/transatlantic/2019/04/22/faq-what-jewish-holiday-passover

[5] Maps global temperatures (https://www.ncei.noaa.gov/access/monitoring/ghcn-gridded-products/#global-maps-select)

[6] The year the world stood still https://www.cfr.org/article/2020-year-earth-stood-still-covid-19

The point is that there are no records with such high numbers from 1561. That's 463 years to date. The data shows only three records, with the first two having a six- and seven-year gap between each other (2014 – 2020 = 6 and 2020 – 2013 = 7). Evidently, 2013 is the last recorded year of UFO sightings that reached the thousand mark.[1]

Table one highlights that the 17th Tammuz is the date Hebrews mourn. A time they remember the five woes of Israel. The five calamities are:

1. In the year 1313 BCE, Moses broke the tablets of stone that were inscribed with the Ten Commandments and the idol of "the Golden Calf" was erected.

2. In the year 423 BCE, the daily sacrificial offerings were discontinued in the run-up to the destruction of the first temple.

3. In 70 CE, the Romans breached Jerusalem's walls and destroyed the second temple.

4. The Roman military leader Apostomus burned a Torah scroll, possibly around 50 CE, contributing to,

5. The Bar Kokhba revolt, the last war between the Romans and the Jews between 132 and 135 CE.

According to NUFORC Reports by Country.[2] The first UFO reported in Israel was in Eilat, Israel, on January 1, 1975 (precisely 08:00), and the last report was on October 17, 2023 (10/17/2023, exactly 16:08).

In hindsight, as we progress slowly to Pyramid Pathways, notice how the three years with the highest UFO sight-

[1] PDF link to the large graph for UFO sightings from 2013 – 2024 https://acrobat.adobe.com/id/urn:aaid:sc:AP:461c575a-54bf-4c8f-b375-e5a888505883

[2] NUFORC Israel, https://nuforc.org/subndx/?id=cIsrael

ings have exciting patterns in the numbers of the years and other events from Table One.

- Year 2013/06 equal 6/6 (the year 2013 = 6), 21 June = 3/6
- Year 2014/07 equal 7/7 (the year 2014 = 7), 21 June = 3/6
- Year 2020/04 equal 4/4 (the year 2020 = 4), covid 19 = 1/7

Remarkably, according to our analysis, the number 17 brings calamity not just to the Jews but to the entire world. Our screenshot section deviated from its own, and we conclude for this section how even numbers connect the things that may appear unrelated.

Table One shows that the highest UFO recordings occur during Passover, the 17th of Tammuz, and the Summer Solstice.

Scan QR Code

To view large chart for UFO sightings

In volume one, I theorise that the magnetic north shifting east may indicate the prophetic change of the ages.[1] The ancient patterns hidden in the magnetic north change were revealed; additionally, I now hypothesise that this change may be the reason for high UFO activity.

It may be that the shift in magnetic north indicates the aligning of forgotten pathways involving the sun as the source. Perhaps these UFOs may also be running on this source. For now, these are just speculations, and such theories can only be proven by those the Lord has blessed with talents suited to the topic.

I am fascinated that, in all three instances, as we analyse the data in Table One, these UFO sightings happened at the hottest times on our planet.

In hindsight, it may be why governments worldwide[2] are creating taxes that sound ridiculous, like the Sun tax.[3]

The following section will focus on graphs created from God's ancient calendar data and how these reveal ancient Star Forts worldwide. These graphs are briefly shown in volume one.

[1] Magnetic north shifting east September (Towan, p. 139-141, kindle version)

[2] Forbes Article (https://www.forbes.com/home-improvement/solar/solar-tax-credit-by-state/)

[3] What is sun tax? (https://www.canstarblue.com.au/solar/what-is-sun-tax/)

God's Ancient Data and Star Forts Connections

As mentioned, the correlations between ancient patterns associated with God and global star forts have piqued my interest and may also pique yours.

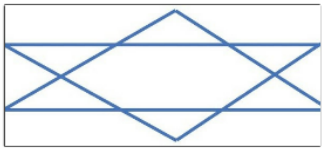
We will only focus on the pictorial and geometric shape aspect of this topic, and I will leave it at your discretion what interpretations you, the reader, formulate while delving into it.

We will focus on two shapes from six. The remainder of the shapes derived from Exodus 12:2 is provided in the first book. There, you will discover how these shapes were found.

Shape one

Six-Pointed Star

Also known as Solomon's Seal and Star of David, it is one of the shapes that caught my attention.



Shape 1-A combination of months seven and one (high to low), one and seven (low to high).

Figure 6—The Star of David hidden within God's first and seventh pattern (Towan, 2021, p. 188)

I am gob-smacked that God's first and seventh patterns combined formed this shape. Recall that these numbers, one and seven, are where America is slotted, at CP1, while Israel is at CP7.

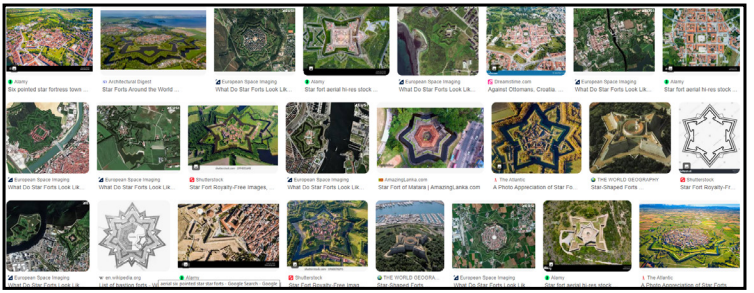


Figure 7—Screenshot of the Six-Pointed Star Forts (Google, 2024)

For the sake of thorough examination, we will zoom in on one of these forts to make a fair comparison.

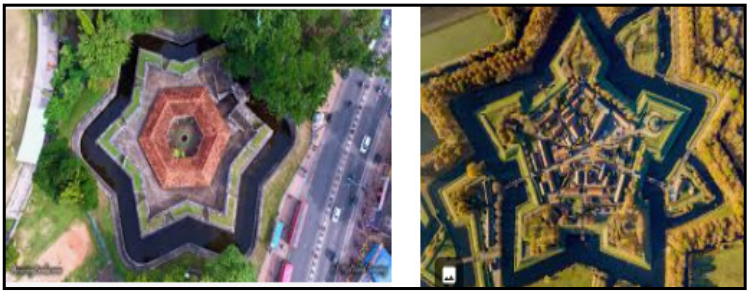

Figure 8—Zoomed in image of the screenshot from Figure 7

It is generally known that such forts are built along ley lines, also discussed in volume one. I recommend using the Duck-Duck-Go search engine to find information about this.[1] A Google search will be futile.

[1] https://duckduckgo.com/?q=are+star+forts+along+ley+lines&atb=v410-1&iax=images&ia=images&iai=https%3A%2F%2Fi.ytimg.com%2Fvi%2F_N7noDEUS1E%2Fmaxresdefault.jpg

Later in the book, I will also show more of my research where this hexagon shape, which originates from David's star, is hidden in the I-Principle discovered when converted into coordinates and added onto Google Earth and the Firmament Earth; both views will be elaborated on later in this book.

Conducting cymatics experiments also amazed me with how all frequencies used formed shapes. We will look at one of these now.

Cymatics Experiment

Figure nine portrays the fifth pattern for the frequencies 258hz. [1]

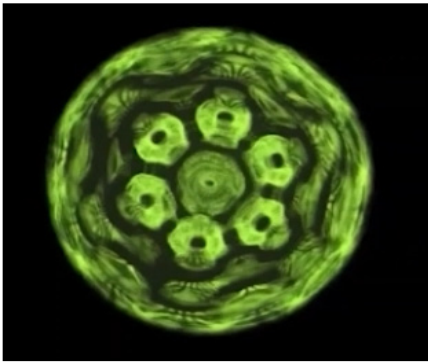

Figure 9—Cymatics experiment for number pattern 258, fifth pattern

[1] Mind Easy (https://mindeasy.com/the-9-solfeggio-frequencies-and-their-benefits/)

To see this shape, I opened the Cymatics Sound Made Visible app on my phone and hit the play button on the website, footnoted in the previous page. This is one of the screenshots from that exercise. In total, the 258hz frequency formed eighteen patterns.

The six-pointed star shape is also found in experiments conducted by Masaru Emoto, a Japanese scientist who was born on July 22, 1943, and died on October 17, 2014, at the age of 71.[1]

One of his experiments involved words spoken over water. The results were photographed, catalogued, and filed. They can be found on his website, Masaru Emoto.[2]

Figure 10—Words of love and gratitude spoken over water (Emoto, 2003.)

[1] Masaru Emoto Bio (https://en.wikipedia.org/wiki/Masaru_Emoto)

[2] Emoto's experiments (https://masaru-emoto.net/en/crystal/)

The foot note in the previous page directs readers to his web page, where they can admire the fantastic hexagon shapes prevalent in all his experiments.

Depending on the Holy Spirit's leading, the blueprint of our universe may be discussed later in this book or another volume. For those who have read volume one, you would have recognised by now that these shapes have an uncanny resemblance to Moses Menorah's from God's view.

The graphs have a few other shapes, including a five-pointed star.

Shape two

Five-Pointed Star

As we observe Figure eleven, imagine five triangles on each side of the pentagon. Each triangle forms a five-sided star, which ironically is the first pattern of my cymatics experiment.

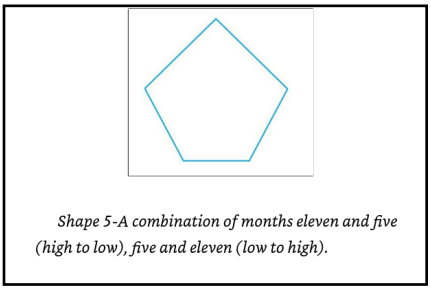

Figure 11—A pentagon from patterns two and five (Towan, 2021, p. 189)

Figure twelve is from the 258hz experiment, while the image after is from the 741hz experiment.

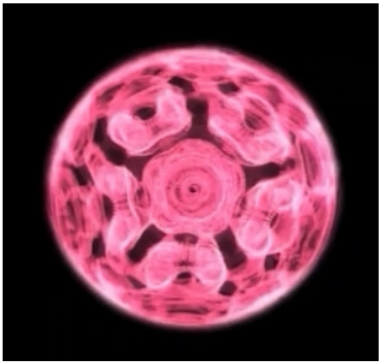

Figure 12—Cymatics experiment five-pointed star, the first pattern of eighteen

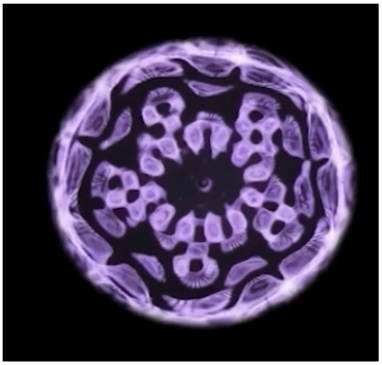

Figure 13—Cymatics experiment 741hz, the first pattern of sixteen

Recall how large numbers are condensed to one number, which is why figure eleven says “patterns two and five”. We will now examine a photo of my Hoya plant, which has leaves shaped like hearts and flowers that resemble stars.

Observe how these flowers resemble the pentagon when closed. When they open, they form the fascinating five-point star.

Figure 14—Hoya flowers from my backyard

Figure 15—Zoomed image of the Hoya flowers

Figure fifteen is for the sake of meditation on the beautiful flowers, which is seen as a good thing.[1] In this section, it is important to note that pentagon-shaped forts correspond to the ancient pattern of two and five, which can be linked to Solfeggio frequencies (258hz, 582hz, 825hz).

Similarly, the six-point star is associated with the numbers one and seven (174hz, 471hz, 714hz frequencies). If we consider the gemstones on the high priest's breastplate (1st gemstone, seventh gemstone, and fourth), we find a connection between the right frequencies, their sources (stones placement), and the sun's positioning, which collectively lead to hyperspace travel. The place where God's glory resides in the Tabernacle also contains the

[1] "8 Finally, brethren, whatever things are true, whatever things are noble, whatever things are just, whatever things are pure, whatever things are lovely, whatever things are of good report, if there is any virtue and if there is anything praiseworthy—meditate on these things." (Phillipians 4:8 NKJV)

treasures of light in the tangible world. I will elaborate more on these patterns later or in a future volume.

We will now refocus our concentration, specifically the pyramid pathways and the other principles or laws hiding within the clock.

The F.I.L. Principle

Figure four is indeed the twin of Figure five. The Vortex and Katan concepts have been meticulously applied to identify three crucial number patterns that repetitively emerge within the ancient Hebrew Calendars, number for number. The number patterns featured in Figures Four and Five undeniably adhere to the "First is Last and Last is the First" principle, which I referred to as the FIL Principle in volume one.

It is imperative to note that the first FIL Principle consists of one and seven, followed by a four. Upon further investigation, this number can also be interpreted as 1.7 hertz (Research Gate, 2018), a frequency renowned for bidirectionally connecting space and Earth.

All three number patterns, 147, 248, and 369, unequivocally sum up to 369. For instance, 147 equals 1 + 4 + 7, which equals 12, and further equals 3. Likewise, 258 equals 2 + 5 + 8, which equals 15, and further equals 6; and 369 equals 3 + 6 + 9, which equals 18, and further equals 9.

Mastering these fundamental portal numbers will undoubtedly empower us to comprehend all other correlations. Furthermore, countries within each numerical category will be suitably classified according to each key.

We will briefly look at the FIL principle in its spiritual form. Those familiar with God's calendars know about the number patterns; therefore, we see the two layers of a map guiding us always to be Christ-like.

As we look back at nature in Figures Ten and Fifteen, we see what love looks like through water when spoken and how the Hoya appears to be connected somehow. Table One reveals this connection.

Table 1—Holy Spirit fruit in their F.I.L. form

Holy Spirit Fruit	Patterns Aligning with Heb Cals No Patterns Exodus 12:2	
1 & 7	Love	Faithfulness
2 & 8	Joy	Gentleness
3 & 9	Peace	Self-control
4 & 10 [10 = 1]	Patience	Love
5 & 11 [11 = 2]	Kindness	Joy
6 & 12 [12 = 3]	Goodness	Peace
7 & 1	**Faithfulness**	**Love**
8 & 2	Gentleness	Joy
9 & 3	Self-control	Peace
10 [10 = 1] & 4	Love	Patience
11 [11 = 2] & 5	Joy [love + love]	Kindness
12 [12 = 3] & 6	Peace [love + joy]	Goodness
PRINCIPLE 'The first is last, the last is first' Matthew 19:30		

Recall how I mentioned that the clock map is multi-dimensional. To understand Table One, we need to shift our minds. Recall how I mentioned earlier that once we know the Cherubim Principle, we can understand all other dimensions.

Here, we need to switch our mindset from the detailed bull view to the spiritual level of the eagle view.

As we compare figures ten and fifteen with Table One, we realise that a double portion of love results in joy. Love plus joy results in peace. Why? Because one plus two equals three.

The other half of this principle is the last is first; this births the acronym of L.I.F.

We add the FIL with the LIF; we get a coded message of 'filled [with] life'.

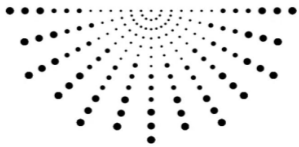
The spiritual aspect of the FIL principle will be elaborated on in a future volume. We have briefly touched on this topic to emphasise that the Cherubim Principle is crucial for understanding all other correlations.

In the next section, we will refocus on the specific details and the literal interpretation, akin to the bull's and eagle's perspectives. The pace will accelerate as we delve into the discovery of the map of hyperspace travel following the 'I-Principle', followed by the map of the gemstones of the high priests of the tribes of Israel.

Conclusion

In conclusion, the journey of discovery described in Chapter One has been both intriguing and enlightening. From the weird dream that sparked a newfound interest in numbers to the diligent study of ancient biblical texts and the pursuit of divine guidance, this chapter has laid the groundwork for a deeper exploration of the hidden pyramid pathways and the interdimensional time facets. The author's commitment to unravelling the secrets of the Universe in connection to Jesus Christ is profound, and we are poised to embark on a thought-provoking and lighting journey in the chapters to come.

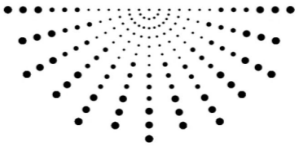
CHAPTER II



UNDERSTAND

THE PORTAL PRINCIPLES

MAPPING HYPERSPACE



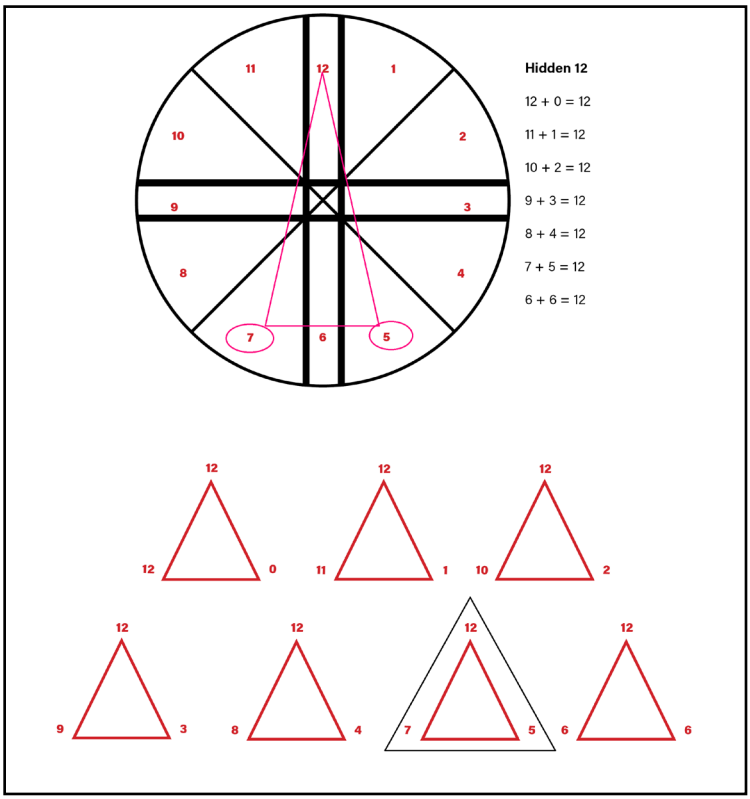
No more causes of natural things should be admitted than are both true and sufficient to explain their phenomena. —Isaac Newton

HS12(3) Capstone

Recalling my expression about the hidden twelve in chapter one is the founding key to understanding the pyramid pathways. For convenience, figure three will be posted on the following page after addressing the formula,

$$ICP{:}CPL\,(xh){+}CPR\,(Xh){=}HS\,Xh$$

ICP stands for I-Principle, capstone. CPL refers to Clock Points on the left side of the clock, while CPR refers to clock points on the right side. The lowercase "xh" indicates the number on the left side, and the highercase "Xh" indicates the number on the right side. HS Xh stands for hyperspace, the hidden twelve, twenty-four, thirty-six and onwards; these spiral upward from Earth's view but downwards from the heavenly places' view.



Copy of figure 3— The Hidden Twelve

The lowercase “xh” and highercase “Xh” notations are intentional and crucial when extending the hours on the circle. However, we will not worry about these for now.

The following formula used for coordinates following the ICP formula is:

CRIP:CPL (12hr)+CPR (24hr)=HS24

CRIP stands for capstone removed—no longer 'pure'. This means that the 24th hr is now on the right side of the clock, which establishes HS24. HS24 stands for hyperspace 24.

Understanding the Tabernacles

Recall how all large numbers are condensed. For example, HS12 will be seen as HS3, HS24 as HS6 and HS36 as HS9. These will be titled in the tables provided for each nation that falls under the 369-pyramid map; however, before we proceed to the tables of the nations, we will first have a look at some figures relating to the second CRIP formula.

These are seen as the 'Tabernacles' and for good reason, which we will discover soon. These tabernacles will help us understand the lowercase xh and the highercase Xh. It is through the second formula that four locations of the Euphrates River were discovered.

More on that later.

HS24(6) Tabernacles

In Figure sixteen, we can agree that this is the beginning at which Hyperspaces are now merged with the previous hour. One observation is that the further we go with the hours, the 'slower' these hours occur. This exciting observation aligns with Einstein's theory of relativity. The further in space we go, the slower time is compared to Earth. [1]

These two hours are combined from the previous figure, where the 12th hour is added to the 24th hour.

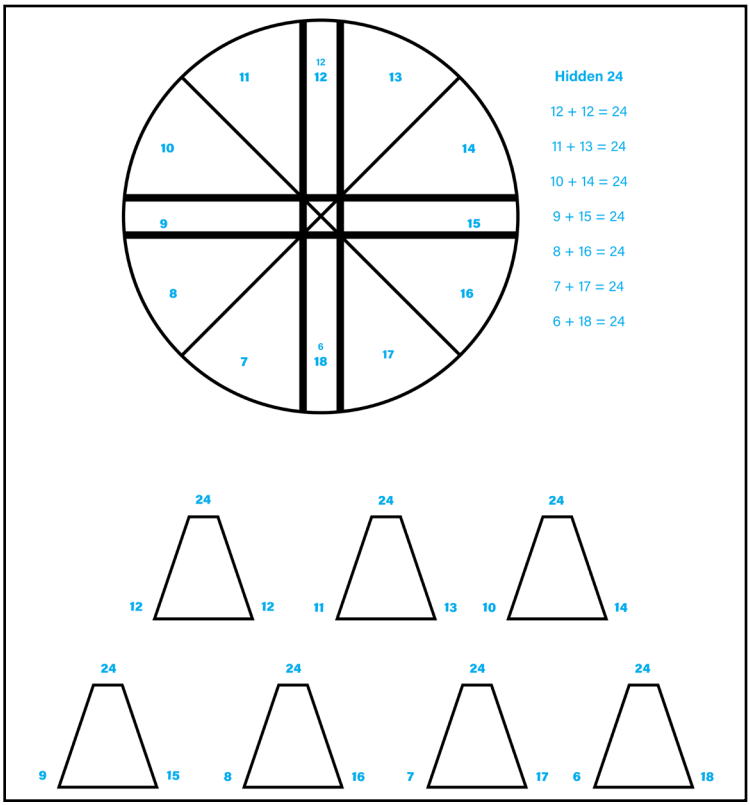


Figure 16—CRIP: CPL (12hr) + CPR (24hr) = HS24

[1] Einsteins theory on relativity (https://www.physicsoftheuniverse.com/topics_relativity_light.html)

HS36(9)

In figures sixteen and seventeen, we can see that it takes two hours (24th and 12th) to complete the direct lines for the sixth point of *Figure sixteen*. The direct lines are from the 12th CP straight down to the 6th CP and from the 3rd CP to the 9th CP. Understanding the direct lines is crucial to understanding Egypt, as it relates to the direct line and the prophecy of Egypt in Isaiah chapter 19:25. When examining figure seventeen, we find that the 12th CP also requires two hours to complete.

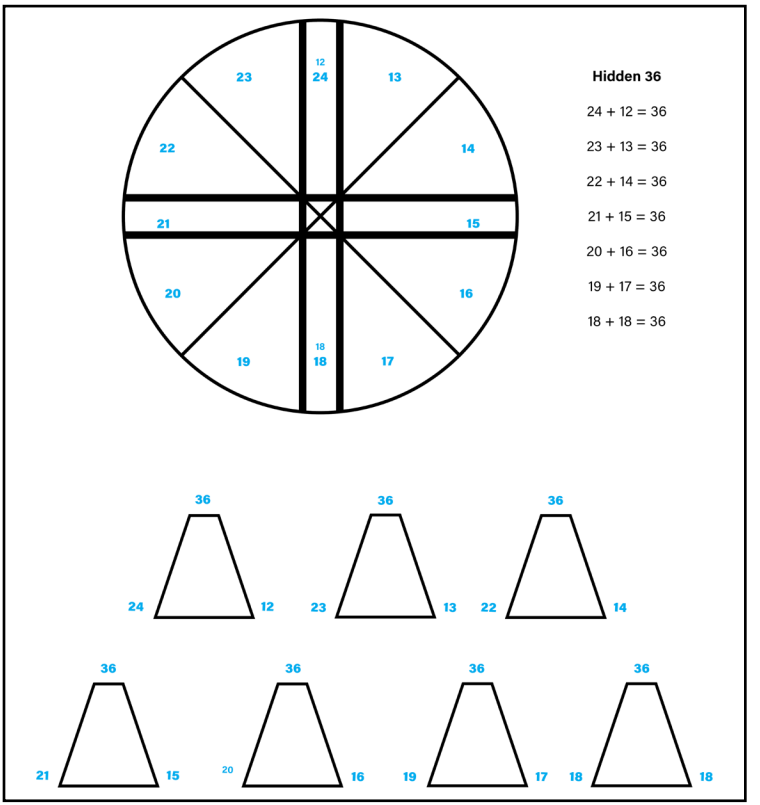

Figure 17—CRIP: CPL (24hr) + CPR (24hr) = HS36

HS48(3)

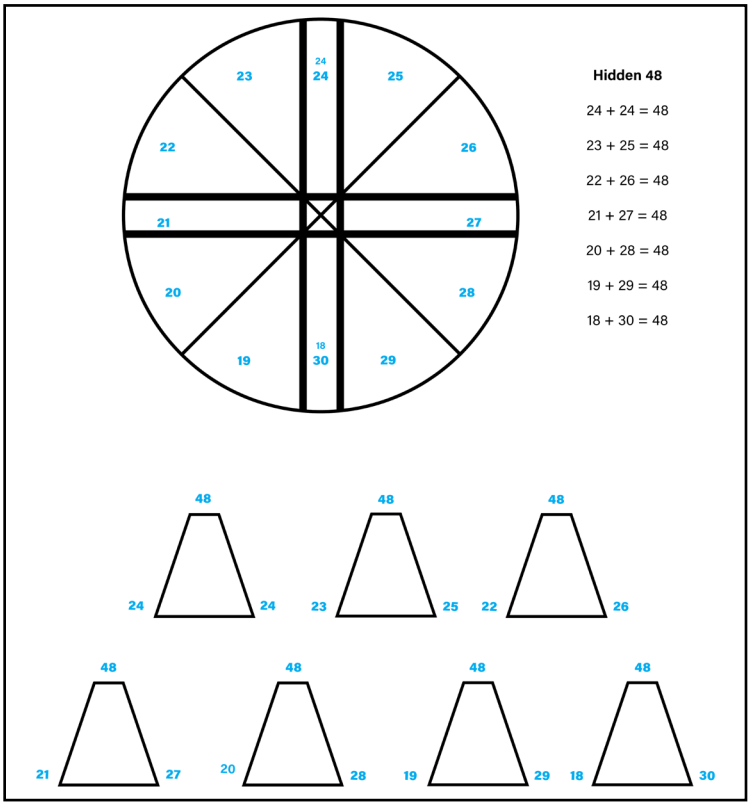

Figure 18—CRIP: CPL (24hr) + CPR (36hr) = HS48

Throughout figures sixteen to eighteen, the 12th CP combines the same hours but flips to the 6th CP in figure seventeen. Figure eighteen shows the hours flipping back to the 12th point.

Therefore, we can predict from this wave pattern that the following figure will flip downward onto the 6th CP.

HS60(6)

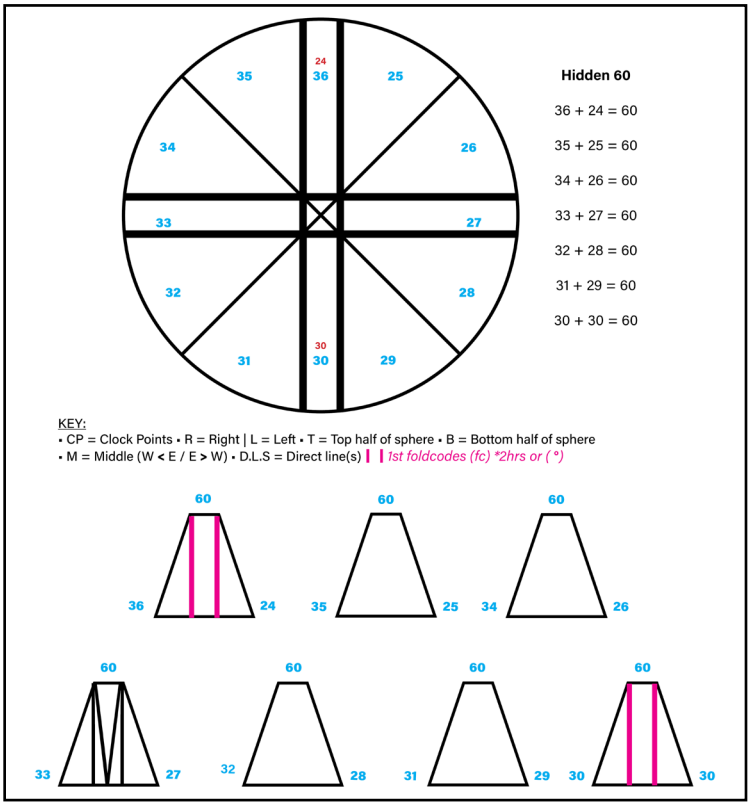

Figure 19—CRIP: CPL (36hr) + CPR (36hr) = HS60

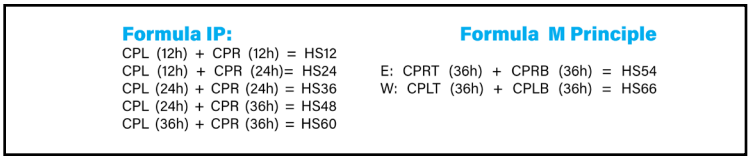
I want to encourage you not to be intimidated by figure nineteen. The same CRIP formula applies.

However, I have added the other components only to this 60th hour because it is special. This is where Egypt hides at the 6th CP, as mentioned earlier in chapter one. From this point onwards, we will start thinking in slinky



Formula IP:
CPL (12h) + CPR (12h) = HS12
CPL (12h) + CPR (24h)= HS24
CPL (24h) + CPR (24h) = HS36
CPL (24h) + CPR (36h) = HS48
CPL (36h) + CPR (36h) = HS60
Formula M Principle
E: CPRT (36h) + CPRB (36h) = HS54
W: CPLT (36h) + CPLB (36h) = HS66

Figure 19b—CRIP: CPL (36hr) + CPR (36hr) = HS60

includes 'I-P' formula for all hours and including the added 'M-Principle' where top and below are calculated

terms. Upon looking at a slinky toy, we see one circle; however, as we expand the toy, we get a spiraling spring.

This spiraling is evident throughout the figures' numerical form, linked by the previous hours as we progress onwards, just like a slinky. Figure nineteen is an updated version of the clock codes. It contains the IP formula (I-Principle) with the previous figures we analysed, from HS12 to HS48. When we examine Figure nineteen, we see another pattern unfolding. As we scrutinise the IP formulas, we see that HS12, HS36, and HS60 hours align with the same hours.

The first pattern we discussed involved direct line hours flipping from CP 12 to CP 6. I theorise that the alignment for hours relates to what is above our heads—the stars in the sky.However, that arena is way out of my league for now.

A self-explanatory key has been placed between the circle and the tabernacles. However, the D.L.S. and first fold codes are the same. CP 12 to CP 6 are direct lines, and CP 3 to CP 9 are the M (middle). The M codes are the next principle we will talk about. This is where the 6 and 9 or 69 come onto the stage.

Sixty-nine is different from the Chinese yin and yang, but in the sense of time jumping. Two key passages hint at this are Acts 8:39, where the Holy Spirit spirited

Philip to Ashdod, and Zechariah 9:6. This ancient city is one of the ancient cities that Joshua could not destroy, and figure nineteen M-Principle connects to the ninth dimension that folds onto the sixth dimension on the left side of the clock. In contrast, the direct lines fold onto the third, Egypt.

As we examine figure nineteen, notice the M-Principle (middle or Messiah's principle): CP 3 is 27, which equals 9, while CP 9 on the left is 33, which equals 6. When we read from left to right, we see 69; when we read from right to left, we see 96.

CRIP means Capstone Removed, I-Principle.

The M-Principle

If the M-Principle were to have a formula, it would look like:

For the East Region

$$CPRT\,(xh)+CPRB\,(xh)=HS\,Xh$$

For the West Region

$$CPLT\,(xh)+CPLB\,(xh)=HS\,Xh$$

We know what CPs are. *RT* stands for right top, and *xh* is the hours. *RB* stands for the right bottom of the clock, and *HS Xh* stands for hyperspace hour.

LT stands for left top, while *LB* stands for left bottom.

There is always the swapping of the three, sixes and nines, no matter which way we look at these.

Should you wish, try finding the M-Principle on the other figures before figure nineteen.

You may come to the same conclusion. Further observations show that all ‘spheres’ have seven tabernacles. Those who have read volume one will know that Moses’s Tabernacle looks precisely like a half-hexagon, which correlates to the Star of David and the Menorah. Moreover, how these correlate to Earth and Jacobs’s ladder, aka the angels’ portals, are also discussed. Furthermore, the M-Principle also has seven tabernacles. Correlating to the seven lamps on the Menorah.

Notice how the numbers from Mattew 17:4 are one of the ancient patterns from Exodus 12:2, which is the first pattern. [1]

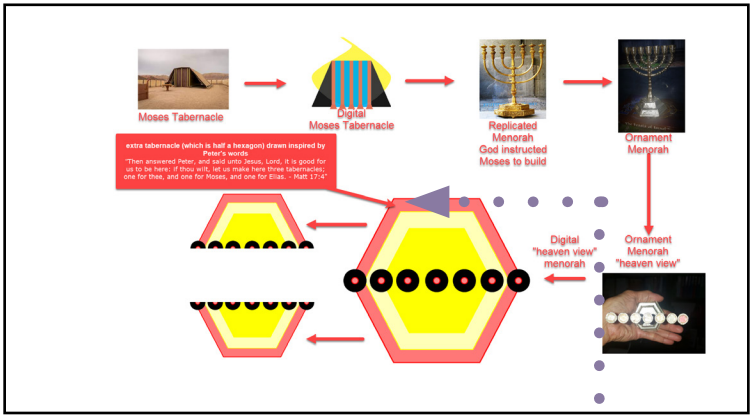


Figure 20—Recapping Moses Tabernacle and all correlations

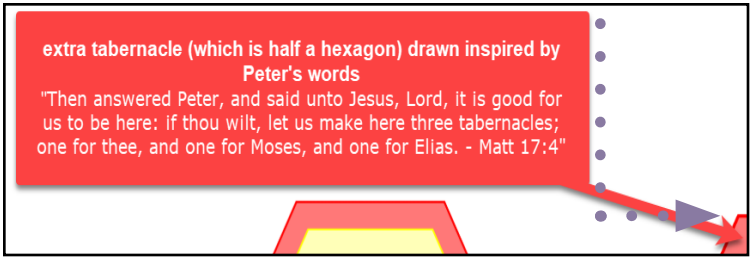

extra tabernacle (which is half a hexagon) drawn inspired by
Peter's words
"Then answered Peter, and said unto Jesus, Lord, it is good for
us to be here: if thou wilt, let us make here three tabernacles;
one for thee, and one for Moses, and one for Elias. - Matt 17:4"

Figure 21—Zoomed in note from figure 20

On the following page, we will place the Tabernacle or Menorah from God's view with the clock, and there we will see even more fascinating correlations.

[1] "In them He has set a tabernacle for the sun," (Psalm 19:4) observe how when we think in Clock view, sunrising, the sun's path will be along the menorah circles. The menorah is Jesus hidden, the lamp of the world. The sun rising speaks of him daily.

As we compare Figures sixteen to nineteen, we see how the Direct lines and the M-principle align with the yellow cross in Figure twenty-two.

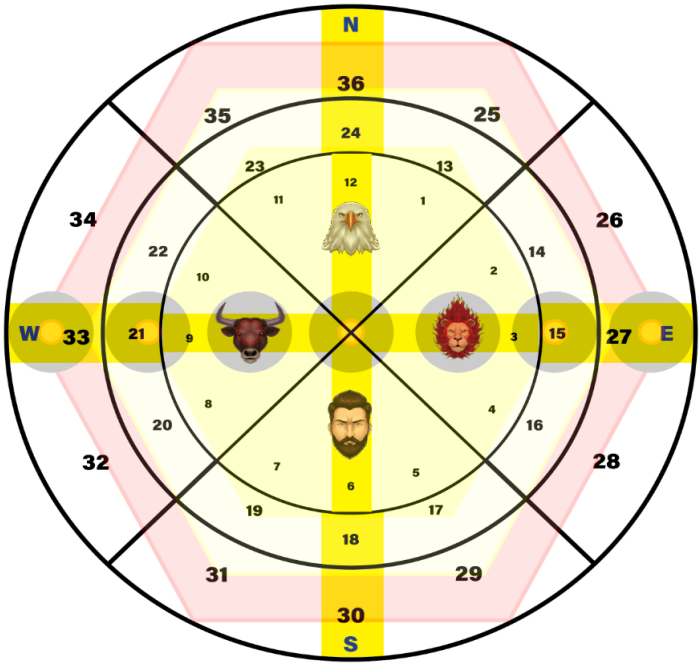

Figure 22—Clock combined with Menorah, God's view

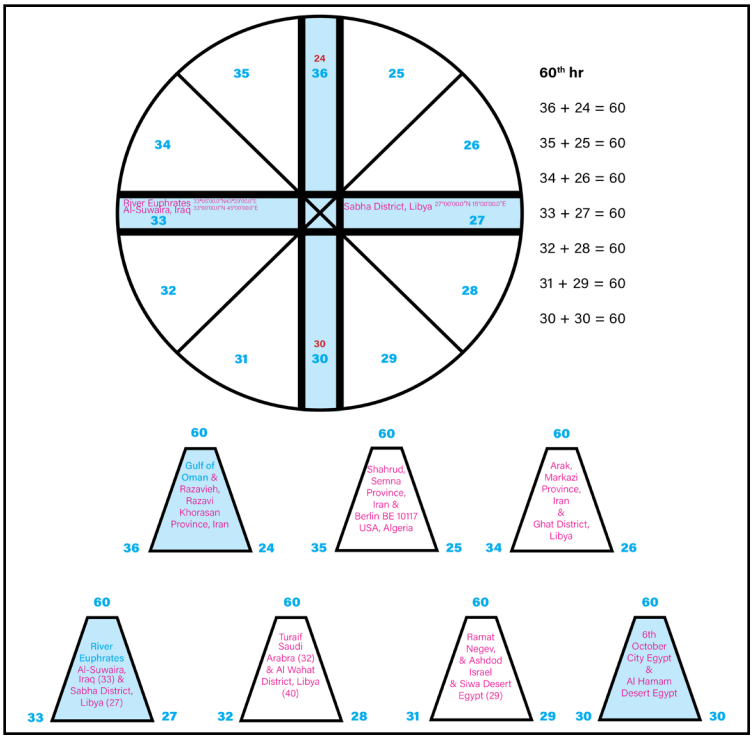
Remember the five-star Hoya flower in figures fourteen and fifteen in chapter one? When closed, it resembled a pentagon, but when opened, it displayed the workings of a star-type. We now need to apply the same function of the Hoya flower to figures twenty-one and twenty-two.

Moreover, in doing so, we will see the six-pointed star.

These are key to understanding the following few chapters of this book. Specifically, Bermuda is in the NW, while in the NE, we have the hidden Triangle in Israel and the

infamous Dragon's Triangle. Once we reach these triangles later, we will have another look at Figure Twenty-two and compare these three triangles to Earth in both the globe and flat, firmament views (because God is in both).

In volume one, the Menorah is heavily examined, and the four views of the Cherubim are revealed. We will now investigate the 6th hour of the Pyramid Pathways as a practice run for chapter three. I am fascinated with this hour due to the countries within it, most specifically the Euphrates River and the 6th of October City, Egypt. We will examine the clock's magnified details and proceed to the tabernacles.



60th hr
36 + 24 = 60
35 + 25 = 60

Euphrates—Revelation 16:12

> *Then the sixth angel poured out his bowl on the great river Euphrates, and its water was dried up, so that the way of the kings from the east might be prepared.*

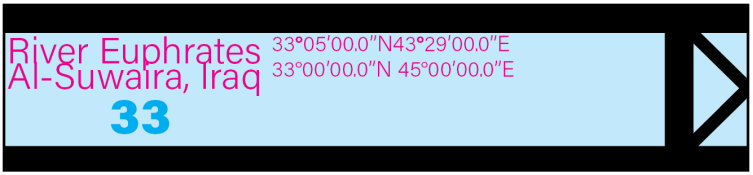

Figure 24—Zoomed in Nations in the 6th hour from figure 23

Knowing how large the earth is, figure twenty-four's view of one of the largest rivers on Earth is along the 9th CP, the sixth hour. We have seen the '6th of October City' in Egypt. We must remind ourselves that Figure twenty-four is a small fraction of the Earth. These figures must be seen from the Cherubim viewpoints.

We must consistently swap our views when necessary to see the multidimensions God's ancient crossroads are revealing. This will help us realise when to intervene in prayer and stand back when God is moving his chess pieces, least we fall into his wrath for not knowing the times of his punishments and the unfolding of his forewarning prophecies. The prophecies about the Euphrates (Mejs Hasan, 2018) and the River Nile in Egypt drying up[1] are seen as climate change effects. However, according to God, he is the one who causes these two rivers to dry up to prepare the way for the great war of Armageddon.

Egypt—Isaiah 19: 1-17

"Behold, the Lord rides on a swift cloud, And will come into Egypt; The idols of Egypt will totter at His presence, And the heart of Egypt will melt in its midst. [2] *"I will set Egyptians against Egyptians; Everyone will fight against his brother, And everyone against his neighbor, City against city, kingdom against kingdom.* [3] *The spirit of Egypt will fail in its midst; I will destroy their counsel, And they will consult the idols and the charmers, The mediums and the sorcerers.* [4] *And the Egyptians I will give Into the hand of a cruel master, And a fierce king will rule over them," Says the Lord, the Lord of hosts.* [5] *The waters will fail from the sea, And the river will be wasted and dried up.* [6] *The rivers will turn foul; The brooks of defense will be emptied and dried up; The reeds and rushes will wither.* [7] *The papyrus reeds by the River, by the mouth of the River, And everything sown by the River, Will wither, be driven away, and be no more.* [8] *The fishermen also will mourn; All those will lament who cast hooks into the River, And they will languish who spread nets on the waters.* [9] *Moreover those who work in fine flax And those who weave fine fabric will be ashamed;* [10] *And its foundations will be broken. All who make wages will be troubled of soul.* [11] *Surely the princes of Zoan are fools; Pharaoh's wise counselors give foolish counsel. How do you say to Pharaoh, "I am the son of the wise, The son of ancient kings?"* [12] *Where are they? Where are your wise men? Let them tell you now, And let them know what the Lord of hosts has purposed against Egypt.* [13] *The princes of Zoan have become fools; The princes of Noph are deceived; They have also deluded Egypt, Those who are the mainstay of its tribes.* [14] *The Lord has mingled a perverse spirit in her midst; And they have caused Egypt to err in all her work, As a drunken man staggers in his vomit.* [15]

> *Neither will there be any work for Egypt, Which the head or tail, Palm branch or bulrush, may do.* [16] *In that day Egypt will be like women, and will be afraid and fear because of the waving of the hand of the Lord of hosts, which He waves over it.* [17] *And the land of Judah will be a terror to Egypt; everyone who makes mention of it will be afraid in himself, because of the counsel of the Lord of hosts which He has determined against it.*

According to Green Matters (Underwood, 2023) Egypt is currently experiencing a yearly water shortage, and as ABC News reported, it is expected to be categorised as "water scarce" by 2025. Furthermore, the Grand Ethiopian Renaissance Dam (GERD) endangers the Nile's water supply.

We will now examine the Euphrates and Nile passages and compare them to the clock codes, as shown in Figures twenty-three and twenty-four in the following page. As we inspect the Euphrates River and Egypt, we can see the apparent message: these two places of prophecy are within the same clock hour of six (recall large numbers reduced to one mentioned earlier in chapter one). However, there is another prophecy for the Euphrates, and this subtlety code is in the 9th CP, where the 33° slots. Thus, it indicates that we probe a bit deeper, and as we probe deeper, we see another passage.

Sixth Trumpet—Revelation 9:13-17

The Angels from the Euphrates

> *Then the sixth angel sounded: And I heard a voice from the four horns of the golden altar which is before God.* [14] *saying to the sixth angel who had the trumpet, "Release the four angels who are bound at the great river Euphrates."* [15] *So the four angels, who had been prepared for the hour and day and month and year, were released to kill a third of mankind.* "

Observe how the passages:

- Revelation 16:12
- Revelation 9:14-17

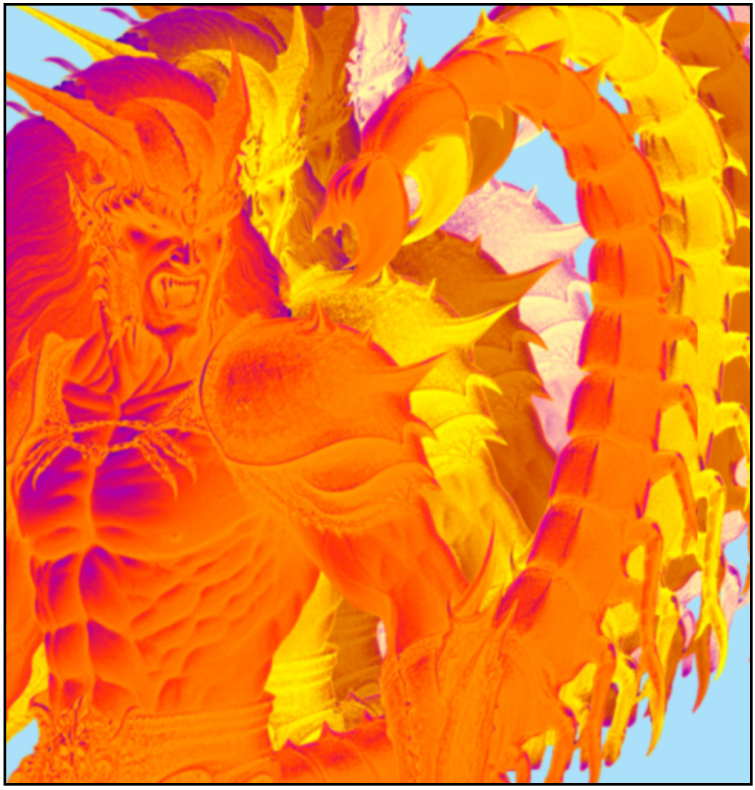
Mention the Sixth Bowl and the Sixth Trumpet, as they correspond to the same number for HS6.

The Sixth Trumpet is found in chapter nine with the same CP9 (33 = 6), and the Sixth Bowl shares the same number for CP12 (12 = 3).

These correspond to figures twenty-three in a straight line for CPs nine and three. The Ninth pattern was discovered in Exodus 12:2—Volume One. While 369 are recognised as the key to the universe and considered ancient of origin.

Hypothesis: Further examination of the Euphrates Tabernacle might reveal the location for the four angels currently going through preparation 'for the hour and day and month and year of releasing'.

As we scanned map four (Geographical Names), we noticed that the source was no other than the National Geospatial-Intelligence Agency, Bethesda, MD, USA.[1]



Euphrates Angels, (Microsoft Edge ai, 2023)[1]

[1] Ai image edited by author for visual effect

[1] Euphrates River https://geographic.org/geographic_names/name.php?uni=-1069001&fid=3169#google_vignette

The question we could ask can be: *'Are they aware of the possibility that this location is where the angels are bound?'*

Map 4—Euphrates River: Iraq 33° 05'00.0"N 43° 29'00.0"E (Geographical Names, 2022)

From an aerial view, see how the 6th of October City appears in the shape of a man marching towards the river Nile from a satellite view. [1]

This indirectly confirms the Cherubim blueprint of where the 'man' zone is on Earth precisely as the clock specifies, as we can see from the clock map in Figure One.

[1] 6th of October City aligns from satellite view https://desiring-deeptreasuresofgod.blogspot.com/2023/09/time-travel-codes-unveil-gods-isaiah-19.html

We are now scanning the 6th of October City, Egypt Tabernacle. One fact we need to consider are the woes of Egypt mentioned in Isaiah, the book that's seen and recognised as the prophecy book of the past, present, and future.

It is fascinating that Egypt is within the same hour as the Euphrates, the HS60(6). Isaiah 19:5 explicitly highlights today's events as we read about the Grand Ethiopian Renaissance Dam. Furthermore, Isaiah 19 appears to be the hidden or concealed code in which God shows his plans. At the same time, the Revelation passages are obvious and subtle codes.

We will move to the following 'last but not least' hyperspace map.

HS72(9)

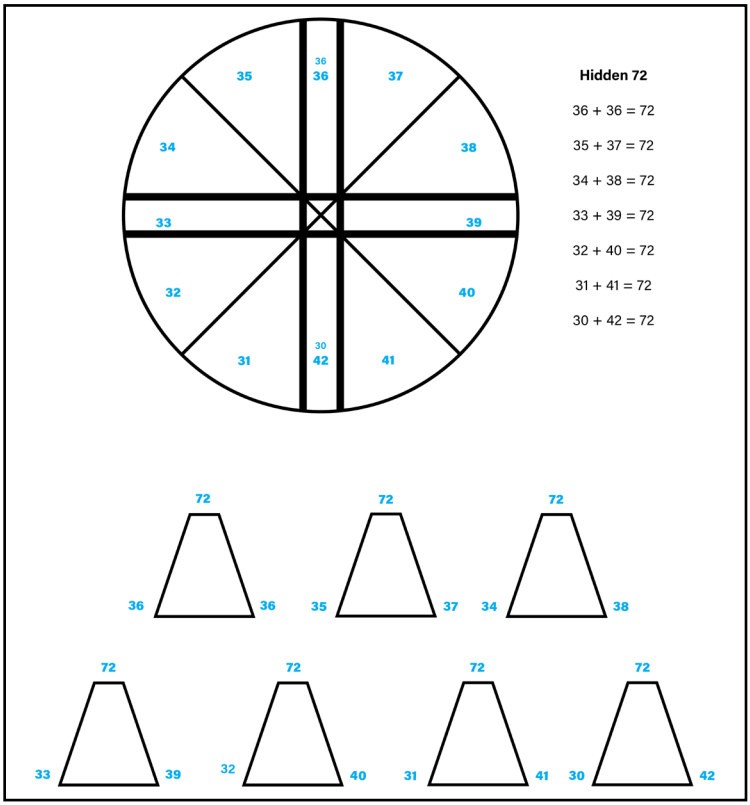


Figure 25—CRIP: CPL (36hr) + CPR (48hr) = HS72

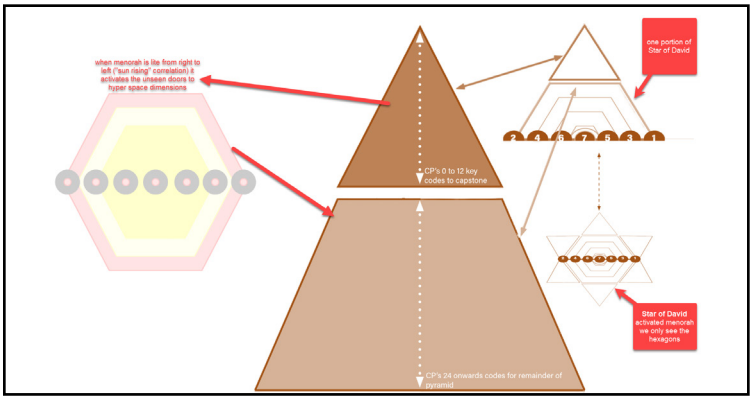
Figure twenty-two in the following chapters will be further examined from all viewpoints of the Cherubim.

Keep a special note or bookmark on CP 8 with 32. This is key to understanding Jasher 32 and Genesis 32. These are parallel lines in which the three triangles mentioned are stationed exactly as Figure twenty-two displays.

Evidence of this will be shown and elaborated on later; however, we will now focus on the 'last but not least' hour figure twenty-three. As observed with the other figures, the previous hour is now on CP 12 (36hr), thus confirming our predictions of the upward wave pattern observed earlier from all other figures.



when menorah is lite from right to left ('sun rising' correlation) it activates the unseen doors to hyper space dimensions
one portion of Star of David
CP's 0 to 12 key codes to capstone
Star of David activated menorah we only see the hexagons
CP's 24 onwards codes for remainder of pyramid

Figure 26—Recapping Volume One's Menorah and Star of David Correlations

For those of you who are familiar with volume one, figure twenty-six is no surprise. As we scrutinise the figure, we can see that the 'star of David' is the Menorah from God's view. The triangles indicate an active lamp powered by the source of fire.

Below are enlarged images for the notes in red font. We will first focus on the inactivated Menorah, then move to the star, and lastly, focus on one portion of the lamp.

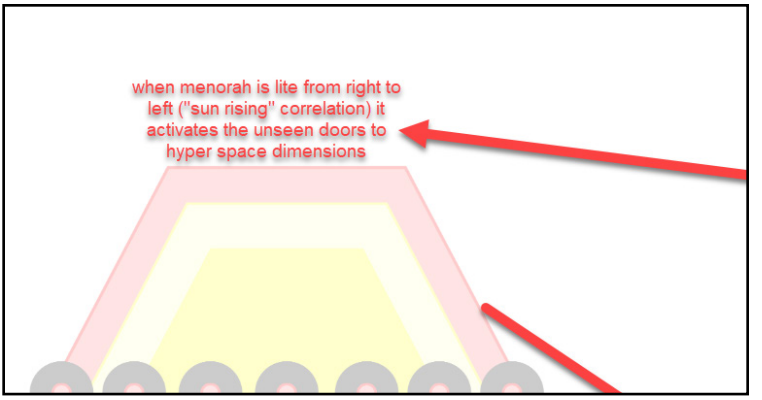


Figure 27—Enlarged deactivated lamp with notes in red font

The red font says, “When the menorah is lit from right to left (“sun rising” correlation), it activates the unseen doors to hyperspace dimensions.”

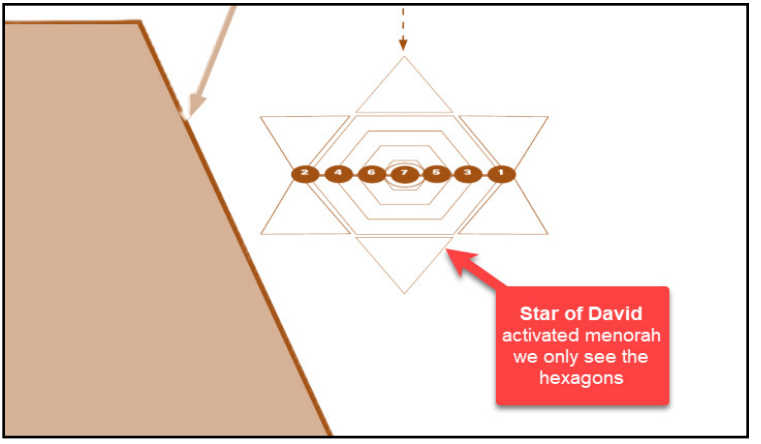

Figure 28—Lamp, once lit activates the triangles to open

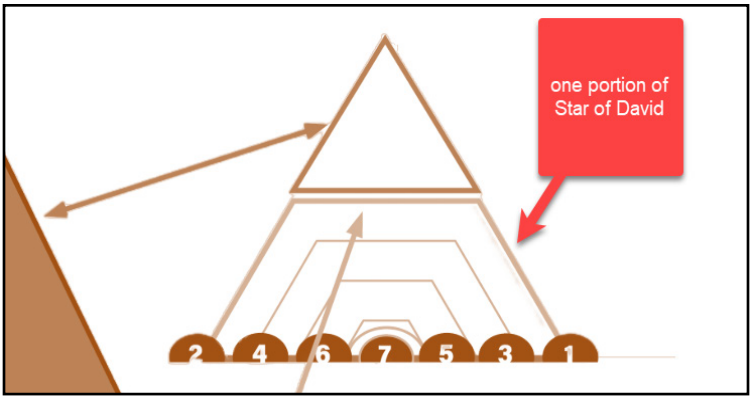

Figure 29—One portion of the Star enlarged

The larger version of Figure Twenty-eight displays the Star of David section, originally shown in Figure Twenty-six. This discovery reveals that the Menorah and the Star of David are the same thing, both of which have ancient origins. As we finalise our investigation for Figure twenty-six, enlarged three images, we can confidently say that Jesus' words of all who came before him are thieves and robbers [1] are justifiable.

Here, we can see the all-seeing eye used in the American dollar, which was discussed in volume one and will not be repeated here. Furthermore, we can see that John 10:9 states that Jesus is the door. We can join the ancient crossroads we observed from Figure One with Figure Twenty-Nine and now understand who is the true "I" (eye in occultic terms)—the only God who says, "I AM WHO I AM." [2] The letter "I" in the English alphabet

[1] "8 All who ever came before Me are thieves and robbers, but the sheep did not hear them. 9 I am the door. If anyone enters by Me, he will be saved, and will go in and out and find pasture." (John 10:8-9 NKJV)

[2] "14 And God said to Moses, "I AM WHO I AM." And He said, "Thus you shall say to the children of Israel, 'I AM has sent me to you.'" (Exodus 3:14 NKJV)

is the 9th, and AM means morning. This strategy was thought of during the confounding of the languages at the Tower of Babel, for they are in all languages, including English. It is interpreted as the one and only sun rising from the East on CP 3.

He hid his completed redemptive work in Adam to ensure that he is what he is and who he says he is.

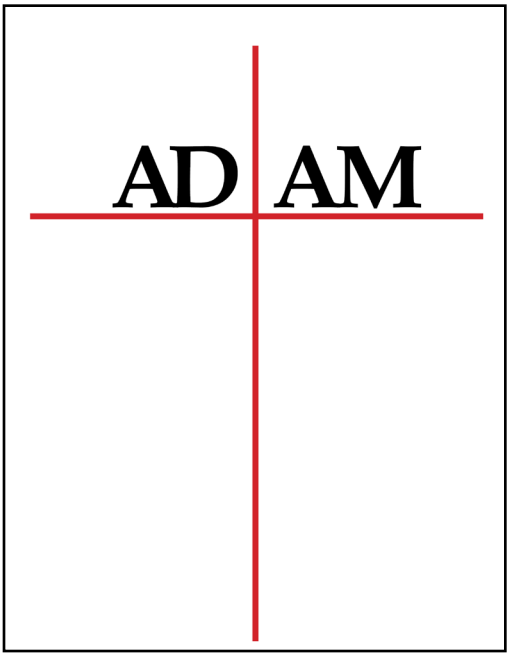

Figure 30— Jesus' complete redemption plan is hidden in ADAM

Figure thirty is a personal insight revealed on the 1st of September 2024, Father's Day. And a copy of a hand-drawn image by Pastor Stewart Moncrieff's sermon on who Jesus is and the seven types of faith (which will be discussed in a later volume).

The Holy Spirit revealed that AD signifies after death, and AM means rising sun, a pun for son. The sun rose on CP three, East, or in other words, the Son rose on the third day, conquering death. In the next chapter, we will shift our views back to the literalness of pyramid portals and discuss a glimpse at the nations that slot within the 3-6-9.

Perhaps we can conclude that AD AM is another way God is hinting for us to 'add' the 'AM' into the mixture: the sun in the sky. We find the right paths, and combined with the sun's power, we find something amazing.

Summary

Studying the author's clock perceptions given by the Holy Spirit remarkably shows us how God is the merger of both worlds, unseen (microscopic and spiritual) and seen (physical), simple and complex. Thus, he gives us his blueprint of how the alpha and omega things are connected in one shape or another. The significance of joining and merging all these pieces together like a jigsaw puzzle aids us in seeing the perfection of our perfect God.

We've seen how these pieces, whether the menorah, Moses Tabernacle, Star of David, or nations, are no other than the big picture God has woven for us to discover. They are all strewn around here a little and there a little, including Adam's name when we add the cross, as seen in the

figures provided. Additionally, we are able to understand Bible verses. One in particular is found in Ephesians 4:9-10, quoted in the introduction of this book.

> *"What does "He ascended" mean, except that He also descended to the lower parts of the earth? [10]He who descended is the very One who ascended above all the heavens, in order to fill all things. (Ephesians 4:9-10 NKJV)"*

As we merge the Ephesians Bible verse with Figure Thirty, we can conclude what God has been gently guiding us into since his ascension into heaven: that he is the author and the finisher.

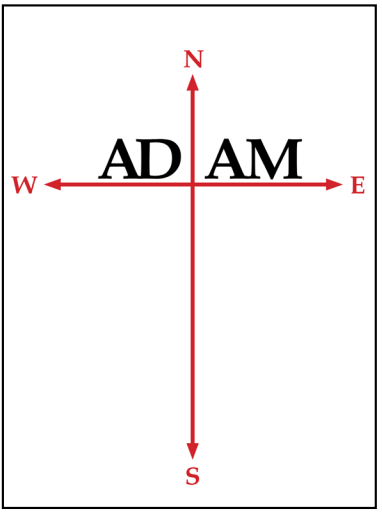

Figure 31—Jesus ascension and descension hidden in ADAM

We now understand the literalness of Psalm 103:12 Where King David worships and speaks these words:

> *"As far as the east is from the west, So far has He removed our transgressions from us." (Psalm 103:12 NKJV)"*

Finally, we can piece together his divine plan in the simplest form: he is the second Adam. The Yud, the ten hidden in the English alphabet, Jesus confounded our languages so that we also can find him in our tongue—English. Thus, it teaches us never to discredit minor, inferior or the omega things.

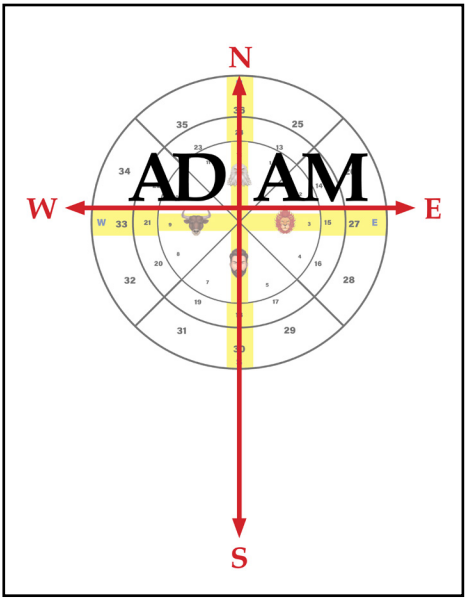

Figure 32— Jesus the I AM, the DOOR, the N.E.W.S

As we decode the Yud: A = 1, D = 4, A = 1 and M = 13 thus reaching the solution of 1 + 4 + 1 + 1 + 3 = 10. And as we merge the nine (I) and three (C = Christ), we finally reach the "I AM CHRIST".

The God who died for everyone on all four corners of Earth, as he reveals to us in second Enoch,

> *I appointed it as a ruler to rule on earth and to have my wisdom, and there was none like it of all my existing creatures on the earth. "I appointed it a name, from the four component parts, from east, from west, from south, from north. I appointed four special stars for it. I gave it the name Adam"... (Nyland, 2010, p. 226).*"

The one door (4 = door in Hebrew), the one water (13 = mem, which means water in Hebrew). This, in turn, leads us to Jesus authoritative claim that he is the door in John 10:9.[1] And the living water— Revelation 12:6.

Conclusion

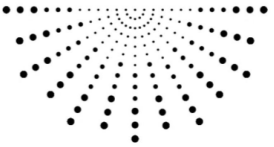
In the finale, Chapter 2 explores the intricate connections between ancient patterns, frequencies, and biblical principles, shedding light on hyperspace principal connections. The exploration of hyperspace mapping and the significance of the hidden twelve has unveiled promising insights into understanding the forgotten pyramid pathways.

The chapter has built upon the groundwork laid in Chapter One, I, offering a thought-provoking and informative journey that paves the way for a deeper exploration of

[1] I AM THE DOOR

interdimensional time facets and the secrets of the Universe. The commitment to unravelling these mysteries in connection to Jesus Christ is apparent, setting the stage for an exciting journey in the chapters to come.

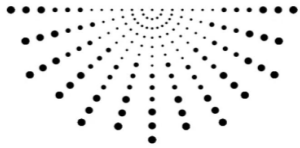
CHAPTER III



LOCATIONS

FOR PORTALS

EARTH COORDINATES



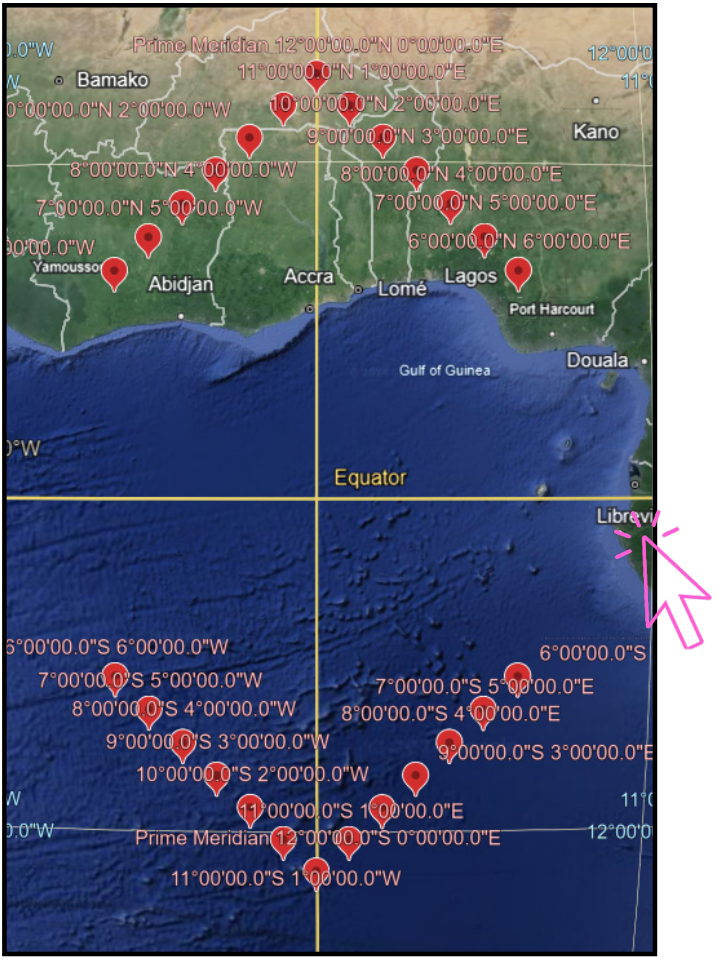
Time is the wisest counselor of all. — Pericles

The Highways

Just as we have highways to drive on when traveling, or airports in specific locations, the same principle applies to the Pyramid Portals we are about to encounter, in coordinate form. This chapter will exploit the 'I' and 'M' Principles converted to coordinates outlined in chapter two. We will initiate with HS12 and progressively proceed through the remaining five HS maps, maintaining the same systematic approach used in previous chapters. It is worth noting that the conversion of the HS maps consistently produces a hexagonal shape, a highlight of significance in Emoto, Solfeggio, and Cymatics experiments. The presentation will commence with the "highways" in Google Earth format, followed by the tabernacle maps featuring the names of the nations, and finish with a comprehensive table with the coordinates. We will methodically analyse the tables and the captivating anomalies in the data, which have left me pondering the information mentioned above multiple times. Additionally, we will briefly explore the flat earth view. This chosen approach aims to promote peace and engage readers with diverse facets of earth.

The Google Snapshot we are about to view ranges from the data from HS12: all seven entries from CP12 to CP6.

HS12(3) ‘I-PRINCIPLE’



Map 5— HS12 Coordinate form
(Google Earth, 2021)

Scan QR Code

To view Google Earth capstone for pyramid path portals

In Map Five, we can see that all HS12 automatically form an open pyramid shape, just as the map shows. The map also marks thirteen land and water locations. Each HS is repeated four times (NE, NW, SE, and SW). According to the data entries and the clock view, the pyramid path of three is the first building block, appearing as the capstone.

Interestingly, this shape forms right where the equator is.

HS12 Map with Coordinates

Table two highlights the pure form of the 'I-Principle', where six is with six and seven is with five. For example, 6.00N 6.00E, but in degrees, minutes, seconds, and decimals, as viewed in the provided table. Table two is to be used in conjunction with Map Five. Table three hereafter shows the 'I-Principle' not in pure form. Table three is another form that was tried as an experiment to cover other areas of possibilities.

‘M-Principle’

The M-Principle was briefly discussed in chapter two, HS60(6), the topic of Euphrates and Egypt. If ‘M-Principle’ were to have a formula in coordinates form for hyperspace travel, it would look something like,

$$CPLT\,(xh^{\circ}) + CPLB\,(Xh^{\circ}) = HS\,Xh^{\circ}$$

The M-Principle in clock form discussed earlier appears as,

$$CPRT\,(xh) + CPRB\,(xh) = HS\,Xh$$

For the east region, while the west region appears as,

$$CPLT\,(xh) + CPLB\,(xh) = HS\,Xh$$

The first section we will concentrate on is,

$$CPLT\,(^{\circ}) + CPLB\,(^{\circ}) = HS\,360^{\circ}$$

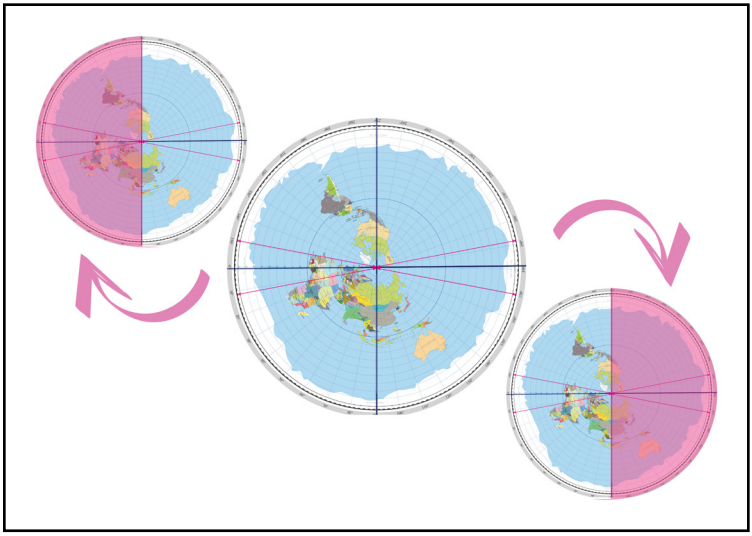
The formula meaning:

When applying the M-principle, we add the top of the left clock points (CPLT) with the bottom of the left clock points (CPLB) to solve hyperspace 36° (pyramid portal). Remember that in the flat earth view, M = Middle (where Australia is shifted to SE to match the clock view).

If you are like me, looking at these might hurt your brain at first. Because we are using dormant muscles, however, I encourage you to push through because even though

they may seem intimidating, they are not as scary as they appear. A prayer refresher and a coffee break are the best medicine for this section.

The Firmament View



Map 6—Biblical view of Earth. Map by: Wiesaw (Adobe Stock, 2023)

Map Six portrays Earth from God's Biblical and medival perspective.

We will first expand Map Six to analyse the crosshairs to understand the table. The enlarged version of Map Six can be found in the footnote. [1]

[1] Enlarged version for Map six https://acrobat.adobe.com/id/urn:aaid:sc:ap:c1400bb5-1fef-4310-b832-32087d0e120e

Scan QR Code

To view Firmament View For pyramid path portals at 360°

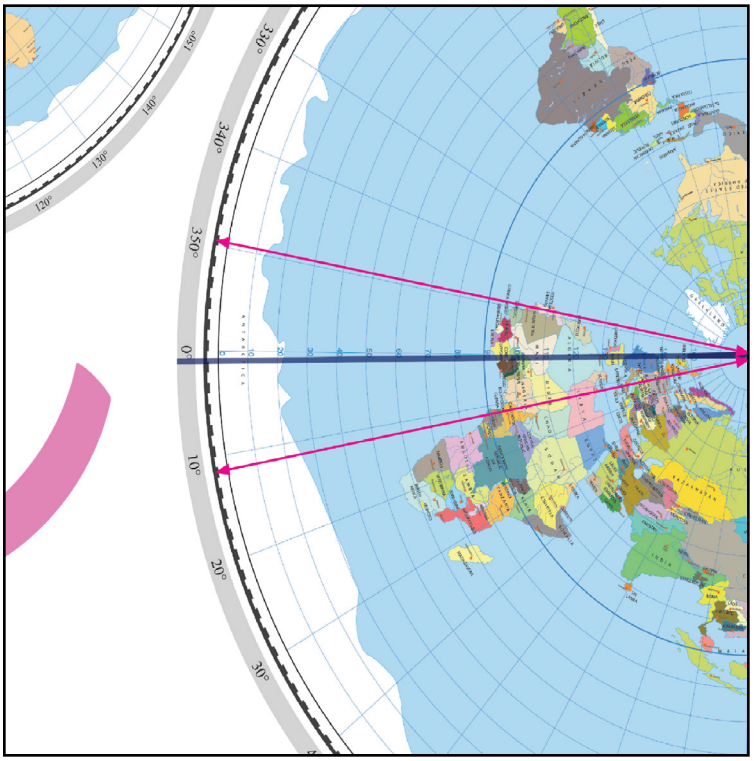


Figure 35—Enlarged view of map 6. Left side. Map by: Wiesaw (Adobe Stock, 2023)

With the 'M-P', we will add the top 350° with the 10° bottom to obtain the 360° HS. The HS360° from Map Six appears to be the shortcut to the Google Earth HS12 Map examined earlier.

This area feels more like something a spectator would see, whereas those at ground level need a more detailed HS12 viewpoint. It is as if those around the ice circle watch us on the field as we play out our lives - like spectators at a football game. Table four, 'M-Principle' where the left and right regions of the Firmament view are covered by nine entries each.

8f1a-95aa32009f07

With Map Seven, we can now see a hexagon forming. This map is a continuation of Map Six, and the QR codes are a repeat of the Google Earth map from Map Six. Once all hours of focus are examined, we will compare how these hexagons appear on the firmament view of the earth, which portrays a clearer picture of how the triangles of thirty-two degrees seem to be on three sides of the hexagons.

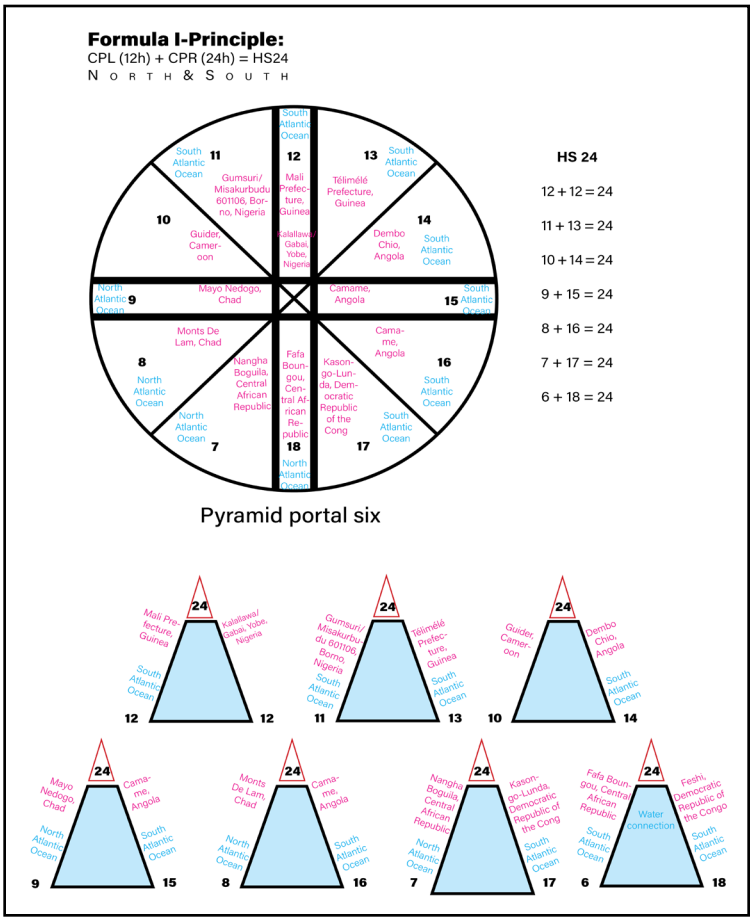
*12 & 12 ARE THE ONLY THREE PYRAMID PORTAL PATH. 11 TO 18 ARE THE SIXTH PYRAMID PORTAL PATHS

Table 5—Coordinates following the I-Principle pure form

Table five highlights the pure form of the 'I-Principle', where six is with six, eight is with four and so forth. For example, 6.00N 6.00E, but in degrees, minutes, seconds, and decimals, as viewed in the provided table. Table five is

to be used in conjunction with Map Seven.[1] As explained in chapter two, 'Understanding the Tabernacles,' we see the hours from HS12(3) to HS24(6) merging again. CPs 12 and 12 are the connecting pyramid portal paths to HS3.



Formula I-Principle:
CPL (12h) + CPR (24h) = HS24
NORTH & SOUTH
HS 24
12 + 12 = 24
11 + 13 = 24
10 + 14 = 24
9 + 15 = 24
8 + 16 = 24
7 + 17 = 24
6 + 18 = 24
Pyramid portal six

Figure 36—HS24(6) Coordinates in detail

[1] To view the enlarged version for Table Five visit https://acrobat.adobe.com/id/urn:aaid:sc:AP:aa43563f-5256-4cfd-b74e-37c8844d85b3

These CPs have overflowed onto Table Five data containing the HS6 paths map—the sixth pyramid portal path coordinates from the 11th to 18th hours. In theory, when these are joined via a line, a hexagon shape is formed. I suspect that points aligning with the calendars and clock numbers are vital areas, like how we have airports in specific places, as mentioned in the HS12 section.

See the footnote for the enlarged version of Figure Thirty-six. [1]

[1] Enlarged version for Figure 36 https://acrobat.adobe.com/id/urn:aaid:sc:AP:87028c5b-f982-4100-9bb9-1b943aed2eec

‘M-Principle’

The ‘M-Principle’ for HS24 will not be discussed here since we covered this principle on a broader scale in HS12, and it does not need to be repeated here. However, we will examine the Firmament view under the ‘I-Principle’.

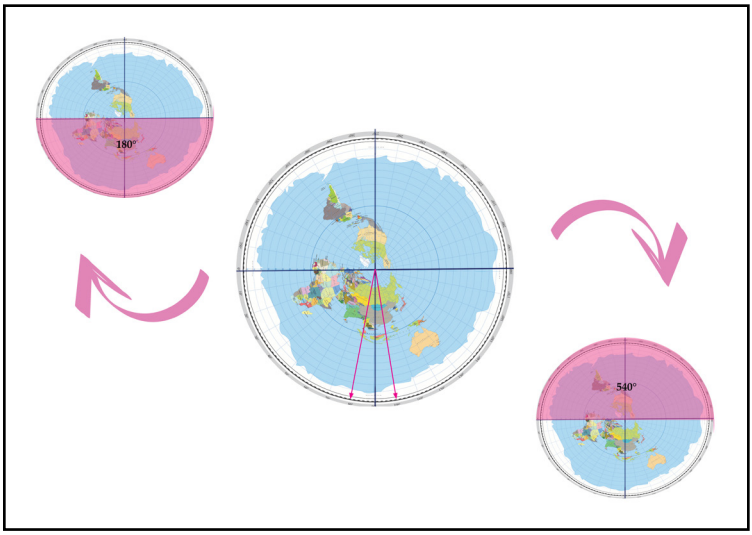


Map 8—Biblical view of Earth. Map by: Wiesaw (Adobe Stock, 2023)

Scan QR Code

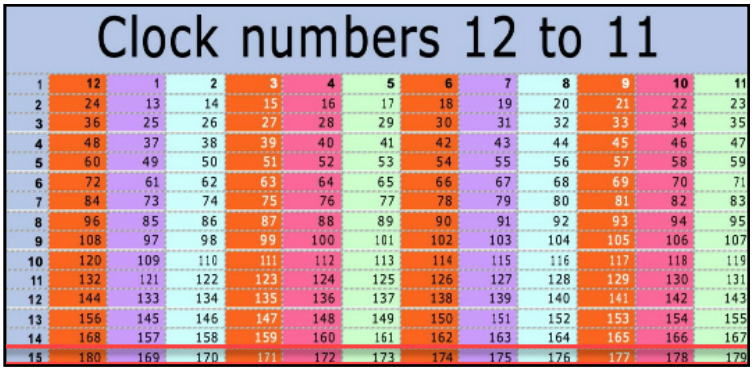
To view Firmament View for pyramid path portals at 180° and 540°

Map Eight depicts a flat earth with the 'I-Principle' and the relative portions shaded accordingly. On the left is the 180° (HS9) region, while on the bottom right is the 540° (HS9) region. According to the clock map, these sit at CP twelve regardless of the degrees number difference. Once again, God's ninth ancient pattern, found in Exodus 12:2, stares us right in the face—the pattern of nine and three.

For instance, the Nine is found by condensing both coordinates' degrees,

180° = 1 + 8 + 0 = 9, 540° = 5 + 4 + 0 = 9

To find the three, we extend the clock hours fifteen times and discover the number 180 sits at CP12.



Clock numbers 12 to 11

1	12	1	2	3	4	5	6	7	8	9	10	11
2	24	13	14	15	16	17	18	19	20	21	22	23

8	96	85	86	87	88	89	90	91	92	93	94	95
9	108	97	98	99	100	101	102	103	104	105	106	107
10	120	109	110	111	112	113	114	115	116	117	118	119
11	132	121	122	123	124	125	126	127	128	129	130	131
12	144	133	134	135	136	137	138	139	140	141	142	143
13	156	145	146	147	148	149	150	151	152	153	154	155
14	168	157	158	159	160	161	162	163	164	165	166	167
15	180	169	170	171	172	173	174	175	176	177	178	179

Figure 37—The red rectangle (kindle version) shows that 180 is the fifteenth row

We continue to extend the clock hours thirty more times, and we reach 540 at CP12. The number three is hidden in the number twelve. Thus, we now have the ancient codes of 9 and 3. Moreover, knowing what we know, these two numbers are of the 'M-Principle'.

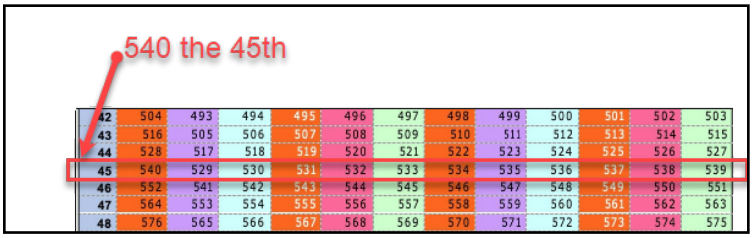

Figure 38—The red rectangle shows that 540 is the forty-fifth row on the clock map, click table to view entire sheet

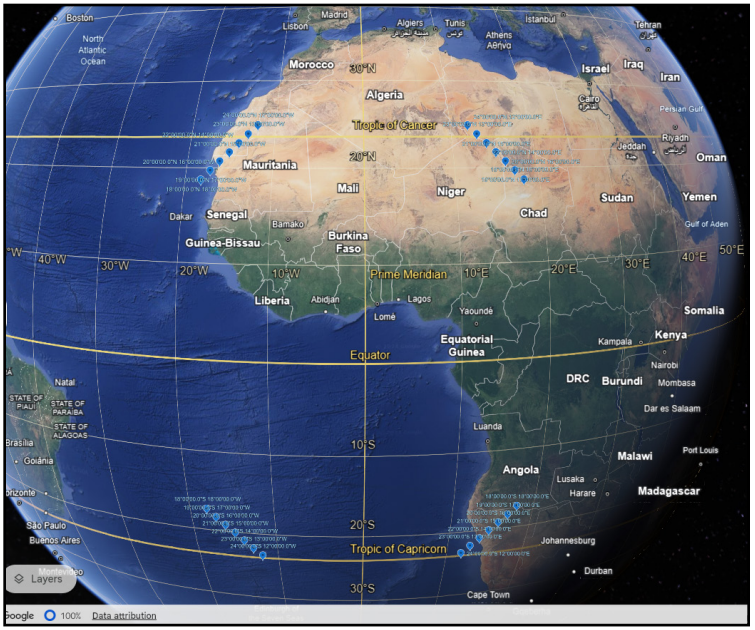
Figures Thirty-seven and Thirty-eight are extended hours from the clock in table form. The twelfth CP is listed first because it is the hours for hyperspace. Later in the chapter, we will focus on the flat earth view and globe view, and I will elaborate on how these are the same, how the globe hides the flat earth, and how the flat earth is the globe. We will also scrutinise the Cherubim blueprint and how America and Egypt are critical to these two map views' oneness. To give a glimpse, the clues are 180° and 540°. They appear to be hiding something someone does not want us to know.

This something will be discussed together with these views in a later chapter.

This leads us to the next part of this chapter, which is the HS36 (9) map in table and tabernacle form.

HS36(9) 'I-Principle'



Map 9—HS36 Coordinate form (Google Earth, 2021)

Scan QR Code

To view Google Earth capstone for pyramid path portals

Map Nine has HS36 in coordinate form. As with all other HSs, all seven entries are repeated four times per the four cardinal compass founds of NEWS. The QR code is placed under the map for convenience, saving readers from flicking pages back and forth.

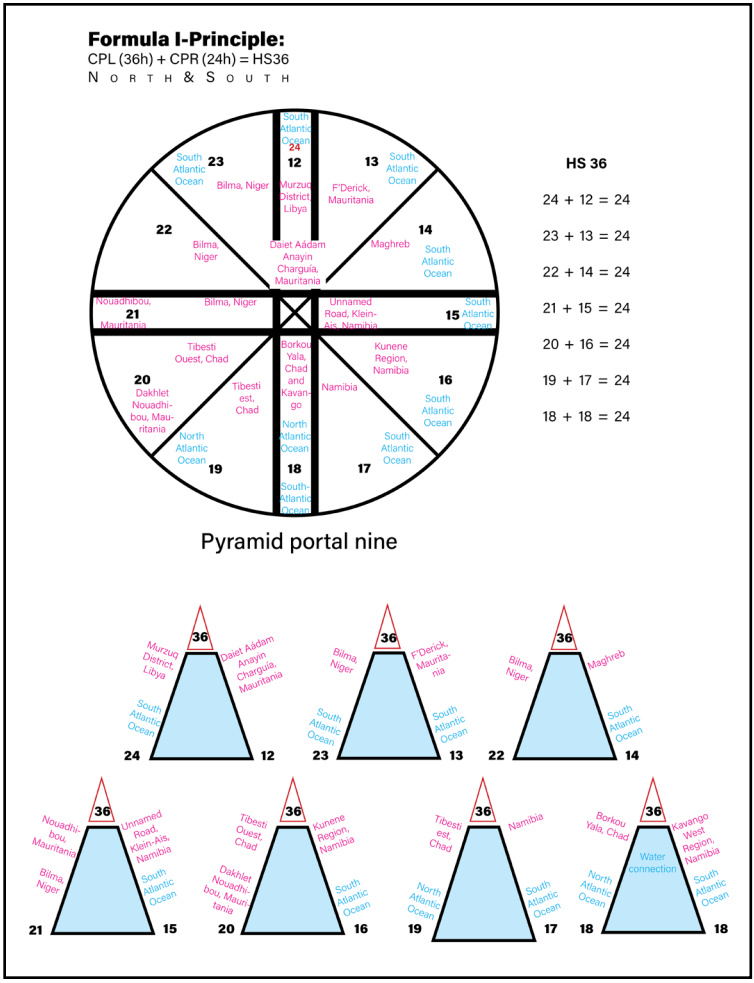
35 to 30 are the six pyramid portal paths overflowing to the ninth, second dimension." DL means direct lines.



Formula I-Principle:
CPL (36h) + CPR (24h) = HS36
NORTH & SOUTH
HS 36
24 + 12 = 24
23 + 13 = 24
22 + 14 = 24
21 + 15 = 24
20 + 16 = 24
19 + 17 = 24
18 + 18 = 24
Pyramid portal nine

Figure 39—HS36(9) Coordinates in detail

Figure Thirty-nine displays portal nine and the nations that could be the 'highway'. CP18 is from the third HS24 map flowing and connecting HS36, again revealing the

connections between these areas of interest. The footnote has the enlarged version link. [1]

The seven tabernacles or half hexagons are shaded because of the water connecting these areas; however, CPs 22 to 20 are connected to one water body, the South Atlantic Ocean. All other areas are connected to two and have a double portion of water connections.

The simplicity of Figure Thirty-nine and all HS maps lies in their ability to calculate the 'M-Principle'. We previously discussed the 'M-Principle' with HS12 and HS24 using a flat earth view encompassing the entire Earth. However, from now on, we will use pie charts to illustrate the simplicity of applying the 'M-Principle' from the figures containing the HS maps.

[1] HS36(9) enlarged version https://acrobat.adobe.com/id/urn:aaid:sc:AP:86829364-09a4-4b3c-9c53-cc8690dc3bab

'M-Principle'

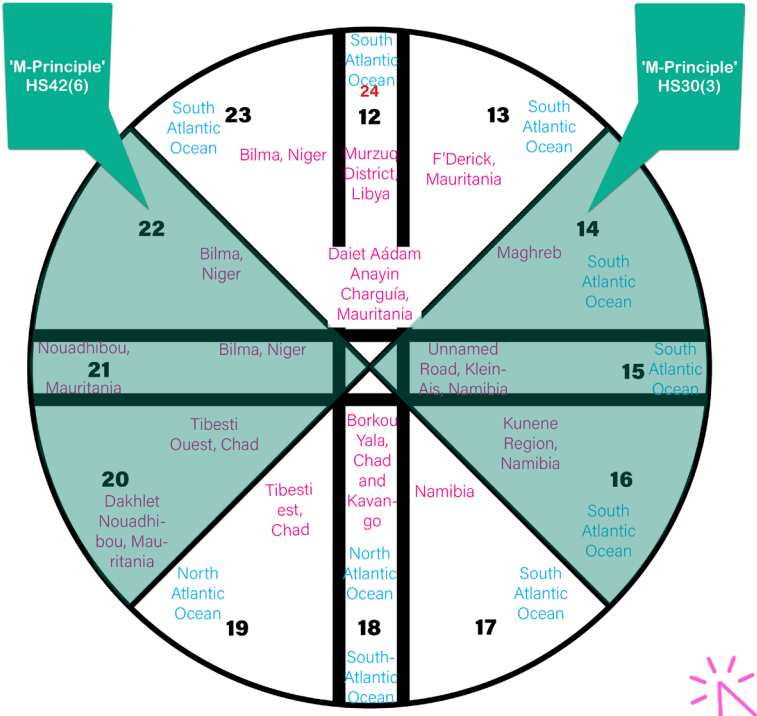


Figure 40—MP from Figure 39 pie chart

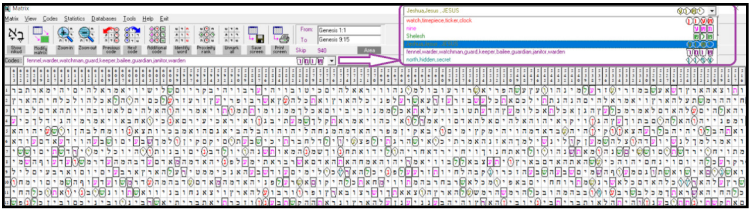
The M-Principle (MP) can be found in the shaded area from Figure Forty shaded slices for East and West.

As discussed in HS12, the supposed MP formula looks like

$$CPLT\,(^{\circ}) + CPLB\,(^{\circ}) = HS^{\circ}$$

The top CPs are added to the bottom CPs for the left and right sides. The first slice on the East has the HS30, where CP14 is added with CP16. CP15 adds itself. The process can be repeated for all other compass points as per the leading of the 'X' clue staring us in the face.

In volume one, the significance of the 'M-Principle' was discovered in the Bible codes matrix. From the Eagle—spiritual or space realm, Jesus Christ is discovered to be the guardian and gatekeeper and key of this physical and unseen realm for clock areas nine and three. These were tucked away in Genesis 1:1 and 9:15. These two clock points are lines that complete the cross and are borders.



Scan QR Code

To view Bible Codex Matrix
Jesus as Guardian 9 & 3

The provided QR code will take readers to the discovery.

However, should you encounter any issues with the code, see the footnote for backup. [1]

[1] Jesus as door, guardian, and key for CPs 9 and 3 https://www.projectclockcodes.com/enneagram-codes/jesus-in-3-6-9-codes

Further scrutiny of Figure Forty shows that CPs6 and 12 connect to HS42 and HS30. The 18th hour connects to both—CPb18 + CPt12 = HS30 and CPb18 + CPt24 = HS42. The 'X' in the middle point is the North when we use our imaginations and pretend we are sitting in heaven looking down. If you scanned the QR code before this sentence, you may have seen the peculiar code with 'North, hidden secret' in the Bible matrix. What is hidden in the North? Evil—according to Jewish thought.

Rabbi Raskin interprets Jeremiah 1:14 as evil hiding in the north, which will be released upon the earth. He states:

> *"...beneath the frozen mass of the North Pole, there's nothing. The north is "open." ...G-d's declaration is in direct response to Jeremiah's vision of a bubbling pot whose opening is from the north ...Babylon...destroyed the First Holy Temple, in fact, attacked from the north (Raskin 2024, pp. 27-28)."*

Returning to Figure Forty, we see how South of the clock is where HS42 begins and continues for the remainder of the left, west region, while HS30 ends at the south region yet rules over the East.

HS48(3) 'I-PRINCIPLE'

Map 10—HS48 Coordinate form (Google Earth, 2021)

‘M-Principle’

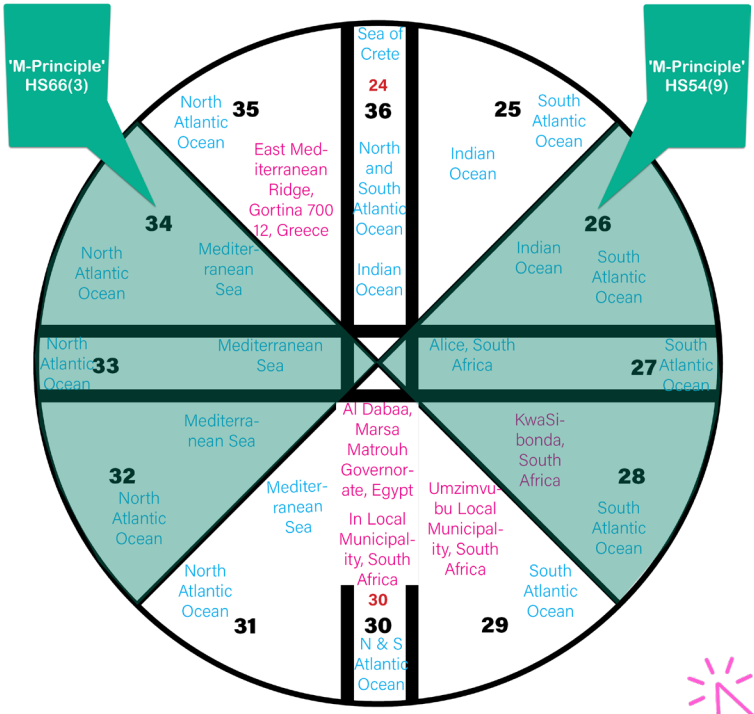

Figure 44—MP from Figure 43 pie chart

Once again, we encounter another fascinating pattern. Figure Forty-four MP shows the right region of the clock having HS54(9) and the left region changing from HS42(6) to HS66(3).[1] In chapter one, we briefly covered Egypt as we were jolting down real-life evidence of God’s Patterns around us.

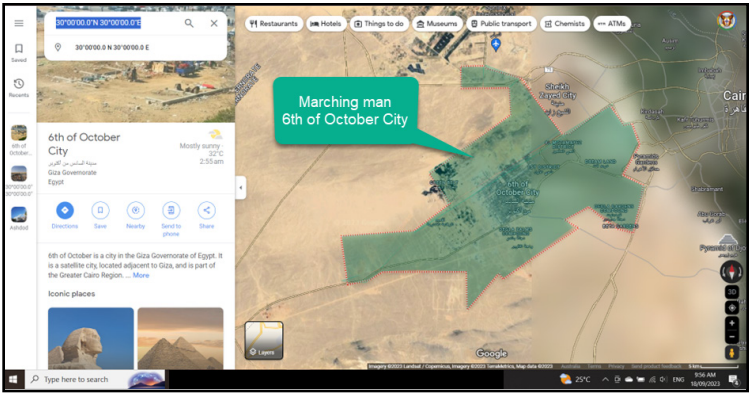
[1] Enlarged version for Figure 41—HS60(6) https://acrobat.adobe.com/id/urn:aaid:sc:AP:2c7e5ff5-9b46-4da3-bded-477af1327e3b

Intriguingly, Figure Forty-four shows that the exact location we focused on in Chapter One appears to be the base, like the bark of a tree.

Ironically, CP6—coordinates 30.00N 30.00E is 90.36 km from the 6th of October City. Moreover, the 6th of October City is 21 km from the Great Sphinx (tip of front paws), and the CP6 region is 108.81 km from the Pyramids of Giza and 109.85 km from the Sphinx.

What does this all mean? I have no idea!

However, I find it fascinating that CP6 is in Egypt, with measurements that contain numbers of the third ancient pattern of 3-6-9, and there so happens to be a city with the number six and is shaped like a man marching.



Map 12—Screenshot of 6th of October City with a marching man shape (Google Earth, 2023, 18/9/2023)

The CP6 region just happens to be 108.81 km from the Pyramids of Giza.

The numbers 108 and 81 appear to be a reflection or a hidden code and clue to look at the number 18 or 9. The

number 18 is on CP6. Furthermore, Egypt happens to be on the 60th HS.

Further analysis tells us that the clock provided in the introduction shows that, according to the Cherubim blueprint, the man's face is located on CP6. When we compare Map Twelve with the clock in the introduction, we see a merging of worlds of time and locations hiding in plain sight.

The Map Twelve screenshot I took happens to be on 18/9/2023. Coincidence? I think not. As we scrutinise Figure Forty-four further, the middle portion of the clock's CP12 (North) and CP6 (South) hours equals sixty. The MP so happens to be the merger for both HS54 and HS66 and repeats the exact workings of Figure Forty-four alignment, meaning the 'I' and 'M' principles align and meet in the middle of all CPs HSs (clock points hyperspaces).

Map Twelve has been enlarged so readers can see the 6th of October City of Egypt clearly. Google Earth added the borderlines, and the shade was added manually by the author. In the following page map fourteen displays the HS72 in coordinates form on the globe.

Once again, should there be any issues with the QR code, the footnote has the backup.[1] Figure Forty-three footnote for enlarged view.[2]

32 + 40 = 72
31 + 41 = 72
30 + 42 = 72
Pyramid portal ninth2nd
Water connection

Figure 45—HS72(9) Coordinates in detail

As seen in Figure Forty-five, the middle section yet again combines the clock's East and West regions in coordinate form. Examining the HS48 through to HS72, we have seen the repeat of 3-6-9 in the 'I' and 'M' principles in the Figures. We have also seen how the sixth portal solidly

holds both principles. Figure Forty-five, although the 72nd is the second nine of the ‘I-Principle’.

‘M-Principle’

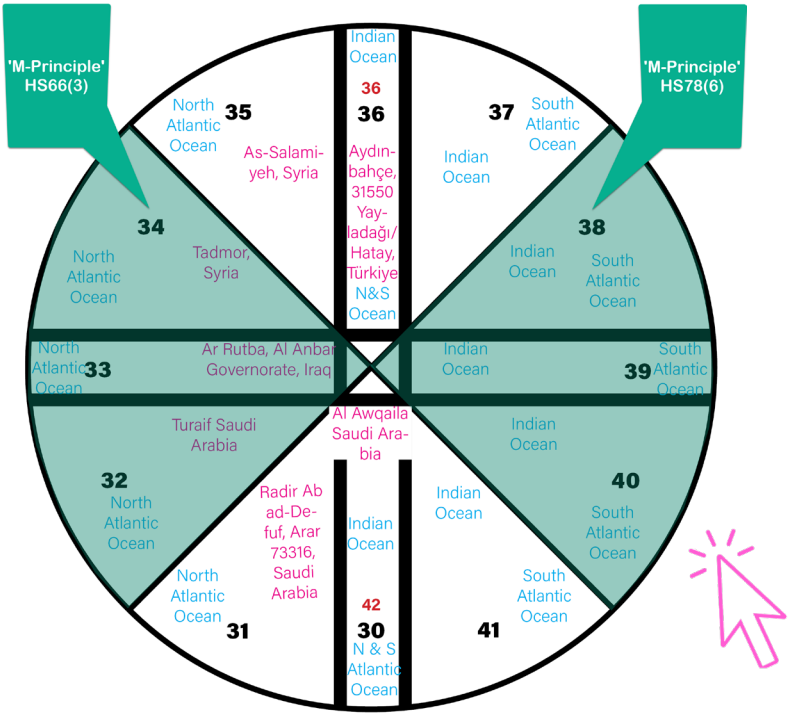

Figure 46—MP from Figure 45 pie chart

These repetitions of 3-6-9 are throughout all the HSs on Earth. Each nation snuggles within these ancient patterns, forming a perfect pyramid on a flat Earth. This experiment will be delivered later on in the book. We will finish the HS72 ‘M-Principle’, conclude, and move

on to these fascinating pyramid mappings of the 3-6-9 clock—through the Spirit of God, which has opened up.

GEOMAGNETIC ANOMALIES

This section will focus on scientific data that could theoretically be applied to and merged with the concept of Hyperspace travel.

Earth's Magnetic Field

The Earth's magnetic field is produced by the movement of its outer core. It is created deep inside the Earth in the fluid region. Heat convection, buoyancy forces, and planetary rotation cause the inner core's iron-rich fluid to flow complexly, generating electrical current as it moves through the existing magnetic field. This process results in the production of more magnetic fields or anomalies (Macmillan & Rycroft, 2010).

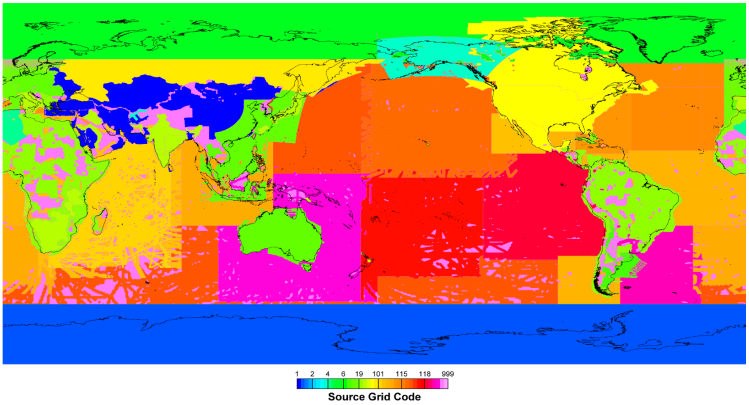
Magnetic anomalies are variations in Earth's magnetic field caused by different rock types and structures in the Earth's crust. We will examine an image created using a geomagnetic tool overlayed onto Google Earth to demonstrate the spreading of magnetic flow and the impact of thermal structures in the lower mantle on the geomagnetic field, including how the magnetic flow goes (from north to south or from south to north). [1]

First, we will examine how all the hyperspaces from HS12 to HS84 appear on Google Earth. Then, we will see how each region's geomagnetic anomalies appear. A QR code will take us to a twelve-minute video as we examine and

[1] To learn more about these geomagnetic tools go to https://www.sciencedirect.com/science/article/abs/pii/S0031920111000720?via%3Dihub By: U. Christensen, 2011

zoom in on these places of interest, including ancient sites and their hyperspace portals.

NCEI (National Centers for Environmental Information) has provided a map that is viewable on the following page. NOAA (National Oceanic and Atmospheric Administration) presents a global view of Earth's magnetic anomalies based on data from various grids and sources, visualised through colour coding. The data helps scientists interpret subsurface structures and geological formations.



Geomagnetic PNG 1—Google Earth Image KMZ Upward Continued Source: NCEI, NOAA. Earth Magnetic Model, EMAG2 v3 [1]

[1] Geomagnetic PNG 1 Source: https://www.ncei.noaa.gov/products/earth-magnetic-model-anomaly-grid-2

The previous geomagnetic PNG shows us what we can't see with our eyes. Scientists love using this map to discover what is deep inside the Earth, like the different types of rocks hiding down there. It is just like using a treasure map to find all the cool stuff underground!

The source grid code colours display levels of how strong or cold and how weak or hot the magnetic anomalies are along each area. Green, yellow, and red represent different levels of the anomalies. The globe below has the HS12 to HS84 landmarked onto Google Earth. Without the activated geomagnetic tool, while the next globe contains an activated geomagnetic tool showing the anomalies. For a more interactive display, you can scan the QR code, on the following page. [1]

The Highways Summary

In conclusion, Chapter 3 has burrowed deeper into exploring the Pyramid Portals through the application of the 'I' and 'M' Principles converted to coordinates as outlined in the previous chapter. The systematic approach used has revealed consistent hexagonal shapes in the HS maps, aligning with the significance found in Emoto, Solfeggio, and Cymatics experiments.

The presentation has provided a visual journey through the "highways" in Google Earth format, followed by the tabernacle maps featuring the names of the nations, and concluded with a comprehensive table of coordinates. The careful analysis of the tables and the discovery of captivating anomalies in the data have left us with much to ponder. This exploration sets the stage for a continued and exciting journey into times interdimensional layered facets and the secrets of the Universe, all in connection and pointing to Jesus Christ.

Following this paragraph, all six hyperspaces (HS) from 12 to 72 have been given their pages so that readers can scrutinise each HS and, if needed, write or jolt down their notes on what the Holy Spirit may reveal in the spaces provided. Recall how all these are pure forms of the 'I-Principle', each HS appear to release seven locations for the South and North regions and seven more for the East and West regions. Totaling fourteen areas.

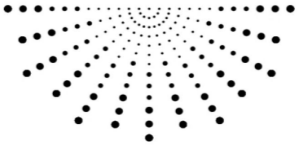
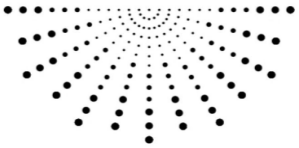
CHAPTER IV



EGYPT

EARTH’S FOUNDATION

FORGOTTEN HEADQUARTERS

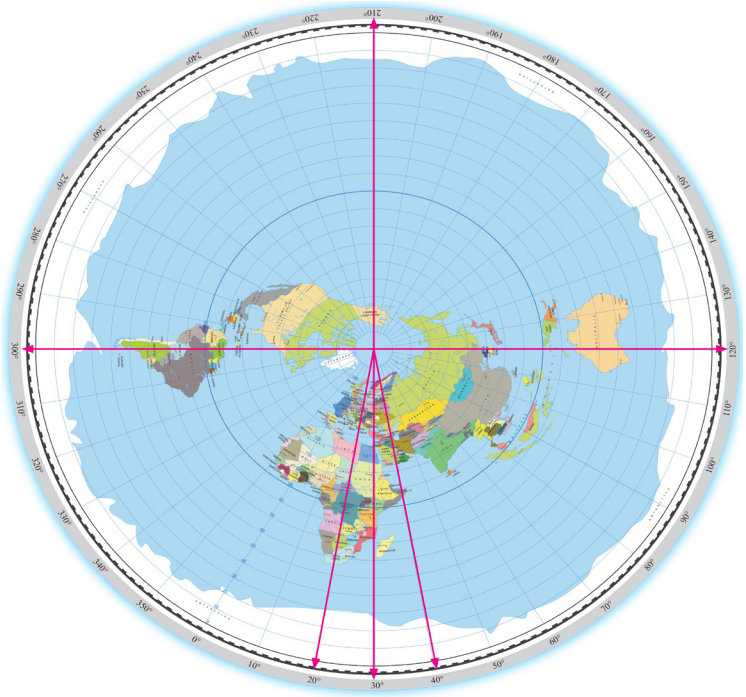


I am the Lord, I change not. — Malachi 3:6

The 150° Right Shift

Just as God says he doesn't change, so do his ancient foundations that we will discover hidden in Egypt. For this chapter, we will focus on Egypt and the mysterious location of 30.00N 30.00E. In chapter two, we briefly looked at the coordinates mentioned above, while in chapter three, we played a bit more with the 6th of October City with measurements from and to the Pyramids of Giza and the Sphinx. We even saw the uncanny correlations between the Euphrates River and the Nile and the prophetic passages relating to these rivers. To start, we will now analyse and compare the author of this book's clock containing the Cherubim blueprint, with the flat earth shifted by 150° to the right, matching the crossroad of time.

Then, we will compare the degrees of the flat earth and the globe and see how they are the same. This will be followed by the anticipated hexagons, which reveal the triangle portals around the world aligning with the six-sided star. Followed by a hypothesis.



Map 15—Flat earth shifted 150° to align with the time blueprint
Map by: Wiesaw (Adobe Stock, 2023)

As seen in the Figure above, the earth is shifted 150° to align with the clock in the introduction. To view an enlarged version, scan or type/click the link in the footnote. [1]

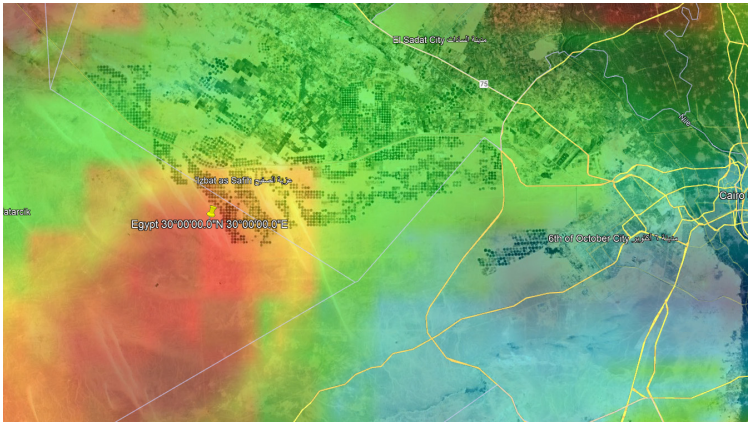
GEOMAGNETIC ANOMALY

Seeing how Egypt is of the HS60(6), we will focus on the geomagnetic anomalies present along the yellow pin landmark in the provided pngs.



Google Earth 2024— Egypt, KMZ Overlay NOAA Earth Magnetic Model, EMAG2 v3,

The map clearly indicates that the **coordinates 30.00N 30.00E** are at a significant level, though not as strong as pink. This is likely due to the geological structures, mineral exploration, and the composition of the Earth's crust in that region. Taking a broader view, one noticeable feature is a heart ironically in the midst of the yellow borderlines.

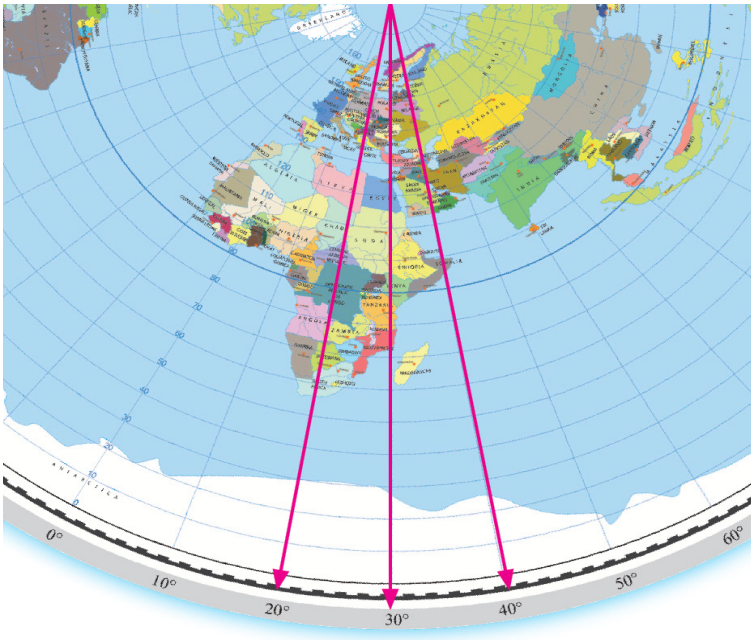
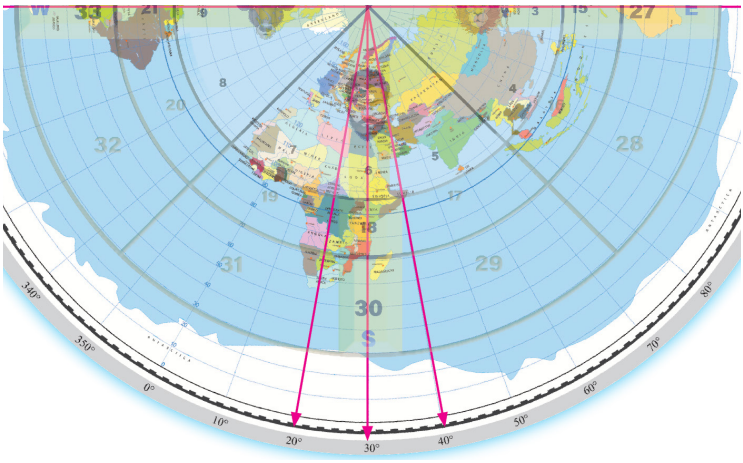
The Man Realm



Map 16—The bottom region of flat Earth shifted 150° aligning with the time blueprint. Map by: Wiesaw (Adobe Stock, 2023)



Map 17—Flat earth shifted 150° merged with the clock cherubim blueprint. Map by: Wiesaw (Adobe Stock, 2023)

Now let's examine the Man Realm and observe that by shifting the map 150° to the right, we find that 30° is at the heart of the map. This adds to the evidence of the heart-shaped geomagnetic anomaly discovered in Egypt.

Firstly, to clarify, try to ignore the clock numbers, as these are flipped on the map. Number thirty-one must be on the right side, while twenty-nine must be on the left going anticlockwise. It's like the clock is telling us where we are going, while the numbers on Earth feel more like a countdown to the end of our age.

This is the first thing observed when merging the two circles. The only alignment that stays the same is the number thirty. This detail builds more into the mystery of Egypt as the base.

From HS60(6), we discovered that the 6th of October City and the coordinates 30.00N 30.00E are in Egypt and that the 6th of October City screenshot taken on 18/09/2023 revealed a marching man.

When we compare the marching man to Map Seventeen, we see the man's emblem. Chapters two and three of HS60(6) also revealed the nations of Africa and Sudan.

Egypt is northeast of Africa, and Sudan is below it. The point with Sudan being below Egypt is that Sudan also has pyramids that come under and appear to follow the clock structure of the HS60(6). The following page has the map of the Nubian Pyramids in various places in Sudan. The green dashed line directs us to Sudan from Egypt because that is where history leads us. The red landmarks are areas of the Nubian Pyramids.

Map 18—Nubian Pyramids Correlation to Egypt and HS6. Click image or QR code to view map (Google Earth, 2024)

Scan QR Code

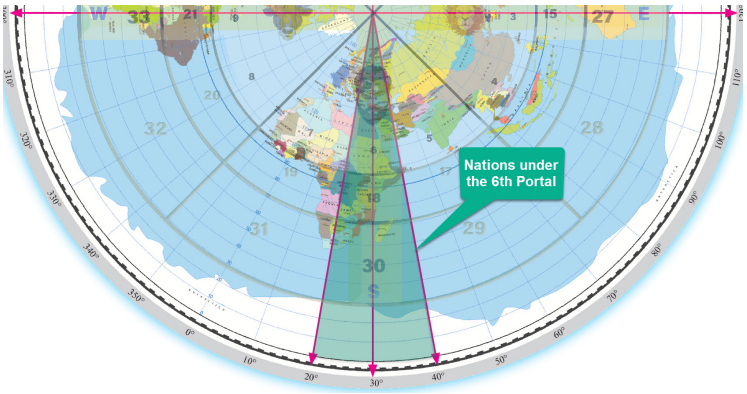
The QR code will take you to the pdf version which you can enlarge. However, as per usual, see the footnote if you encounter any phenomena with scanning the code.[1]



Map 19—Nations under the HS6, Map by: Wiesaw (Adobe Stock, 2023)

Map Nineteen highlights areas of the world that fall under the discovered first HS6 portal. Fascinatingly, the Pyramids Nubian House is located in Egypt as marked in Map Eighteen and most of the Nubian Pyramids have an interesting shape of an 'H'. Could it be that simple that the 'H' is God's shekinah glory or spirit he said he would remove in Genesis 6:3 when the fallen sons of God were copulating with the daughters of man?[2]

The 'H' that is added to the word 'WHY' when we read from right to left that forms the 'YHWH'.

[1] Nubian Pyramids in Sudan, under Egypt https://acrobat.adobe.com/id/urn:aaid:sc:ap:c19dd1ab-ab55-4422-81a1-5819210bab3e

[2] 3 And the Lord said, "My Spirit shall not strive with man forever, for he is indeed flesh; yet his days shall be one hundred and twenty years." (NKJV)

Perhaps this 'H' was removed after the flood, and the Holy Spirit is now bringing it back to our remembrance.

One of the three meanings of the letter 'H' in Hebrew is 'here is' (Raskin, 2024, p. 52). He mentions that 'in Chassidic thought, the hei (H) represents thought, speech and action' (p.53).

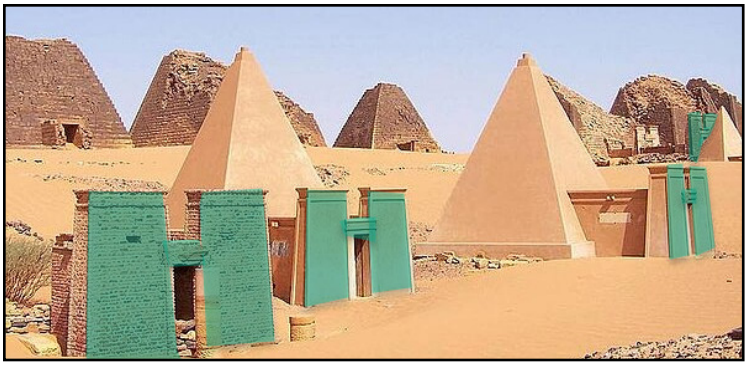


Figure 47—Screenshot of Nubian Pyramids with marked 'H' (Wikipedia, 2024)

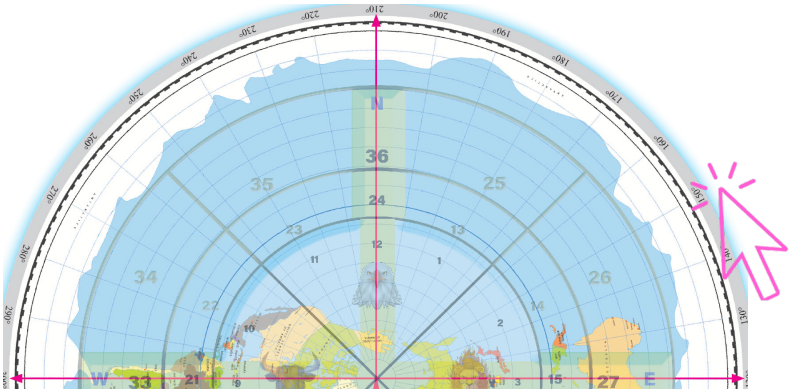
The letter 'H' may symbolise Hyperspace or being seated in heavenly places, referring to the high places where wisdom resides and sending out her maidens to call the simple who thirst for wisdom. In Proverbs nine, the use of past tense indicates that everything is already completed, awaiting the arrival of those seeking enlightenment.

The passage also reveals that wickedness is lurking near and mirroring wisdom, imitating her. Perhaps 'H' suggests that thoughts, speech, and actions related to hyperspace are no longer concealed but open by the Holy Spirit, who is, after all, known as the superimposed spirit. The spirit of Wisdom.

The Eagle Realm



Map 20—The Eagle realm and correlations to the USA. Map by: Wiesaw (Adobe Stock, 2023)

Scan QR Code

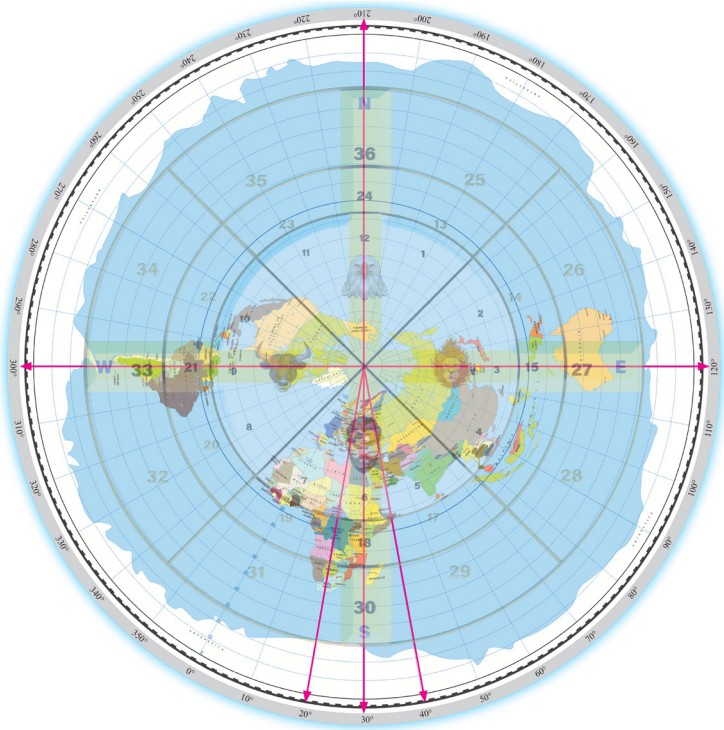
To view enlarged version of the Eagle Realm

Map Twenty has the realm of the Eagle. As we examine the flat earth map, we see America as the first point of contact from the other three realms or dominions of what I have grown to believe are the dominions of the Principalities of the heavenly places.[1] Moreover, these princes continually wage war on or against our behalf.

[1] Pdf version that can be enlarged https://acrobat.adobe.com/id/urn:aaid:sc:AP:c5bc2a3d-5344-4536-aa51-4cf93a819f97

The man realm of HS60(6) could be where Michael, the 'man' archangel, fights for Israel.

Israel so happens to be in the Man's realm. As we learnt in volume one, it is on the seventh hour, sitting at 31°, and each nation has its own circle of hours.

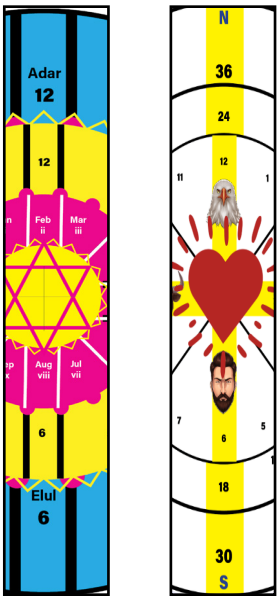


Map 21—Flat Earth merged with Cherubim Clock Blueprint
Map by: Wiesaw (Adobe Stock, 2023)

However, further research reveals Egypt's flag ensign to be that of an Eagle. When we view the symbol of the Eagle from a spiritual perspective, it is the sign of prophecy.

Thus, we can articulate that the Eagle sign of Egypt is the spirit of prophecy moving in their lives, leading them to Isaiah 19:25, where Egypt, after their Godly chastisement, will view and be in union with our Almighty God.

It can be noted that with the Cherubim blueprint merged with Exodus 12:2 ancient number patterns, we learned that six is a direct line to twelve; therefore, with man comes the eagle. As we continue looking from the spiritual view, where there is the Original Man—Jesus, the eagle—the spirit of prophecy follows.



Historically, Egypt adopted the Eagle and Tricolour flag in October 1984 (World Atlas, n.d.). Before that, its ensign was a crescent moon with three stars. The luminary ensign aligns with that of Israel, whose flag ensign is a six-sided star. Therefore, we can speculate that the spiritual forces influencing Egypt have now turned to that of prophecy fulfilment, as we read earlier in the chapter.

Thus, we can solidify that the star of Israel remains the same because the spiritual force behind it does not change. As we discovered in volume one, the Star of David is no other than the menorah activated from God's view, which in turn solidifies prophecy that Israel as a nation was activated when Truman signed that document recognising Israel as a state, which was also discussed in volume one.

Further analysis revealed that America is also in the realm of the Eagle.

As we look at the Earth map provided, we can observe how the Eagle of the Clock blueprint just so happens to be where America is. Coincidence, right?! However, America is quite fascinating, for the flag has fifty stars, one added every 4th of July, and thirteen stripes (U.S. Embassy & Consultants in the United Kingdom, n.d.). However, many of us know that the eagle used in the American dollar [also known as the great seal] and embassies are the ensign of significant influence.[1]

As we begin to observe figures forty-eight and nine, we will briefly focus on the circle around the hexagon marked above the eagle's head. This appears to reflect Earth's proper form hidden in plain sight and will be discussed further in chapter five, where we will discover how God's Menorah is the hidden clue to the truth of his creation(s) and the mindbending visuals of how once we know how to look shows us how to understand ancient language staring at us in the face used by the ancient sons of God (fallen and unfallen).

[1] Great Seal licensed from Adobe Stock, contributor by stranik_fox

Figure 48—U.S. Great Seal (By: strannik_fox Adobe Stock, 2024)

Figure 49—U.S. Great Seal Marked Hexagon (By: strannik_fox Adobe Stock, 2024)

Hidden in the unfinished pyramid on the other side of the American dollar bill and the Great Seal.

As we shift our minds to that of the Cherubim Blueprint, where all heads of thought are joined, we can articulate that the U.S. Great Seal appears to cover both Egypt and Israel's ensigns of the hexagon six-pointed star, the eagle, and no doubt other nations along the path of CP12 and CP6. These ensigns give us a glimpse into the physical and the spiritual wars and rulers.

We are now going to analyse the Lion's realm.

The Lion Realm

As with everything in this book, the lion's realm caught me off guard, most specifically America's friend and sister nation, Canada. Their Coat of Arms blew my mind since they have the ensign of a lion and horse and the royal emblems of England, Scotland, Ireland, and France.[1] Their national flag has the famous maple tree leaf of red on a white background and two red stripes on each side.

The clock's west and east regions feature identical red and white colours for both Canada and Japan. Thus, the clock gives us yet another correlation of the 3-6-9 oneness, just in its emblem form. On a broader scale, all nations appear to be moving like the Ophanim, where the wheel of colours is 'wheel upon wheel' merging and mixing in and out of each other.

As seen with the Japanese Flag and Imperial sign, these 'wheels' lead us to the last primary realm. Bulls Realm.

[1] Canada Coat of Arms https://www.gg.ca/en/heraldry/public-register/project/461

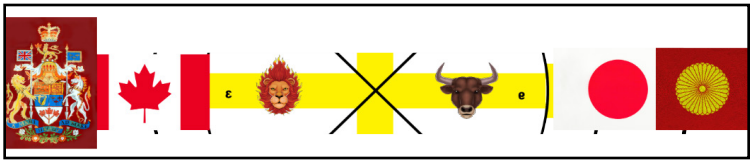


Figure 50—Colour correlation between Canada and Japan (Adobe Stock, 2024)

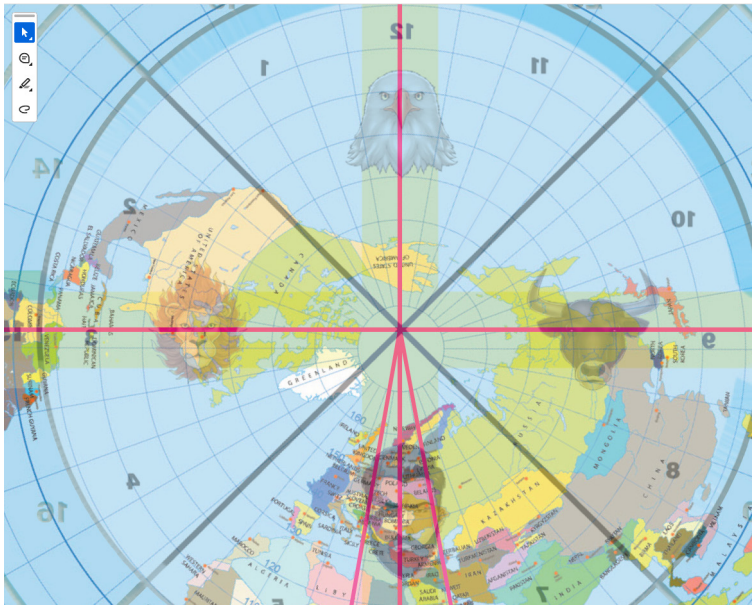
Below contains the magnified version of the correlations. Readers will need to observe carefully to see the perspectives at play.

The QR code will take you to the PDF version, which allows you to zoom in and out on the map used.



Map 22—Magnified view for Cherubim Blueprint Correlations for Nations Map by: Wiesaw (Adobe Stock, 2023)

Scan QR Code

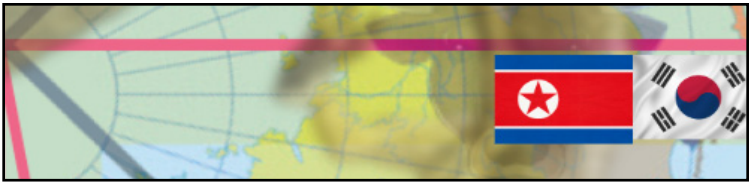
To view enlarged version of the Eagle Realm

The Bull Realm

As viewed in Map Twenty-two, the bull realm appears to contain nations of Asia on the inner parts of the map and the outskirts of the map are Papua New Guinea, the Islands, the Philippines, New Zealand and Australia.

Remember to ignore the clock numbers with the accompanying compass points, as these do not match the flat earth map. North is in the middle of the map (highest heaven), South is around the earth, and West and East are as far as they can be. From a spiritual perspective, the bull represents 'herd-mentality' and is prominent in areas like China, Mongolia, Russia, Japan, North and South Korea, and along the outskirts of the clock.

However, in hindsight, we must remember that the Cherubim are of one body and one head with four primary perspectives followed by sub-perspectives, just as the Israelites camped in Numbers two. These principalities move 'wheel upon wheel' according to the ages and changes of the earth's crust.

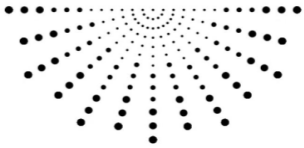


This chapter aims to show how Egypt appears on the ancient map (flat earth) and how what was concealed is now being revealed via the hyperspace map on which we have been focusing throughout the entire context of this book. Also, with the 3-6-9 pattern, South Korea, which is on the Bull section, has 69 shape and four elements surrounding the flag and colours similar to those of other nations surrounding it. [1]

[1] **Author Note:** I sit with the concept of a 12-dimensional Earth, fashioned by my encounter with the angel that appeared while I was searching for God, as I detailed in Volume One. I also have a hunch that the different representations of Earth, be it flat, two-dimensional, three-dimensional, spherical, or four-dimensional hexagonal, might minister as hidden messages from God for us to decode, bound to reveal his hidden messages.

Just as Jesus put his many disciples to the test (John 6:52-66 NKJV) by asking them to eat his flesh and drink his blood (which led many to leave because they were offended), He continues to challenge our flesh thoughts today (his mind is higher than our own). The codes He presents are often wrapped up in bizarre ways, and only those who are spiritually mature will grasp how to engage with them. It requires patience and perseverance as we connect with Him, ultimately uncovering what He truly means by these symbolic representations. What seems new to us is ancient to the ancients. Vigilienge is knowing the enemy can and uses our limited understanding to cause us to remain divided, let us not give any opening to the enemy in this sense, of earth, for it is our salvation in Jesus Christ that counts not our limited understanding of earth.

LITERAL PORTALS

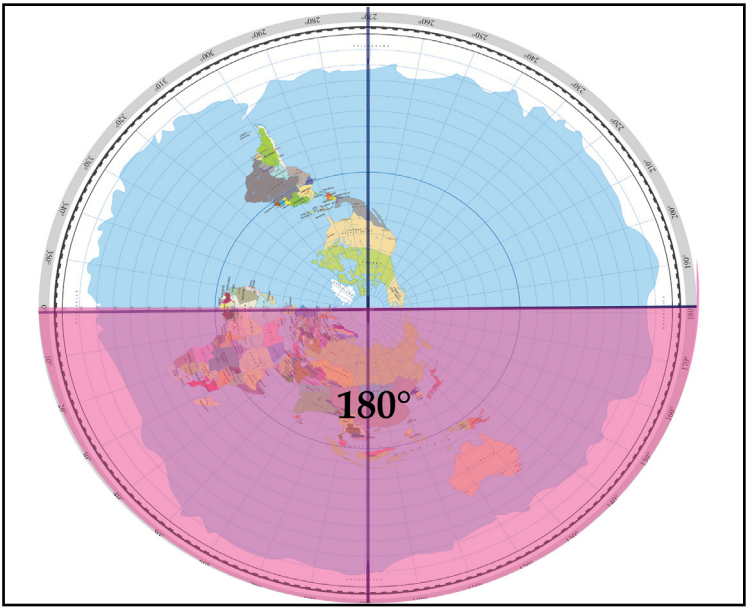


3-6-9 are a key to the universe — Nikola Tesla

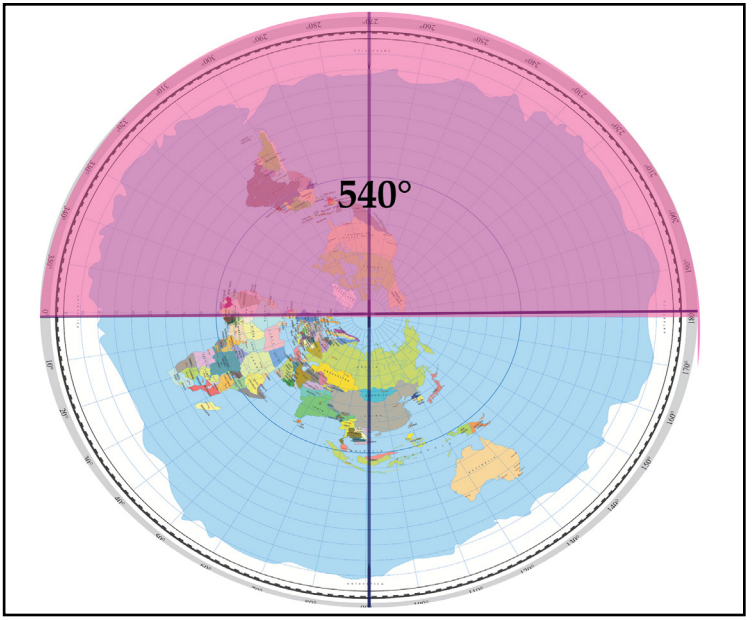
The Nines of the Earth

This section will examine the similarities between the Globe Earth and Flat Earth. We will start by exploring the symbolism hidden within the degrees of the flat earth, and then we will compare how hexagons are represented on both types of earth. Ultimately, we will delve into the profound meaning behind these hexagons, which may reveal information that not everyone knows.

In chapter three, HS24(6), we covered the 'I-Principle' for Map Eight. We will scrutinise the top and bottom sections even further, revealing the nine twined with the globe's nine. We tease out the nine by adding one, eight, and zero [1 + 8 + 0 = 9]. In other words, the root of 180 = 9.



Map 23—Snippet of map 8 bottom region

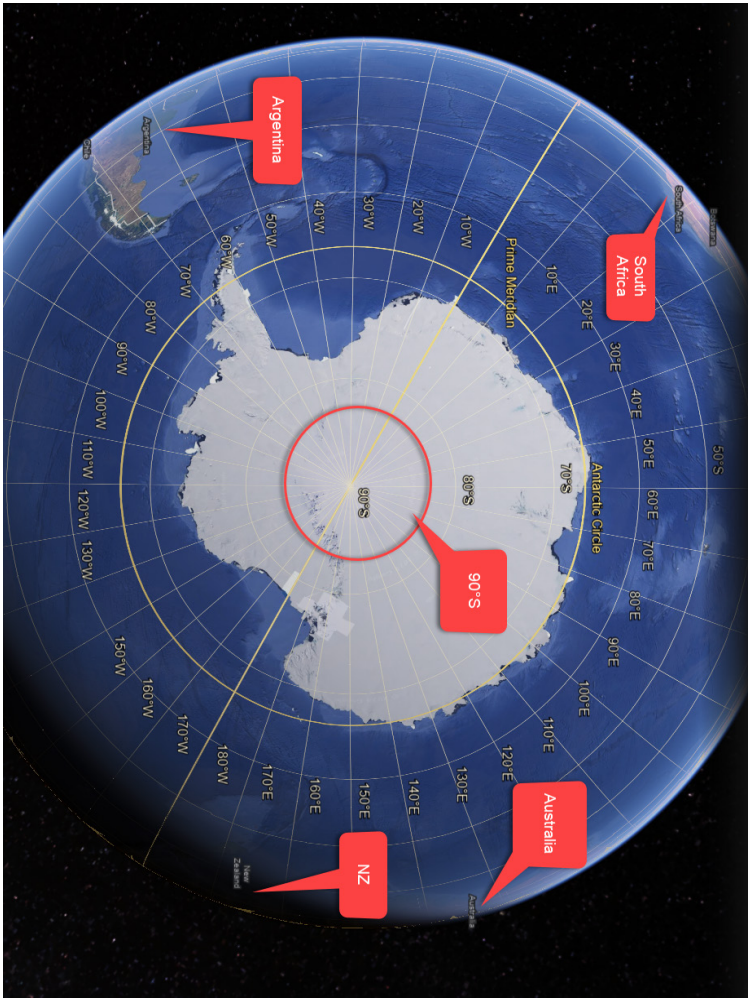


Map 24—Snippet of map 8 top region

We will do this simple method with the top half.

$5 + 4 + 0 = 9$

Readers remember to flip or adjust the page, so you do not get a crack in the neck.



Map 25—The Nine of the South Pole (Google Earth, 2024)

Further thought reveals that the flat earth map, when folded onto a sphere or ball, shows the ice layer surrounding the earth meeting in the middle, thus creating the South Pole with ninety degrees.

$90^\circ = 9 + 0 = 9$

The globe Earth screenshot from Google Earth will show us how the nines are the key. Readers must turn the page to view the 'nine' keys. Australia is then located on the SE, America is then on the NE, etc. All we need to do is use our imagination. Recall how the 'I-Principle' was the key that opened the way in which we were able to uncover the oneness of both Earth facets.

In numerology, the concept of "root numbers" (or single-digit numbers) is used to simplify multi-digit numbers down to a single digit by summing the individual digits. This is often called digit reduction or reducing to a root number. The result is always a number between 1 and 9, as these are considered the fundamental or "root" numbers. An example for calculating root for numbers are:

• Start with number 27, for 27, you would sum

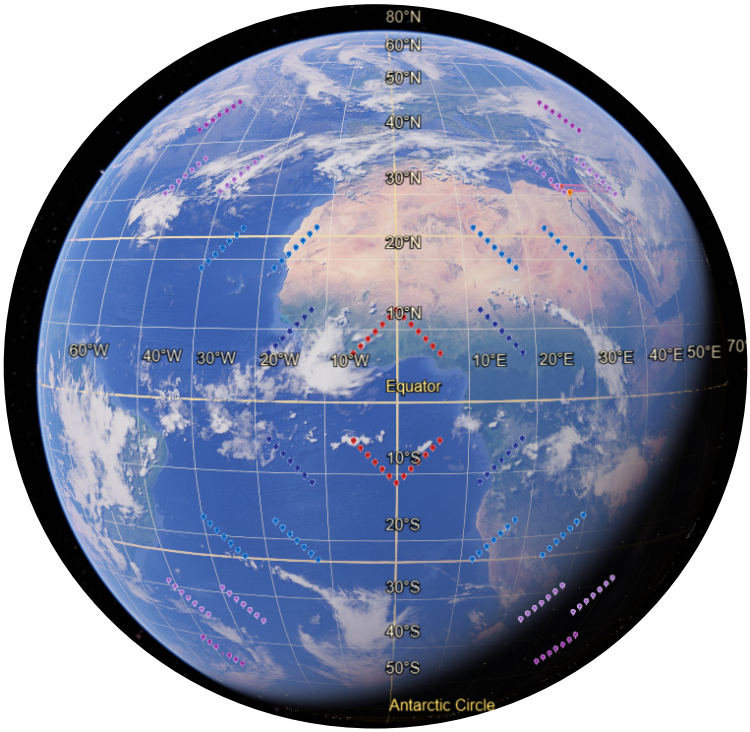
$2 + 7 = 9$

If there is a decimal part, you can ignore it for most numerological calculations unless specific contexts require it. Repeat the summing process until you reach a single-digit number. In this case, 9 is already a single-digit number.

THE HEXAGONS

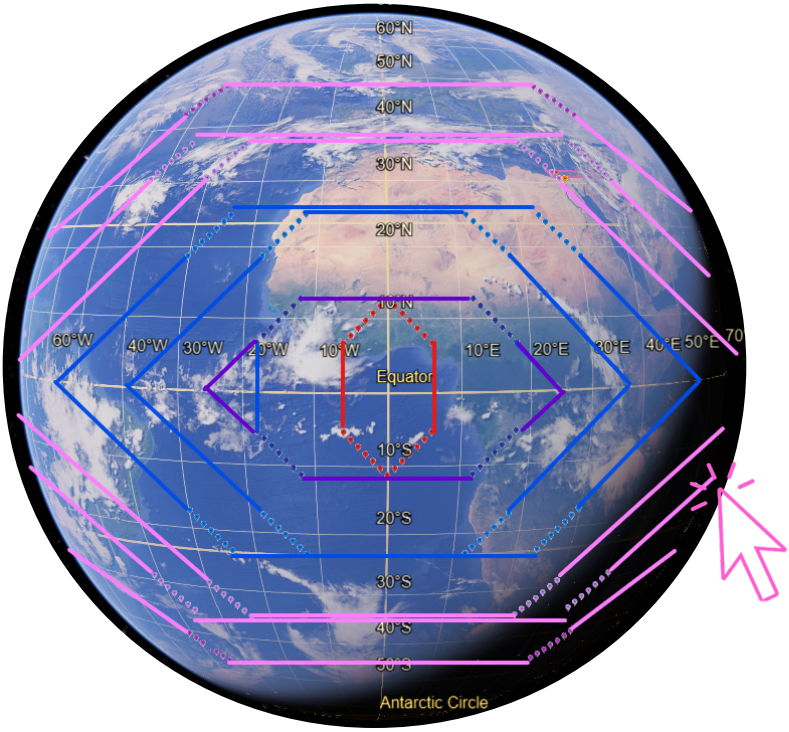
We will combine all the hexagons hidden in the HSs talked about in chapters three and four.

The Eye in the Globe



Map 26—Activated HS12-84 (Google Earth, 2023)

Map Twenty-six displays the hyperspace hours addressed in the earlier chapters, and the following map will display how these are hexagons.



Map 27—Activated HS12-84 with connecting lines forming the Hexagons and eye (Google Earth, 2023)

Following Map Twenty-six, map Twenty-seven we see how hexagons form when we connect the HS with lines.

These hexagons extend throughout the entire earth and reveal some bizarre correlations that never ceases to blow my mind. By drawing these lines, we see what appears to be an eye. Alternatively, perhaps the eye is still misaligned; therefore, activation of sorts may have to be for at least a few more years or thousands of years.

The following page will have the flat earth facet, and here, we can easily distinguish the hexagon triangles as seen in the six-sided star (or Star of David or Seal of Solomon).

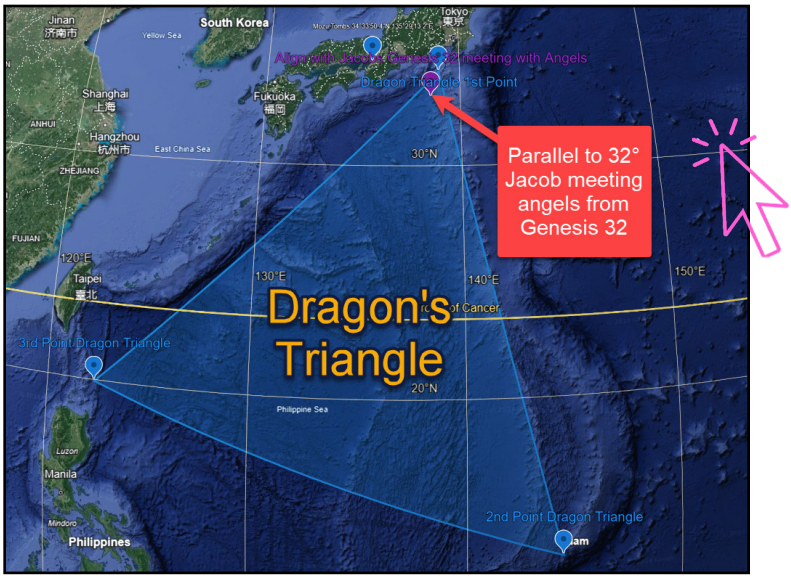
Scan QR Code

To view Hexagons of Earth

32° BERMUDA CLUES

When we zoom into Google Earth, we can distinguish how the famous Bermuda is located in the NW, the Dragons Triangle in the NE, and the Forgotten Triangle—ironically, the smallest of the other two—is located in Israel. These three triangles are fascinatingly correlated by the number 32°. We will take a glimpse of these, and a QR code has been generated so that you can engage and find this triangle phenomenon for yourself. We are starting with the largest, the dragon's triangle.

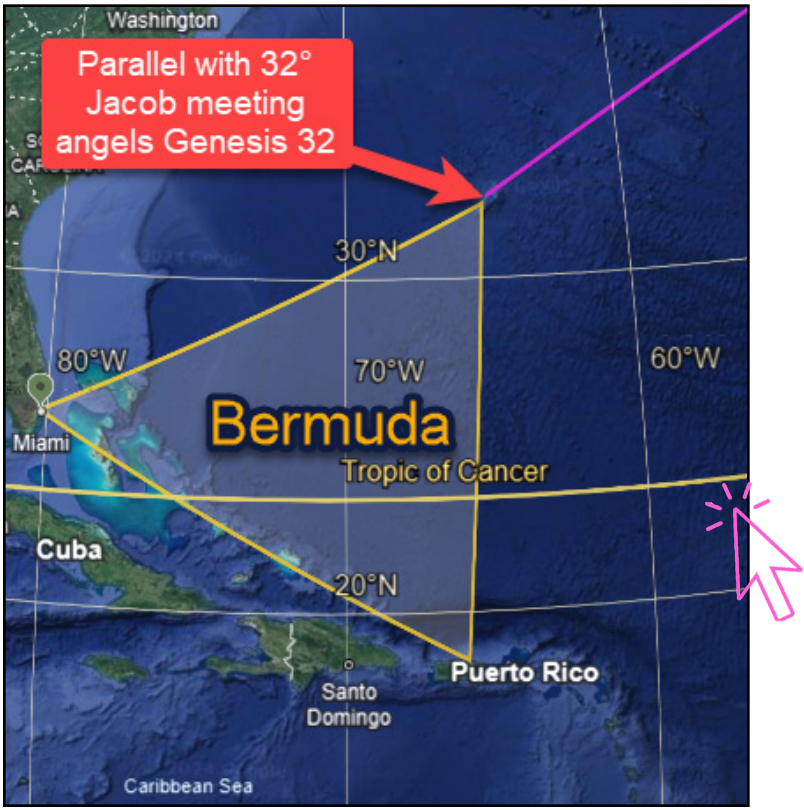
Dragons' Triangle



Map 28—Dragons Triangle and its 32° parallel line to Jacob meeting angels in Genesis 32 and Esau in Jasher 32 (Google Earth, 2022)

Map Twenty-eight highlights the parallel lines of 32° in red, pointing to the landmark in purple. The purple words reflect what is being conveyed in the map caption.

Bermuda Triangle

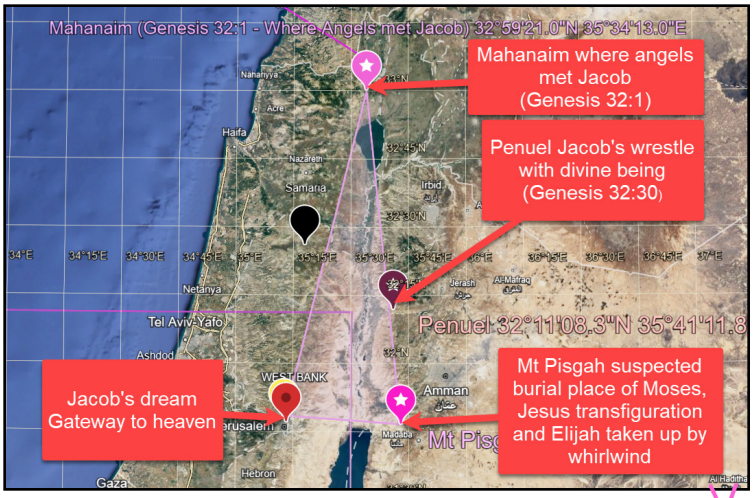


Map 29—Bermuda parallel line to Jacob meeting angels 32° (Google Earth, 2022)

Map Twenty-nine shows how the tip of the well-known Bermuda has the exact coordinates as the same locations where angels met Jacob in Genesis 32 and manhandled

his twin brother—Esau, in Jasher 32—the tip where the arrow points is the location of the Bermuda Island.

Israel Triangle



Map 30—Israel Triangle is the smallest of all (Google Earth, 2024)

Scan QR Code

To view the 32° triangles of the earth

Map Thirty appears to be the smallest triangle but has the most written and evidential information about where the unseen realm meets our physical realm. Further investigation reveals that Israel's triangle is in the middle of the Dragon and Bermuda Triangles. The middle triangle appears to be the triangle of life and faith (where blessings follow), and the two on the sides appear to be triangles of death and fear.

This detail guides us to the ancient book of Enoch.[1] He stated that the earth's winds were twelve in total, and the middle winds brought blessings and life, while the outer winds brought hail, pestilence, and drought.

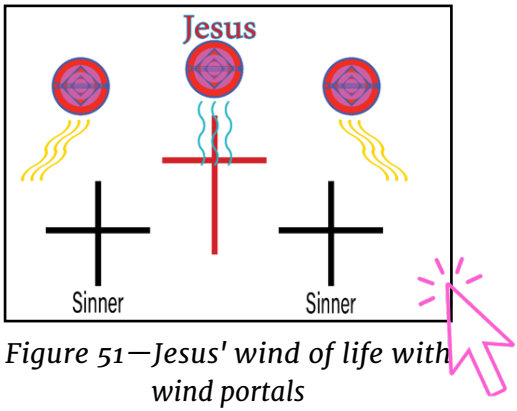


Figure 51—Jesus' wind of life with wind portals

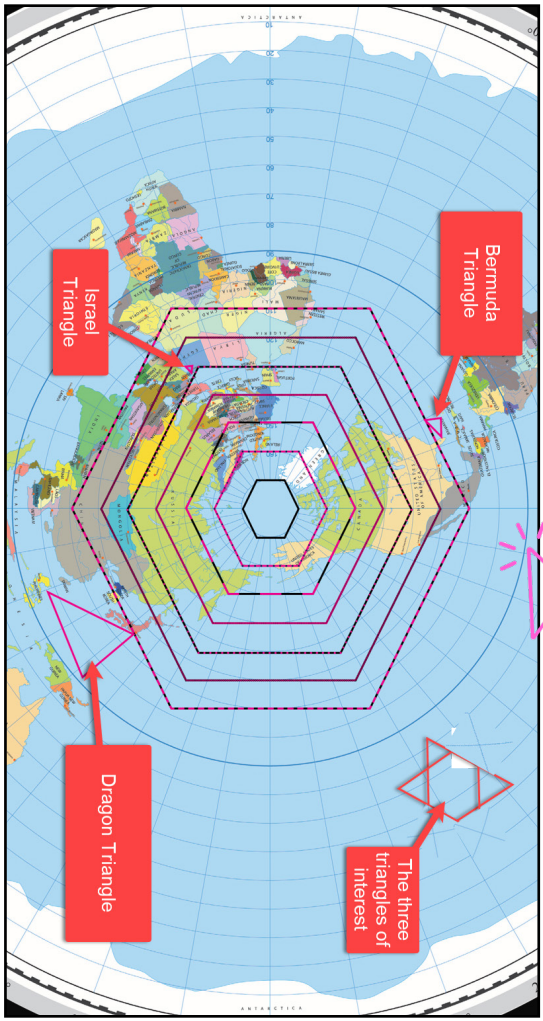
Volume one also discussed the winds, which are a type and a hidden code to Jesus, as the wind of life. This, in turn, now leads us to the Flat Earth facet and how these triangles have an uncanny resemblance to the six-sided star. Readers will need to adjust the page or book for the following map so you can analyse the hexagon and the triangles that match the sides. These three triangles of interest are highly likely three of many that we are yet

[1] Ancient Text of Enoch https://sacred-texts.com/bib/boe/boe079.htm

to know or are known about, and they are not as famous as the Dragon and Bermuda.

Six-Sided Star



Map 31—Flat Earth with Hexagons and three triangles correlation. Map by: Wiesaw (Adobe Stock, 2023)

Shocking Discovery

I have been taught to always seek a second opinion. Therefore, after making the decision to utilise ChatGPT platform, recognising that AI may arrive at conclusions similar or different to those previously discussed pertaining to Earth's discoveries. On the eve of Sunday, 6th October 2024, all HS 'I-Principle' applications were sent for AI analysis. To save you from boredom, one of AI recommendations was 'the nested polygon-based visualisation of the CPL and CPR data using this image (flat earth uploaded) as a framework.'

Here is what AI has to say (American English):

> Great! Starting with **HS12** and ending with **HS228**, we will use **regular hexagons** for each step in the HS series. Here's how we'll lay out the nested polygon structure:
>
> **1. HS Value Range (HS12 to HS228):**
>
> You want to begin with HS12, which corresponds to the **third value** in the HS system, and proceed up to HS228, also ending with the **third cycle** of that pattern.
>
> Each hexagon will represent a **CPL-CPR pair**.
>
> **2. Hexagon Construction:**
>
> **Hexagon 1 (HS12)** will be the innermost hexagon, forming a base structure around the map's center.
>
> Each additional hexagon (HS24, HS36, etc.) will be larger and **nest** around the previous hexagon, expanding outward from the center of the map.
>
> Each **hexagon vertex** will correspond to the **CPL-CPR pair** of that specific HS value.
>
> **3. Polar Coordinate Mapping:**

To maintain symmetry, we'll place the **vertices** of each hexagon on **specific angular intervals** around the map's center.

Angles will be chosen such that each CPL and CPR value forms a balanced pair on opposite sides of the map.

4. Visual Relationships:

The expansion of each successive hexagon (HS12, HS24, HS36, etc.) will mirror the relationship between CPL and CPR values, showing how the system grows geometrically.

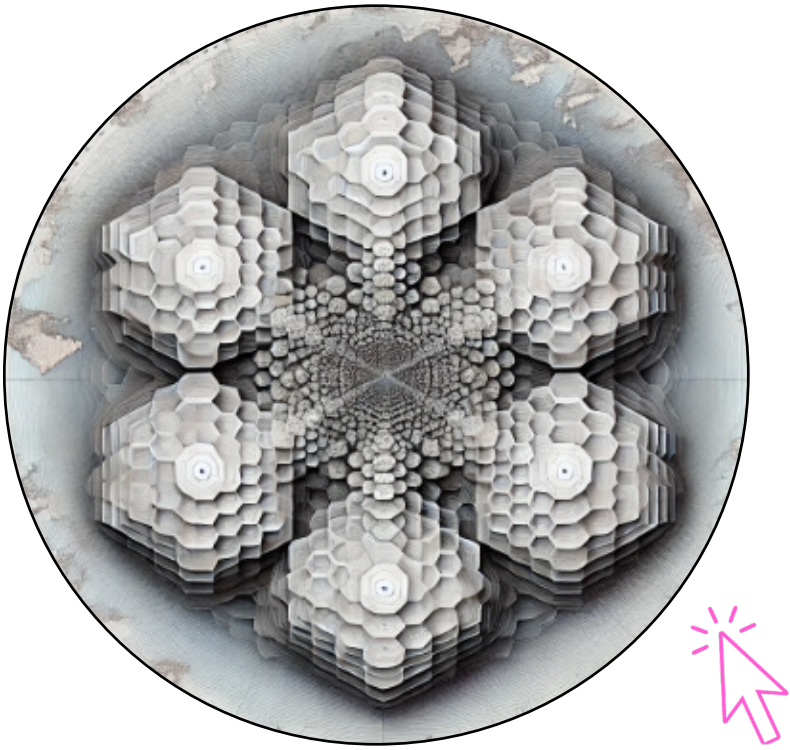
Each **hexagon's side length** will increase proportionally based on the HS value it represents. Larger HS values will correspond to larger hexagons, representing the widening CPL-CPR gap.

Next Steps for Visualization:

I'll create a nested hexagonal model where each hexagon represents the CPL-CPR pair for each HS value.

The image you provided will serve as the backdrop, with the center of the map corresponding to the origin of the polygons."

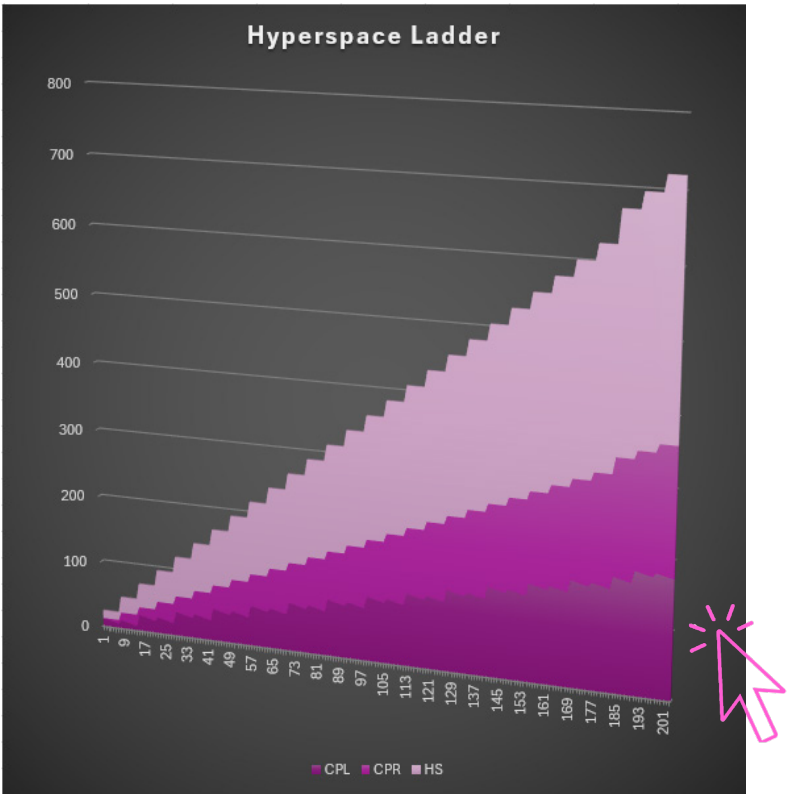
The following page will display the end result for AI's prompted task.



AI Visual 1—nested polygon-based visualisation of the CPL and CPR data multidimensional view (OpenAI, 2024)

I made sure to provide AI with some coordinates from HS12 to HS228 to avoid overwhelming the ancient map. A full list of these HS and their accompanying coordinates is accessible in the appendices. Since AI is prone to making mistakes, I took it upon myself to graph all HS hours from HS12 to HS360.

After graphing these hours, the chart revealed the following:



The appendices will have a complete list of all the hours in their 3-6-9 form. These come at an interval of seven, producing a step-like ladder moving upwards to the unseen.

Remember, the table provided in the appendices shows that CPs12 and CPs6 are direct lines (DLs) and are revealed when plotted on a circular framework. Also, we can now reach a verdict that even the nested polygon-based CPs data appear to reflect Emoto and Wilson's water research. More on this hexagonal shape in chapter five.

Cherubim Principle Summary

The concept of the Cherubim principle ties into the broader understanding of the text and its implications when we look at this principle from the eyes of vigilance.[1] The Cherubim principle is indicative of vigilance, meaning that just as the cherubim can look at all angles of interpretations of seeing from that of the bull—ground level relating to details, to the lion view—the view of authority, confidence and surety to the eagle view—the view of satellite (heaven) perception, combined with prophecy and man view—being able to adapt to all viewpoints by enhancing, improving and creating innovative technology and inventions that allows us humans to reach the full potential God wants us to reach. This principle, as revealed in the bible passage of Numbers two, is a blueprint given to us by God himself.

Vigilance considers peacefully all personalities. Those who are believers in Jesus Christ must understand that Jesus as the head and we the body means Jesus who is the original man and created us in his image, means he created everyone in his image where he put a facet of himself in us that is part of his divine strategy. Part of his strategy is for us to communicate with each other intrinsically, just like how the eyes on the wings, body and heads of the Cherubim look in all directions we are supposed to observe, look and, as Jesus hinted to us to 'watch' (measure time and watch spiritually from all facets of perspectives).

We must realise that not all are lions, eagles, bulls, or inventors (man). All can create, but only a few God ordained to be inventors for our benefit. Not all are on the top wings; some are on the feet. The cherubim has calf

[1] Author paraphrasing Timothy Alberino: https://thealberino-analysis.com/catalog

feet, which symbolise humility; its six wings signify humanity's various personalities, habits, and ways of doing things.

The top wings close to communicate with the torso which points to the breastplate of righteousness—more of the spiritual armour in a future volume. We are all meant to hear and see what the Spirit says to other vessels. We who believe in Christ can now realise that Jesus is the head, which means his mind and thoughts branch out from four primary heads that are part of one body, precisely like the Cherubim. We must realise that the many eyes are no other than the blueprint from Numbers two, just as the Hebrews camped according to God's specifications so are we to recognise the many eyes of our fellow brothers and sisters in Christ, their experiences of past and present help us prepare for the future and to thwart the plans of the enemy—the fallen Cherub. Volume one elaborates further on the fallen Cherub.

Remember Jesus is teaching us to see in love and peace and understand how he sees us. We are one in him, just as he and the Father are one.[1] Jesus and God the Father speak in our language to help us see ourselves the way they see us. This is crucial to our maturity, which is why the introduction of this book began with the bible passage Ephesians 4:7-14 NKJV.

This verse number(s) (4-7-1-4) directs us back to the significance of the three ancient number patterns 1-4-7, 2-5-8, and 3-6-9. These patterns, which we learned from volume one, were hidden in God's calendar, which he gave to Moses to give to the Hebrews hidden in Exodus 12:2. These ancient patterns are broadly known and are part and related to the vast tapestry of both the physical and the spiritual world, from ancient star forts, music

[1] "30 I and my Father are one." (John 10:30 KJV)

hertz, earth's atmospheres, to the hyperspace concept discussed in earlier chapters and the relationship to these patterns are further analysed in the remainder chapters of this book. And remember, just as the Levites, the high priests, were camped in the middle of the Hebrews, so is Jesus Christ, our high priest who resides in the middle of us all believers. With him, peace is sure; with him, the bull looks at the lion with calmness; with him, the lion will not look at the bull as prey but as a fellow believer in Christ.

Remember, Levite is a pun for 'leave-I'; we leave or, in other words, die to the selfish 'I' and let the 'I-AM' reside in our hearts.[1]

Conclusion

In conclusion, Chapter 4 delves deep into the mysterious connections between Egypt, the coordinates 30.00N 30.00E, and the 6th of October City. The chapter explores the alignment of the flat earth with the globe, the clock cherubim blueprint, the significance of the 150° right shift, and the correlations between the Nubian Pyramids, Egypt, and Sudan.

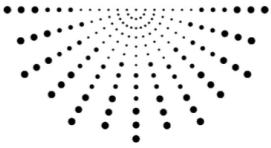
It also raises thought-provoking questions about the symbolic meaning of the 'H' and its potential connection to ancient scriptures. With its intricate analysis and compelling hypotheses, Chapter 4 hopes to leave readers intrigued and eager to explore the mysterious connections further.

The chapter serves as a crucial piece in unravelling the intricate web of historical and geographical relationships, paving the way for a deeper understanding of ancient civilisations and their impact on our modern world.

---

[1] "I declare by my rejoicing in you which I have in Christ Jesus our Lord: I die daily." (1 Corinthians 15:31 KJ21)

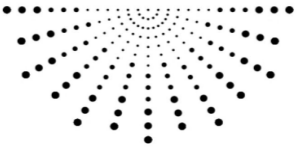
CHAPTER V



MENORAH

EARTH’S BLUEPRINT

HEXAGON CLUE



This most elegant system of the sun, planets, and comets could not have arisen without the design and dominion of an intelligent and powerful being. — Issac Newton

GOD'S VIEW

Since embarking on this quest to find God in everything, I have concluded that we who are on earth are on the earth's foundation. The earth is hexagonal shaped, as shown to us through the Menorah. This is why, as we saw in an earlier chapter, the experiments done by scientists, either through Emoto, Reid's and Gadman's cymascope, or Solfeggio's hz discoveries, all produce the hexagon in simple form, geometric shapes, star forts or water beauty. All confirmed by God in, which he hid in Exodus 12:2 calendric swaps.

To solidify this theory and conclusion, we will examine the first book of the ancient text of Enoch. Translated by Dr. A. Nyland, who teaches ancient grammar and the training of Bronze Age horses at the University of New England in Australia.

She writes,

> *I created big hard rock out of the waves, and from the rock, I piled up the dry. I called the dry 'earth,' and I called the middle of the earth 'abyss,' that is to say, the bottomless. I collected the sea in one place and bound it together with a yoke (Nyland, 2010, p. 223)."*

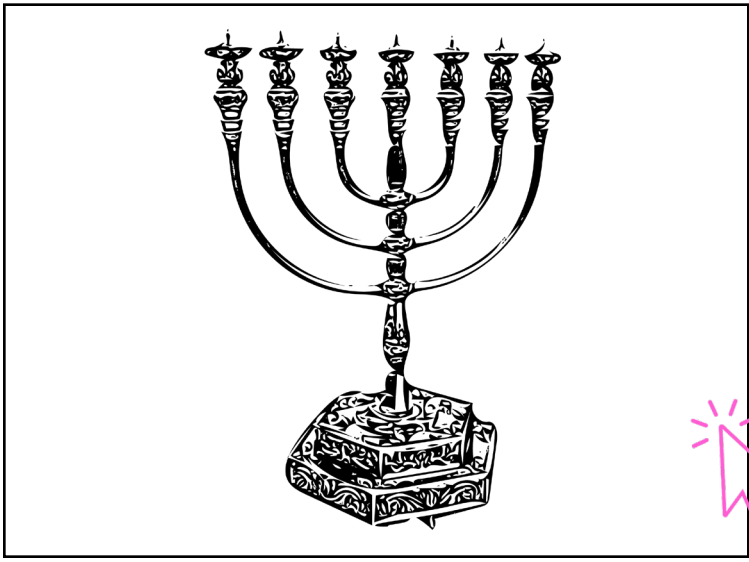


Figure 52—Black and white Menorah replica in Old Jerusalem

Earlier in the text, we discover that the seven circles created are not Earth but the stars/planets up high. Earth appears to be a rock, and a circular border encloses the portion where humans dwell. Nevertheless, the outskirts of the remainder of the Earth are hexagonal, while the triangles are but the doorways of the sons of God.

As we examine the Menorah with a different mindset, we can see that its foundations are hexagonal. We learned from earlier chapters that from an aerial view (eagle eye), we see seven circles in the middle of the hexagon.

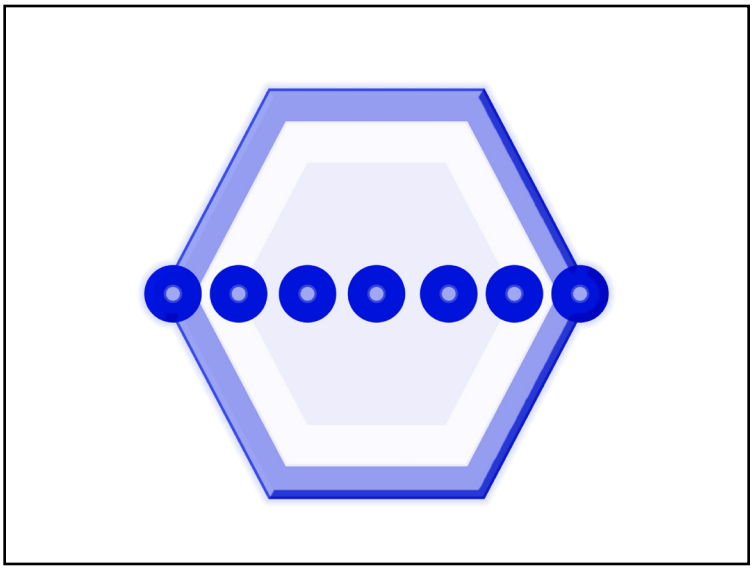

Figure 53—Digitally drawn Menorah eagle eye

We will now analyse the replica of the Menorah in Old Jerusalem, Israel, which God instructed Moses to build. Then, we will use my ornamental menorah to show how God's blueprint has been staring us in the face for thousands of years. [1]

[1] If you are reading the Kindle version tap/click Figure 52 to view the Golden Menorah, a replica to what God told Moses to make.

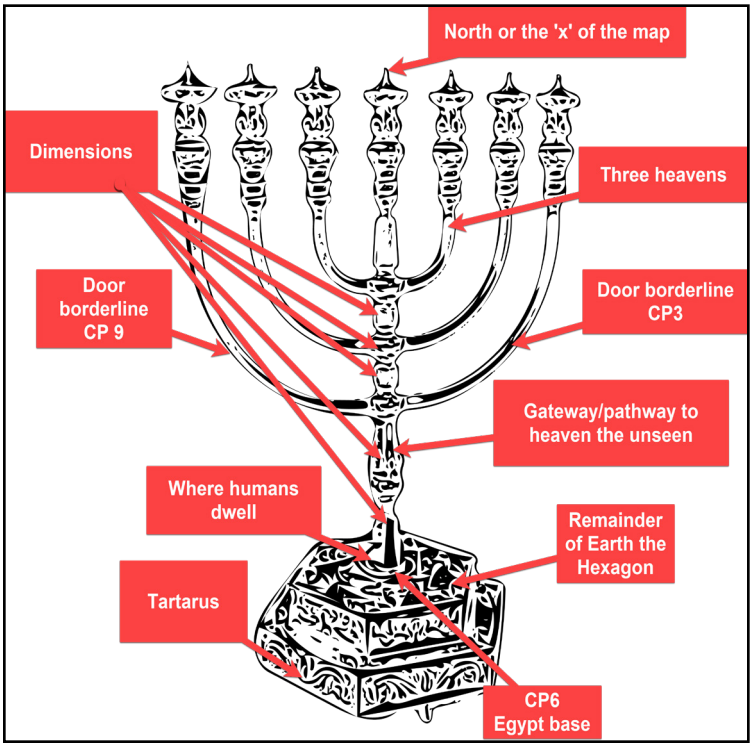

Figure 54—Menorah's blueprint of creation

As we observe the Menorah above with the labels, we can only imagine how massive these places are in real life. The second hexagon is labelled Tartarus. Britannica (2024) states that Tartarus is Earth's second, lowest, and deepest region where the gods locked their enemies. At the same time, the first hexagon is the remainder of the earth. The middle of the Menorah may be the location where we dwell right now, as indicated by the label. The other portions are labelled accordingly. It could be noted that the three arches are the three heavens, and everything else is the dimensions and areas of heaven and space that we humans can only dream of visiting.

As we visualised in earlier chapters, CP9 and CP3 stand out as the borderlines and doors leading into the heavenly areas, which are exclusively reserved for the redeemed.

We will now draw further attention to the middle of the Hexagon base where the 'gateway/pathway to heaven and the unseen' connect to earth and may be the very 'Jacob's ladder' we read about in the Bible. As we look at my personal ornamental Menorah below from a bull's view, we see the top, the in-between and the hexagonal base. From Eagle's view, we see the seven circles in the middle of the two-layered hexagons.

Figure 55—Menorah Bull's view

Figure 56—Menorah Eagle's view

We will now focus on the hexagons, with the seven circles layer unscrewed from its connection to the hexagon layers, as seen in the black-and-white image below. As we analyse the black-and-white hexagon portion of the Menorah, we can see the circle in the middle, which I suspect is where we humans dwell.

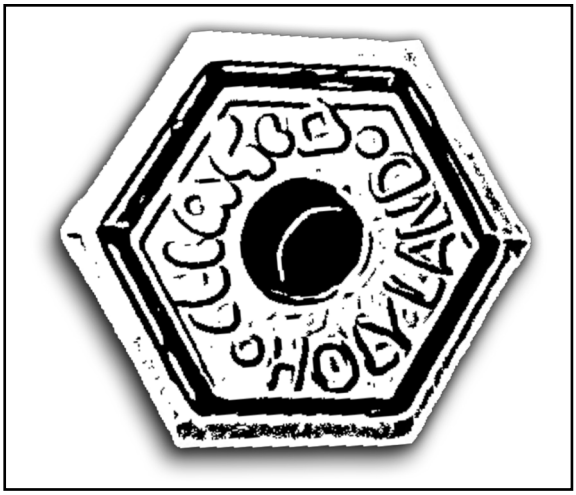

Figure 57—Ornamental Menorah Unscrewed

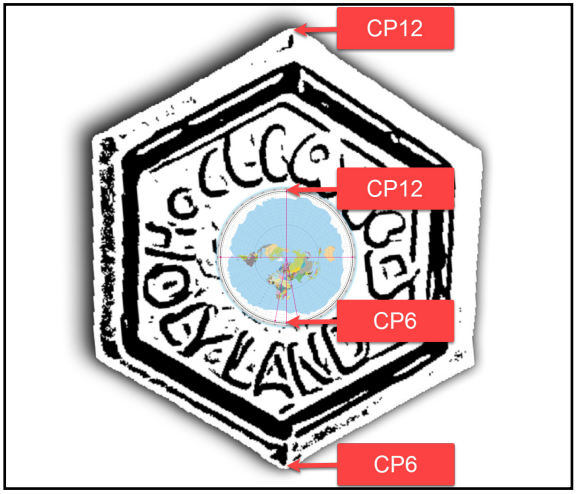

Figure 58—Earth and aligned CPs

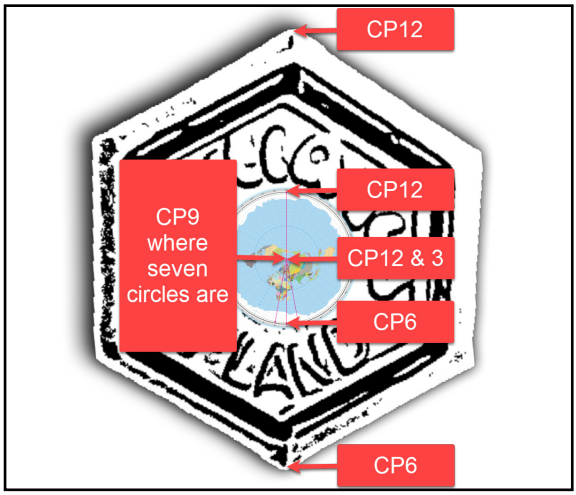

Figure 59—Hexagon and Earth aligned with CPs 3-6-9-12

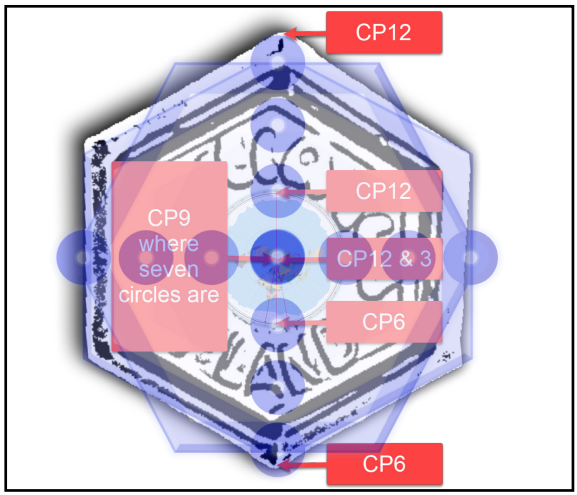

Figure 60—Hexagon merged with seven circles: eagle eye and CPs

Moreover, we must remember that the hexagon is six-sided; therefore, the six-sided star is expected.

Egypt's being the base landing at CP6 makes sense when considering all these pieces together, including how even the Hebraic calendars have this shape when graphed. That man's number so happens to be six. In volume one, the number six was discovered to belong to the original man, Jesus, as we remembered that we are made in God's image. Therefore, confirming his originality as the image we imagers are made from.

Menorah Clue Summary

From Volume One and earlier chapters of this book, we realise how the construction of the Hebraic first and second temple objects was given from the mouth of God to Moses, who later instructed the Levites. Surprisingly, we also discovered that the Menorah's four views have one thing in common: the hexagonal shape as its foundation. We also learned that star forts, Israel's flag emblem, Solomon's seal, music made visible, and water experiments also revealed the hexagon in its many beautiful forms.

We also saw how the hyperspace maps form a portion of the hexagon, as Moses Tabernacle did, hinting at fractals (replicating patterns). Moreover, we theorised that perhaps all along Earth in its entire form is, but the hexagon shape in its mega-mega-megalithic form. Furthermore, perhaps all these objects and sounds of nature have revealed the truth of Earth to us. For example, in Emoto's work, when water was shown a photograph of Earth, the water transformed into a hexagonal shape of beauty but deformed as if moved by the violence of the future's past.

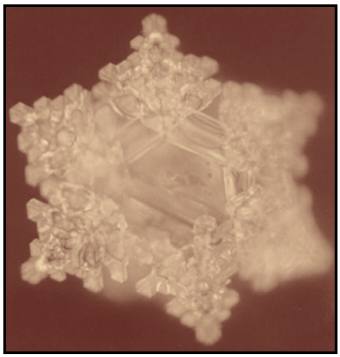

Figure 61—Earth according to water screenshot (Emoto, M 2004 p.16)

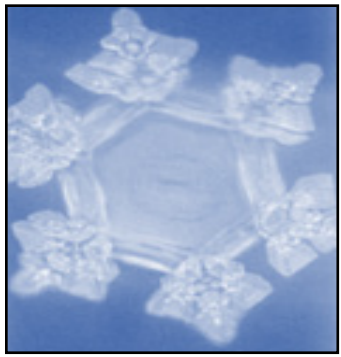

Figure 62—Cosmos in English screenshot (Emoto, M 2004 p.15)

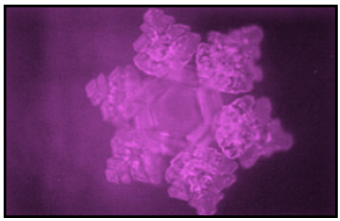

Figure 63—Cosmos in German screenshot (Emoto, M 2004 p.15)

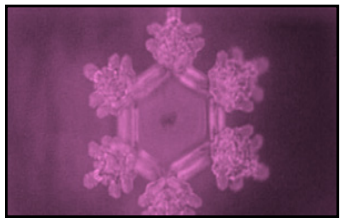

Figure 64—Cosmos in Japanese screenshot (Emoto, M 2004 p.15)

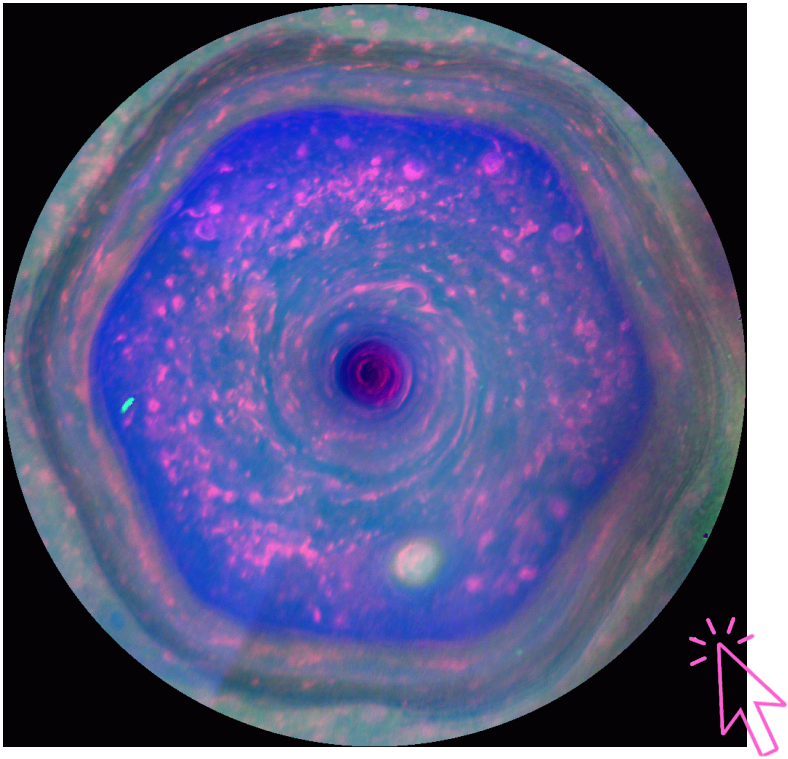
Observations show something in the middle of the water hexagon crystals like the ornamental Menorah mentioned earlier, which we will get back to after comparing Saturn's Hexagon Storm.

Saturn's Hexagon Storm

Saturn has a hexagon storm in its North Pole region and is only visible when sunlight touches it. Sounds familiar, doesn't it?[1] This natual phenomena is intriguing identical to the Menorah, eagle view.



Source—NASA, obtained from: Physics of the Universe

The hexagonal storm was discovered by the Cassini spacecraft sent to Saturn by NASA in collaboration with the European Space Agency (ESA) and the Italian Space Agency (ASI). The mission was managed by NASA's Jet Propulsion Laboratory (JPL), which designed, developed, and

[1] Physics of the Universe: The Enigmatic Hexagonal Storm on Saturn's North Pole: https://www.physicsoftheuniverse.com/blog/saturns-hexagonal-storm

assembled the spacecraft. Cassini's mission was to study Saturn and its moons, and it orbited Saturn for 13 years, providing detailed data about the planet, its rings, and its moons before it ended its mission in 2017 (Scholar AI, personal communication, 21/10/2024). Saturn's hexagonal storm is super big, with each side longer than Earth's. The storm is about 180 miles deep, and its eye is 50 times larger than a typical storm on Earth. Over time, images captured by the Cassini spacecraft have shown the storm changing colour from blue to gold.

Winds made up of ammonia and hydrogen swirl around the storm at speeds exceeding 300 miles per hour. Within the hexagon, several smaller storms (or vortices) rotate in different directions, some clockwise and others counterclockwise. The largest of these vortices, which appears white, is about twice the size of an average Earth hurricane. The hexagon is a jet stream formed by atmospheric gases, described by scientists as merely "a current of air and weather patterns." A unique feature of the storm is that its vortex is positioned at a higher altitude than Saturn's clouds, giving the hexagon a towering appearance. Additionally, Saturn's aurora, created by its magnetic field, sits above the hexagon, making the storm appear as a fiery hexagonal glow surrounding it (Phull, 2023).

We will refocus on the Menorah we were analysing earlier.

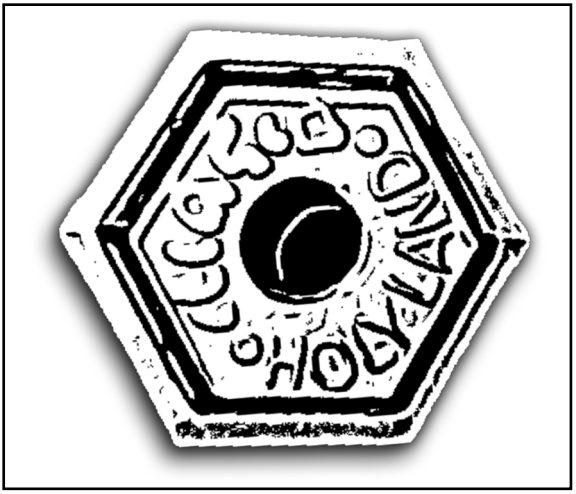


Figure 57 Copy—Ornamental Menorah Unscrewed

The previous three beautiful photos show water responding to the word "Cosmos" in three languages. Emoto (2004, p. 15) states that 'the principles of the cosmos transcend different languages.' Maybe water is crucial for remembering the blueprint of creation. It is an element that witnessed the word hovering before calling forth all created things, and water would have witnessed time before the Spirit of God hovered over it.

This brings us to the next chapter, where time reveals water in its numerical form.

Conclusion

In closing, the recurring presence of the hexagon in both natural and symbolic forms, from graphene's atomic structure to Earth's ancient foundations, reveals a profound universal pattern. Chapter 5 explores how this six-sided shape is deeply embedded in both our spiritual and physical worlds. From the Menorah's hexagonal base, which symbolises the foundation of Earth, to the

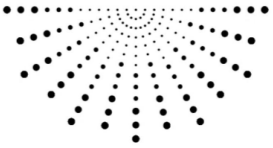
remarkable hexagonal storm on Saturn, these structures remind us of the intricate connection between geometry, nature, and divine creation.

The chapter ties together scientific discoveries and ancient texts, showing how the hexagon's appearance in everything from cymatics experiments to the geometry of the cosmos is more than mere coincidence. It offers a glimpse into the idea that creation might be encoded with this symbolic geometry, pointing to a more profound blueprint for understanding the universe. Whether through the spiritual significance of water or the celestial storms on Saturn, this exploration of the hexagon challenges us to consider the profound connections between time, space, and the sacred geometry that underpins them all.

This conclusion paves the way for continued investigation into these patterns, hoping to leave readers with a sense of wonder at how ancient knowledge and modern science converge to reveal the mysteries of creation—or even **"the fellowship of the mysteries."**

This chapter sets the stage for a deeper understanding of the intricate relationship between water, ancient wisdom, and spiritual truths, paving the way for further exploration in the remaining two chapters.

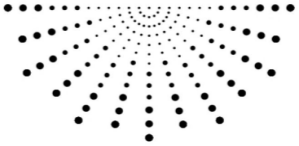
CHAPTER VI



WATER

THE ANCIENT MIRROR

REFLECTING



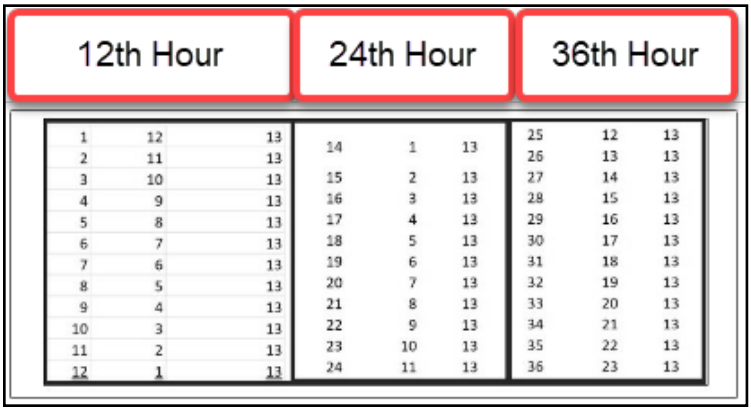
Truth is ever to be found in simplicity and not in the multiplicity and confusion of things. — Issac Newton

ANCIENT MESSAGES

Is it possible that it is that simple? When Jesus Christ referred to himself as the door and the living water, was he hinting at what lies within water? All we need to do is use the right tool, as Emoto did, to understand that water responds to our thoughts, words, and actions, reflecting our nature, the earth's nature, and the cosmos. In the first few chapters of volume one, various diagrams illustrating the multidimensional blueprint of time were introduced. One of these diagrams revealed water in number form. I did not initially realise its significance when I first made this discovery. Just as flowers need to bloom before bearing fruit, understanding what will be shared in this chapter took months to articulate.

Thirteens

We will first look at the table used in volume one, then analyse the clock in its water-dimensional facet, compare these to ancient texts, Emoto's work, and the Hebraic calendrical numeric patterns, and ponder together what the Spirit of God is trying to convey.



12th Hour			24th Hour			36th Hour		
1	12	13	14	1	13	25	12	13
2	11	13				26	13	13
3	10	13	15	2	13	27	14	13
4	9	13	16	3	13	28	15	13
5	8	13	17	4	13	29	16	13
6	7	13	18	5	13	30	17	13
7	6	13	19	6	13	31	18	13
8	5	13	20	7	13	32	19	13
9	4	13	21	8	13	33	20	13
10	3	13	22	9	13	34	21	13
11	2	13	23	10	13	35	22	13
12	1	13	24	11	13	36	23	13

Table 9—Unearthing the hidden thirteens, volume one subtraction and addition (Towan, 2021, p. 61 Kindle version)

In volume one, I mention how,

> *the calculations are derived from simple Arithmetic operations of addition and subtraction. For instance, the first thirteen is placed between clock points twelve and one. The second thirteen is placed between clock points fourteen and one. The process repeats until reaching points twelve, twenty-four and thirty-six (Towan, 2021, p. 61).”*[1]

[1] **Author Note:** Despite the numerous repetitions of the thirteens, I propose that this is but one location when plotted onto Google Earth pointing us directly to the middle and intersection of the equator and prime meridian lines of earth. I also propose that these thirteens are but doors for where thirteen is there four is and we know four in ancient Hebrew means door in it’s literal context.

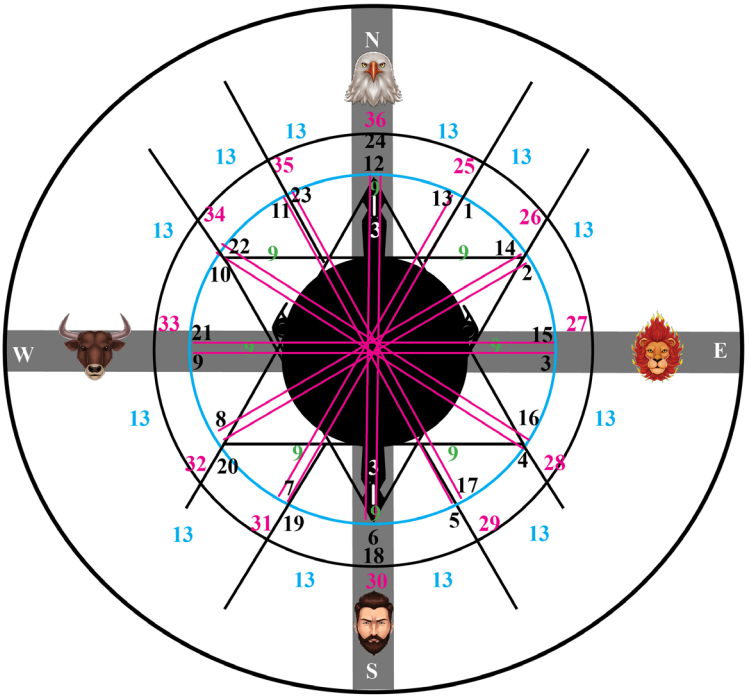


Figure 65—The thirteens along the wheel of time

The above figure needs to be used with the table provided earlier. The thirteens are placed accordingly, and as we learned from volume one, these numbers are also hidden in their reduced form in the Book of Numbers chapter seven as the first altar offerings for the twelve tribes of Israel start with Judah (East), Reuben (South), Ephraim (West), and Dan (North), moving anti clockwise as shown in the figure. The complete insight is discussed in volume one and will not be repeated here.

Additionally, volume one, chapter five, page 196, elaborates further on CP7. In this seventh hour, the numbers along this point lead us to Joshua 19, which leads us to the exact coordinates in Israel directly to Simeon and Judah's land heritage, proving the multidimensions of the clock map.

The clock map provided in the figure is further explained in volume one, should you desire to understand what you are looking at. However, in a nutshell, the double lines in pink (if you are reading the Kindle version) are the ancient number patterns discovered in Exodus 12:2. The numbers in pink are the additional numbers from the thirty-sixth hour, the four emblems are adapted from Numbers chapter two merged with the cardinal compass points N.E.W.S.

Now that we have a fair idea of what is presented in the time map, we will analyse the thirteen(s). These surround the entire circle, regardless of the extended numbers added to the clock. The thirteen(s) appear to come in layers like an onion, a form of borderlines that appear to separate each dimension within the three heavens.

After further research, it is clear that thirteen is indeed associated with water. In Hebrew, the thirteenth alphabet is *Mem*,[1] and when we condense the number to one digit, we get *four*, which in turn points us to a *door* since we know that one of the meanings for the number four in Hebrew is the door. Rabbi Raskin (2024, p.130) also generates the gematria value for *mem* as *forty* (there are seven forms of Gematria; the form he uses is unclear to me). Forty is seen as a metamorphosis, a word that means a striking alteration in appearance (Merriam-Webster, n.d.).

[1] Mem a word play for mem[ory], to remember the old.

This leads us to Jesus Christ, the door and living water that alters our appearance from flesh to being seated in the heavenly places. We can see the correlations of Jesus Christ from the tribe of Judah, the lion who was fourth born, and also as the number forty once again, showing that he is the God of the significant and insignificant, the alpha and the omega in Revelation 22:13. [1]

Observe how even the bible passage numbers correlate to him as the door (22 = 4 and 13 = 4).

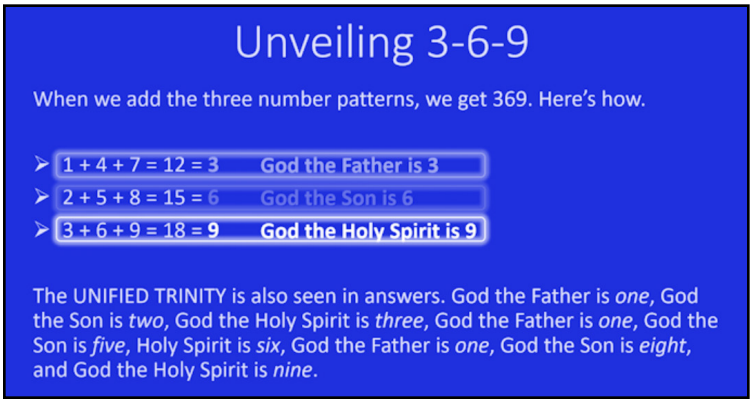
Rabbi Raskin (2024, p. 131) explained how the number forty can transform an individual from a state of impurity to purity. From a Christian perspective, this is illustrated in Jesus's forty-day fast in the wilderness. [2] Other examples we can remember are the forty days and nights of Noah's flood, and Moses having to go up Mount Sinai three times to receive the Ten Commandments from God. Each time he went up, he spent forty days on the mountain. Rabbi Raskin beautifully explains the time Moses spent on the mountain. Specifically, Raskin (2024, pp. 131-32) labels these three periods of Moses as *mikveh*—revealing of the soul, *tefillah*—prayer intercession of sins, and *teshuvah*—repentance leading to transformation.

Furthermore, forty and four are one. The mathmatical root for forty is 4. Recall how the ancient patterns of 1-4-7 are intercorrelated. Looking back, we see how the first pattern is hidden in the *Ten* Commandments, where the *fourth* commandment is to keep the *seventh* day Holy.

---

[1] 13 I am the Alpha and the Omega, the Beginning and the End, the First and the Last." (Revelation 22:13 NKJV)

[2] 2 And when He had fasted forty days and forty nights, afterward He was hungry. 3 Now when the tempter came to Him, he said, "If You are the Son of God, command that these stones become bread." 4 But He answered and said, "It is written, 'Man shall not live by bread alone, but by every word that proceeds from the mouth of God.' " (Matthew 4:2-4 NKJV)



Unveiling 3-6-9
When we add the three number patterns, we get 369. Here's how.
1 + 4 + 7 = 12 = 3 God the Father is 3
2 + 5 + 8 = 15 = 6 God the Son is 6
3 + 6 + 9 = 18 = 9 God the Holy Spirit is 9
The UNIFIED TRINITY is also seen in answers. God the Father is one, God the Son is two, God the Holy Spirit is three, God the Father is one, God the Son is five, Holy Spirit is six, God the Father is one, God the Son is eight, and God the Holy Spirit is nine.

Figure 66—Unveiled 369 pattern, screenshot from the real 369 video

To view six minute video about the real 369

Volume one discusses the revealed significance of 369. To understand how our God reveals Himself in numerical form, scan the QR code in the previous page.

Through this, we can learn about the interconnected numerical traits of our Triune God. As we reflect on the first Bible passage of Genesis 1:1,[1] we read that everything was underwater. Water was already present, and the Spirit of God was hovering over the waters.[2]

That means water has a *mem[ory]* and reflects what we cannot see. In earlier chapters, we learned how Emoto's work proved the behaviour of water and how humans affect everything around us. We will now look at snowflakes, which come out of one of the wind portals.[3]

[1] "In the beginning God created the heavens and the earth. 2 The earth was without form, and void; and darkness on the face of the deep. And the Spirit of God was hovering over the face of the waters." (Genesis 1:1-2 NKJV)

[2] Enoch 27:1 https://sacred-texts.com/bib/fbe/fbe134.htm

[3] Enoch 76: 1-12 https://sacred-texts.com/bib/boe/boe079.htm

Snowflakes

According to the National Oceanic and Atmospheric Administration (NOAA), How Do Snowflakes Form? Get the Science Behind Snow, December 19, 2016, article,

> *The ice crystals that make up snowflakes are symmetrical (or patterned) because they reflect the internal order of the crystal's water molecules as they arrange themselves in predetermined spaces (known as "crystallisation") to form a six-sided snowflake.*
>
> *Ultimately, it is the temperature at which a crystal forms — and to a lesser extent the humidity of the air — that determines the basic shape of the ice crystal. Thus, we see long needle-like crystals at 23 degrees F and very flat plate-like crystals at 5 degrees F.*
>
> *The intricate shape of a single arm of the snowflake is determined by the atmospheric conditions experienced by entire ice crystal as it falls. A crystal might begin to grow arms in one manner, and then minutes or even seconds later, slight changes in the surrounding temperature or humidity causes the crystal to grow in another way. Although the six-sided shape is always maintained, the ice crystal (and its six arms) may branch off in new directions. Because each arm experiences the same atmospheric conditions, the arms look identical."*

Initially, NOAA confirmed that ice crystals (frozen water) reflect and arrange themselves in predetermined spaces. According to the ancient text Enoch, angels are in charge of the twelve windows; they are keepers of the winds,

which is why they are mentioned in Revelation 7:1, where four angels hold the four winds.[1] Volume one discusses how the four winds represent the winds of life, while the other nine winds symbolise blight, drought, pestilence, and dismay. We will also explore the significance of the four winds and how they reflect the predetermined spaces of Jesus Christ.

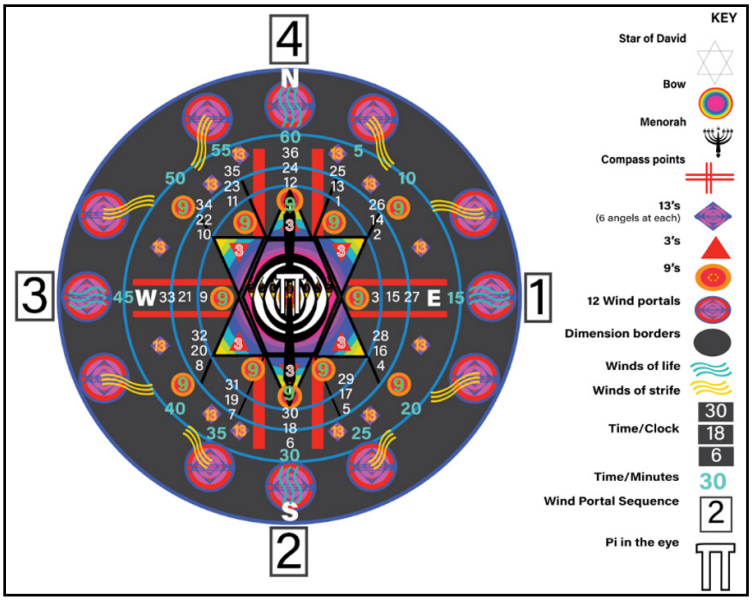

Figure 67—Wheel versions from volume one (Towan, 2021, p.16)

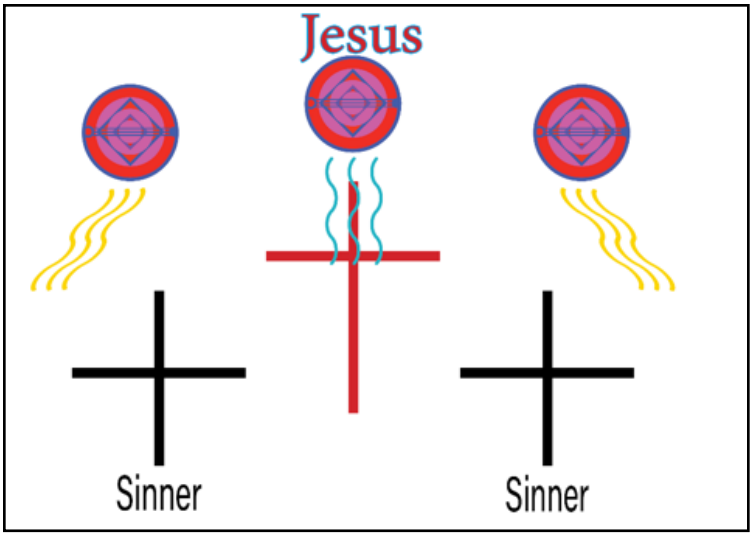
The QR code, in the following page, will take you to the magnified PDF view of the wheel version of the wind portals. Observe how the middle winds are the four winds of life.

[1] "After these things I saw four angels standing at the four corners of the earth, holding the four winds of the earth, that the wind should not blow on the earth, on the sea, or on any tree." (Revelation 7:1 NKJV)

Scan QR Code

To view magnified view
of wind portals

While the two outer wind portals represent dismay. A map of Jesus as the middle merger on the cross from Chapter Four: The Hexagons section. See the diagram below, which is a copy from the earlier chapter.



Observe how the wheel version of the clock with the wind portals' middle numbers point to the number thirteen (from East to West) and also has Israel's first coordinate hiding. I will let you decipher that code or any other in the space provided.

Ocean

From Emoto, we learnt how water reflects words, feelings, and thoughts, and snowflakes reflect their predetermined surroundings or space.

For this section, we will examine how some patterns of snowflakes are similar to and almost identical to the sea surrounding our coastal areas.

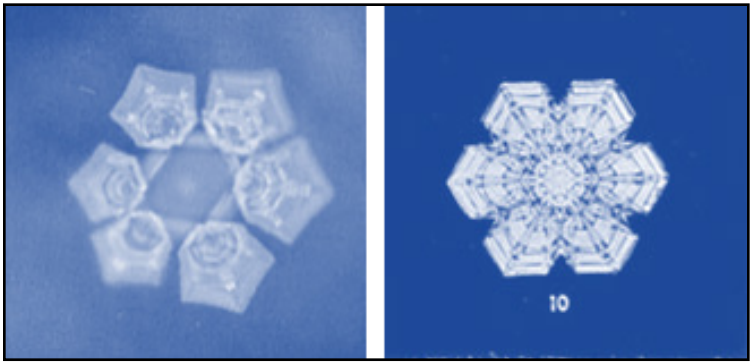


Image 1 and 2

Image one has the water reflecting the coral reef from Emoto's experiments (Emoto, n.d., p. 105), while image two is the tenth photograph of Snowflake by Wilson Bentley, "The Snowflake Man," 1902. NOAA Photo Library. A screenshot from the Library of Congress United States of America.[1] As we examine the two images, we see that the six arms for both water crystals appear finlike, like those of a fish. This could signify that the snowflake passes through the determined water of space, the waters that cover the top layer of the earth, as indicated by the thirteens discovered in the clock.

[1] Library of Congress, source: https://www.loc.gov/everyday-mysteries/browse-all-questions/item/is-it-true-that-no-two-snow-crystals-are-alike/

Summary

Perhaps water crystals and snowflakes reflect the actual shape of the earth, and the beautiful designs are probably maps reflecting the season, star alignments, and angels who are diverse and alien-looking and stand guard and watch over the earth.

Understanding the proper shape of the Earth may very well lead to profound discoveries and possibilities. Moreover, just as the Holy Spirit spirited Philip to Ashdod,[1] I theorise that when humanity discovers how to open up these physical earth portals, the Holy Spirit will be busy teleporting his own within the spiritual portals, for both coexist.

Uncannily, Philip, one of Jesus's twelve disciples, has six letters in his name. Ashdod is known to be the sixth ancient city, one of two cities Joshua could not overtake.[2] The word Ashdod occurs 21 times in 18 verses in the KJV.[3] Another fun pattern is that Wilson, the Snowflake man, was born on February 9th and died on December 23rd, 1931, at 66. We see the correlation between Philip and Wilson's names, matching both physically and spiritually. The Holy Spirit teleported Philip, while Wilson, who has six letters in his name, uncannily aligns with his six-sided snowflake discoveries.

His death age reflects his name and discovery.[4] The same goes with Masaru Emoto, who died at 71 on the

[1] Acts 8:39

[2] Joshua 11:22

[3] Ashdod occurrences, https://www.blueletterbible.org/search/search.cfm?Criteria=Ashdod&t=KJV#s=s_primary_0_1

[4] Wilson Bentley, https://en.wikipedia.org/wiki/Wilson_Bentley

17th of October.[1] These are a few ways of seeing God's ancient patterns in people's lives (further explored in the case study after the conclusion). In the following chapter, we will examine how the 'I-Principle' can also lead us to prophetic occurrences from the view of heaven and give a glimpse of how every nation has a role in God's schedule, where the coexistence of the hyperspaces relates to both physically and spiritually, in this case, we will focus on China, HS216—the dragon in the heavens.

Conclusion

In conclusion, Chapter 6 delves into the fascinating connections between natural phenomena, spiritual symbolism, and historical figures. The intricate relationships between water crystals and snowflakes and their reflections hint at deeper patterns within our world.

Moreover, the intriguing parallels between individuals like Philip, Wilson Bentley, and Masaru Emoto, along with their numerical and symbolic connections, invite us to contemplate the ancient patterns woven into our lives. The chapter also alludes to the potential significance of understanding Earth's true shape and the existence of physical and spiritual portals. These thought-provoking ideas pave the way for further exploration into the intertwining of physical and spiritual realms and the potential prophetic implications for humanity and nations around the world.

[1] Masaru Emoto, https://en.wikipedia.org/wiki/Masaru_Emoto

Case Study: The Bermuda Triangle Anomaly Bruce Gernon's Experience and Historical Parallels

This analysis examines Bruce Gernon's 1970 documented encounter with the Bermuda Triangle and its unique characteristics. It draws parallels with Charles Lindbergh's 1928 flight to highlight similarities in atmospheric phenomena and enhance the theory of hyperspace time jumping. It emphasizes recurring patterns of cosmic alignment, numerology, and mysterious atmospheric conditions that may influence such experiences.

Bruce Gernon

On December 4, 1970, Bruce Gernon and Chuck Layfayette took off in a Beechcraft Bonanza A36 around 3:00 PM, climbed to 1,000 feet, and encountered a tunnel-shaped, almond-like "electronic fog" at 1,500 feet that distorted their perception of time and distance. This ultimately resulted in a total airborne time of 27 minutes before they turned 90 degrees and reached Miami under 34 minutes.[1]

The Numerological Analysis of Gernon's Flight are:

Name and Date Analysis:

→ Bruce = 4, Gernon = 6 (aligns with CP4 and CP6)

→ December 4 (CP10 Essene calendar, CP12 Lunar calendar), Year 1970 = Root 8 (nests along CP2)

[1] Gernon, B., & MacGregor, R. (pp. 40-46 2005). The Fog: A Never Before Published Theory of the Bermuda Triangle Phenomenon. https://archive.org/details/fogneverbeforepu0000macg/page/n45/mode/2up

Flight Details:

→ Altitude, speed, and heading show consistent references to numerological roots (e.g., 315 degrees = root 9, symbolic of cosmic and clock cycles)

The celestial alignments during the Bermuda Triangle incident featured prominent constellations like Orion and Sirius, along with Gemini, which represented duality and mirrored experiences, perhaps a hint of the F.I.L Principle; this was further influenced by Jupiter's transformative position, which may have enhanced cosmic energy, and Saturn's placement in Taurus, which may have emphasized stability and cosmic boundaries.

Below is a detailed table incorporating Bruce Gernon's flight details and relevant environmental factors during the Bermuda Triangle incident:

Detail	Information
Name	Bruce Gernon
Date of Incident	December 4, 1970
Time of Incident	Approximately 3:00 PM local time
Altitude	Approximately 11,500 feet above sea level
Weather Patterns	Partly cloudy skies; formation of unusual tunnel-shaped cloud described as "electronic fog"
Date of Birth	February 9, 1938
Type of Plane	Beechcraft Bonanza A36
Jet Streams	Potential influence from subtropical jet streams in the region, which can affect weather and atmospheric pressure

Detail	Information
Ocean Currents Below	The Gulf Stream a powerful, warm Atlantic Ocean current that flows from the Gulf of Mexico along the U.S. coast, through the Bermuda region
Possible Magnetic Anomalies	Area known for magnetic disturbances and possible gravitational field disruptions, contributing to navigation issues
Visibility	Visibility fluctuated due to the dense cloud structure and "tunnel" formation described by Gernon
Temperature and Humidity	Likely warm and humid, typical of subtropical conditions in the Bermuda region during early December
Solstice	Two weeks before Winter Solstice

The following table sums up the celestial and planetary influences surrounding Bruce Gernon's flight in 1970, highlighting their possible impact on the incident. Other variables that may have contributed to the successful 'time jump' could have been body weight and mass for all passengers.

Aspect	Information	Potential Cosmic Influence
Key Constellations	Orion	Associated with cosmic power and alignment; potential influence on pathways. Rising East, aligns with CP3-4, PM sky.
	Sirius	Following after brightest star Orion. Aligns CP3-4 East-Southeast
	Gemini	Symbolises duality and dimensional shifts or doors. Found higher toward the Northeast, around CP1 to CP2.
Prominent Stars	Aldebaran (Taurus)	Appeared slightly Northeast (around CP1), leading Orion in the evening sky.
Planetary Positions	Jupiter in a transformative sign	Likely visible to the West (CP9), nearing the end of its cycle through Scorpio
	Saturn in Taurus	Found closer to Southwest (around CP7) in Taurus Hexagonal storm matches CP9 and CP3 alignment.
Celestial Timing	Leading up to winter solstice	Solstice swap indicates a widow of opening allowing potential energetic thresholds.

Charles Lindbergh

On February 13, 1928, Charles Lindbergh's flight, which took off at 1:35 AM and encountered a mysterious earth features that didn't match Florida maps and a cloud reminiscent of Gernon's "electronic fog," aligns with numerological insights indicating hidden cosmic connections.[1] Both pilots experienced unexplained fog that disrupted their journeys, suggesting possible dimensional anomalies or portals linked to ancient cycles and cosmic resonance. Charles Augustus Lindbergh, an American aviator, military officer, author, inventor, and environmental activist, is best known for completing the first solo nonstop flight across the Atlantic Ocean in his plane, The Spirit of St. Louis (a custom-built, single-engine monoplane), on May 20–21, 1927. Making him an international hero and a significant figure in early aviation history, alongside his involvement in various technological and military projects.[2]

Analysis of Charles Lindbergh's 1928 Flight: Key Celestial Patterns

Flight Time and Date:

→ **Takeoff time at 1:35 AM (root 9).** The number 9 aligns with cosmic completion, age finality and the ancient pattern 3-6-9, often associated with cycles and hidden knowledge and keys to the universe.[3]

→ **The date of incident, February 13 (root 4, sitting at CP1).** February on the Lunar Hebrew calendar is situated

[1] Gernon, B., & MacGregor, R. (pp. 22-24 2005). The Fog: A Never Before Published Theory of the Bermuda Triangle Phenomenon. https://archive.org/details/fogneverbeforepu0000macg/page/n45/mode/2up

[2] Charles Augustus Lindbergh, https://www.history.com/this-day-in-history/lindbergh-lands-in-paris

[3] '3-6-9' is a key to the universe - Nikola Tesla

at CP2, while on the Essene solar calendar, it's found at CP12.

→ **The year 1928 root is 2, sitting at CP8.** This aligns with the 2-5-8 ancient pattern, which root is 6, suggesting cosmic balance and a direct transitional energy. Lindberg discovered his plane was shifted 90 degrees, from the Florida Keys to the Bahamas post-cloud encounter.[1]

Detail	Information
Name	Charles Augustus Lindbergh
Date of Incident	February 13, 1928
Time of Incident	Took off at 1:35 AM
Altitude	Standard cruising altitude for transatlantic flights
Weather Patterns	Encountered unusual, dense cloud formations
Date of Birth	February 4, 1902
Type of Plane	Spirit of St. Louis, custom-built monoplane
Jet Streams	Possible subtropical jet stream influencing unexpected directional shift
Ocean Currents Below	North Atlantic currents, variable with seasonal temperature shifts
Possible Magnetic Anomalies	Likely influenced by atmospheric or magnetic anomalies in the region

[1] Gernon, B., & MacGregor, R. (pp. 22-24 2005). The Fog: A Never Before Published Theory of the Bermuda Triangle Phenomenon. https://archive.org/details/fogneverbeforepu0000macg/page/n45/mode/2up

Detail	Information
Visibility	Reduced visibility due to unusual fog/cloud formations
Temperature and Humidity	Cold, moderate humidity typical of February Atlantic crossings
Celestial Alignments	Orion, Sirius, Gemini, and Aldebaran visible; planets in Scorpio and Taurus

In February, seasonal jet streams, particularly subtropical ones, are often active over the Caribbean and Atlantic regions.[1] These fast-moving winds could have contributed to his altered course. This angle shift also aligns with Gernon's experience, where sudden, unplanned directional changes appeared after encountering the mysterious fog—possibly indicating that unusual atmospheric forces or wind currents are involved in such anomalies.

The following page contains a table summarising the key star and planetary alignments that potentially influenced Charles Lindbergh's 1928 flight, in accordance with numerological and cosmic principles.

[1] The Jet Stream, last updated Sep 20, 2023, https://www.noaa.gov/jetstream/global/jet-stream

Aspect	Information	Potential Cosmic Influence
Key Constellations	Orion	Associated with cosmic power and alignment; potential influence on pathways. Rising East, aligns with CP3-4, PM sky.
	Sirius	Following after brightest star Orion. Aligns CP3-4 East-Southeast
	Gemini	Symbolises duality and dimensional shifts or doors. Found higher toward the Northeast, around CP1 to CP2.
Prominent Stars	Aldebaran (Taurus)	Appeared slightly Northeast (around CP1), leading Orion in the evening sky.
Planetary Positions	Jupiter in a transformative sign	Likely visible to the West (CP9), nearing the end of its cycle through Scorpio
	Saturn in Taurus	Found closer to Southwest (around CP7) in Taurus Hexagonal storm matches CP9 and CP3 alignment.
Celestial Timing	Leading up to winter solstice	Solstice swap indicates a widow of opening allowing potential energetic thresholds.

Charles Lindbergh's Connection with Bruce Gernon's 1970 Incident (42 Years Later):

→ **42-year gap:** The root of 42 is 6, linking back to the 2-5-8 and 3-6-9 patterns.

→ **Date of Incident:** December 4 (CP10 on the Essene calendar and CP12 on the Lunar calendar), aligning with 1 and 4, part of the 1-4-7 ancient pattern.

→ **Year 1970:** Root 8, placing it at CP2 on the Essene calendar and CP12 on the Lunar calendar. This subtly reflects the 2-5-8 hidden pattern.

Below Contains a Detailed Examination of Bruce Gernon's 1970 Incident:

Passengers and Plane Details:

→ *Three passengers:* Symbolically significant, as 3 often denotes completeness or harmony in the secular world. However, is significant within the God's ancient patterns discovered in Exodus 12:2. The only number associated with 9 for all three I.A.M Principles.[1]

→ *Plane Type:* A new Bonanza A36 (root 9), echoing cosmic cycles and pointing to the I A.M principles.

→ *Names:* Chuck Layfayette's name summed up to 15, which reduces to 6, adding another link to the 2-5-8 and 3-6-9 patterns.

Flight and Altitude Patterns:

→ *Initial Climb:* Reaching 1,000 feet (equivalent to 12,000 inches or 304.8 meters), aligning with the I-Principle where 8 and 4 are significant and result in 12, which roots to 3.

[1] The 'A-Principle' will be discussed in another volume.

→ *Cloud Encounter:* The cloud appeared at 1,500 feet, and Gernon entered it at 3:27 PM. The hour significantly lands on CP 3 while the minutes land at CP 9, the root for 27 is 9. The root of 315 degrees (their heading) is 9, emphasising a cycle, completion, or numerical alignment for 'door' aspect. [1]

→ *Cruising Speed:* 180 miles per hour, with the root 9 once again reinforcing divine and celestial cycle themes.

Time Details and the Final Flight Path:

→ *27 minutes* (CP3) airborne before turning 90 degrees (9-root) to find the exit opening, which measured 30 feet. These numbers emphasise 3, 9, completion, and a brief opening towards winter solistice. [2]

→ *Flight duration* after turning to Miami was 34 minutes, another echo of 3 and 4 (part of the 1-4-7 pattern), subtly indicating cosmic alignment.

Merging Celestial Patterns and Principles

→ *I-Principle:* Reflected in the alignment of clock points and their resulting hyperspace numbers. The numbers 8 and 4 appear significantly, supporting connections to CPs that result in 12.

→ *Ancient Patterns:* 1-4-7, 2-5-8, and 3-6-9 patterns resonate throughout these accounts, indicating alignments and cycles of energy related to cosmic balance and dimensional phenomena.

---

[1] Jesus declared he is "The Door" in John 10:9, perhaps his prayer in Matthew 6:9 onwards where he teaches 'let it be on earth as it is in heaven' may be a clue, that when variables for the above case study matches or aligns with the numerical patterns, doors of the unseen realm open.

[2] Perhaps the gates of seasonal change moved their plane 90 degrees, like how a wave moves objects when in contact. An echo of the "golden section" hinted at by Mark Flynn, p.39.

→ *Numerical Mirroring:* The 42-year difference between Lindbergh's and Gernon's experiences (root 6) suggests a repeating cycle or return to celestial themes tied to balance and the hidden mechanics of time and space.

Analysing the Mysterious Fog: Patterns and Theories

Description of the Fog:

→ Gernon's account of a tunnel-shaped, rotating cloud that seemed to warp time and space.

→ Lindbergh's experience of dense, mysterious cloud cover that may have similar properties.

Numerical and Geometric Links:

→ The recurring appearance of numerological patterns (e.g., CP7, CP9) and ancient alignments in both cases.

→ Use of the menorah code to highlight the significance of cosmic light and celestial influence on the phenomenon.

Heavenly and Environmental Analysis

Weather Patterns:

→ Presence of jet streams and potential impact of the Gulf Stream below.

→ Magnetic anomalies frequently reported in the Bermuda Triangle area, influencing navigational instruments.

Divine Alignments:

→ F.I.L Principle where CP1 is aligned with CP7 and vice versa or

→ Matthew 6:9 Lord's prayer (on earth as it is in heaven).

Star and Planet Mapping:

→ The potential alignments of key constellations (Orion, Sirius, Gemini) during these flights.

→ Analysis of the role of stars in forming potential cosmic gateways or influences on the fog.

Throughout the case study, we've explored the implications of numerology and celestial patterns, highlighting the shared elements between Gernon and Lindbergh's experiences that suggest celestial alignment, while also theoretically interpreting how the "electronic fog" could serve as a gateway or dimensional rift, and analysing the relevance of the I-Principle and F.I.L. Principle in relation to observed phenomena, particularly focusing on mirrored celestial points and balance (much so like the cross we see on the clock face used as the framework for this book).[1]

For easy comparisons between Gernon and Lindbergh's experiences, a table has been designed to easily see their similarities highlighting key patterns and cosmic influences that link both events.

[1] Project Clock Codes volume three focuses on chemistry elements, sacred numbers, and resonance frequencies alignments, with profound discoveries bridging the realms of physics, metaphysics, and ancient knowledge. We explore how the clock framework is used beyond its' time keeping function extending as a cipher unlocking the future of energy transfer, dimensional travel, and quantum-level manipulation.

Aspect	Bruce Gernon (1970 Incident)	Charles Lindbergh (1928 Flight)	Similarities/Connections
Date of Incident	December 4, 1970	February 13, 1928	Both incidents involved numerologically significant dates linked to ancient patterns.
Numerology of Name	Gernon: Bruce (4), Gernon (6)	Lindbergh: Charles (7), Lindbergh (9)	Both names align with significant CPs (e.g., 4, 6, 7, 9) suggesting divine, cosmic resonance.
Time of Day	Around 3:00 PM	1:35 AM	Root numbers align with 9 and 3. Numbers that aligns with clock face gate.
Altitude and Flight Path	Climbed to 1,500 feet, cruising at 11,500 feet	4,000 feet	Both involved key numeric values aligning with CPs like 3, 7, 12, 8, and 4.
Weather/Cloud Patterns	Encountered "electronic fog," tunnel cloud	Encountered an unusual cloud formation	Both described encountering similar, mysterious cloud phenomena.

Aspect	Bruce Gernon (1970 Incident)	Charles Lindbergh (1928 Flight)	Similarities/Connections
Numerological Patterns in Date	1970: Root 8, CP2 Essene; Dec 4: CP10 Essene, CP12 Lunar	1928: Root 2, CP8; Feb 13: CP1 Lunar, CP12 Essene	Dates share patterns of 2, 4, 8, and 12, linking ancient cycles.
Time in Air and Anomaly Duration	Airborne 27 minutes before turning, total 34 minutes to clear anomaly Turned 90 degree angles. Jumped from Florida to Miami	Turned 90 degree angle. Jumped from Florida key to the Bahamas. About 300 miles of course	Significant time intervals noted, aligning with CPs and ancient numerical patterns.
Celestial Alignments	Orion, Sirius, Gemini visible; Jupiter in transformative sign	Similar star and planetary alignments likely present	Both experienced under significant star alignments: Orion and Sirius.

Aspect	Bruce Gernon (1970 Incident)	Charles Lindbergh (1928 Flight)	Similarities/Connections
Companions	Gernon's father and Chuck Layfayette (totalling 3)	Solo flight	Both flights were notable, with Gernon's flight involving companions contributing to the numerological balance (root 6).
Significant Numbers in Flight	315 degrees heading (root 9), 1,500 feet (altitude), 180 mph (speed)	Exact flight details less known but likely numerologically aligned	Numeric patterns in heading and altitude share significance with CP alignments.

Case Study Conclusion

The analysis of Bruce Gernon's 1970 encounter with the Bermuda Triangle, juxtaposed with Charles Lindbergh's flight in 1928, reveals intriguing parallels that suggest the presence of mysterious atmospheric phenomena and potential celestial influences. Both pilots experienced anomalous fog conditions that affected their perception of time and space, hinting at underlying dimensional anomalies. The examination of numerological patterns, celestial alignments, and atmospheric conditions enhances our understanding of these extraordinary events, offering insights into the possible intersections of human experience and cosmic forces. These cases not only deepen the

conversation around unexplained aviation phenomena but also underscore the importance of exploring historical and scientific narratives to unravel the complexities of our world. As we continue to investigate such anomalies, the connection between human experience, heavenly alignment, and weather patterns remains a compelling area for further research and exploration.[1]

[1] **Author's question:** Were any of these men true Christians? The phrase "blood redeemed are seated in heavenly places" signifies that once the right variables come together, we can tap into our potential, making things like hyperspace travel possible.

Rhythms of the Clock Points

On clock points twelve, six, three, and nine,
The constellations trace a line.
Gemini, Orion, in patterns deep,
Stars awake while the others sleep.

Nine to six and three to one,
Hyperspace shifts when cycles run.
In realms where fog and numbers meet,
Mysteries lie in rhythm's beat.

Through the Bermuda Veil

From Florida Keys to Bahama's shore,
Flight 19 vanished, seen no more.
Gernon flew with courage bold,
As cosmic secrets began to unfold.

Was it the jet streams' mighty drift?
Or was it space that caused the shift?
In swirling fog and stars aligned,
An ancient path through time en-
shrined.

CHAPTER VII

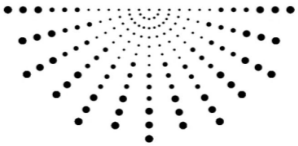
HS216(9)

DRAGON IN THE HEAVENS



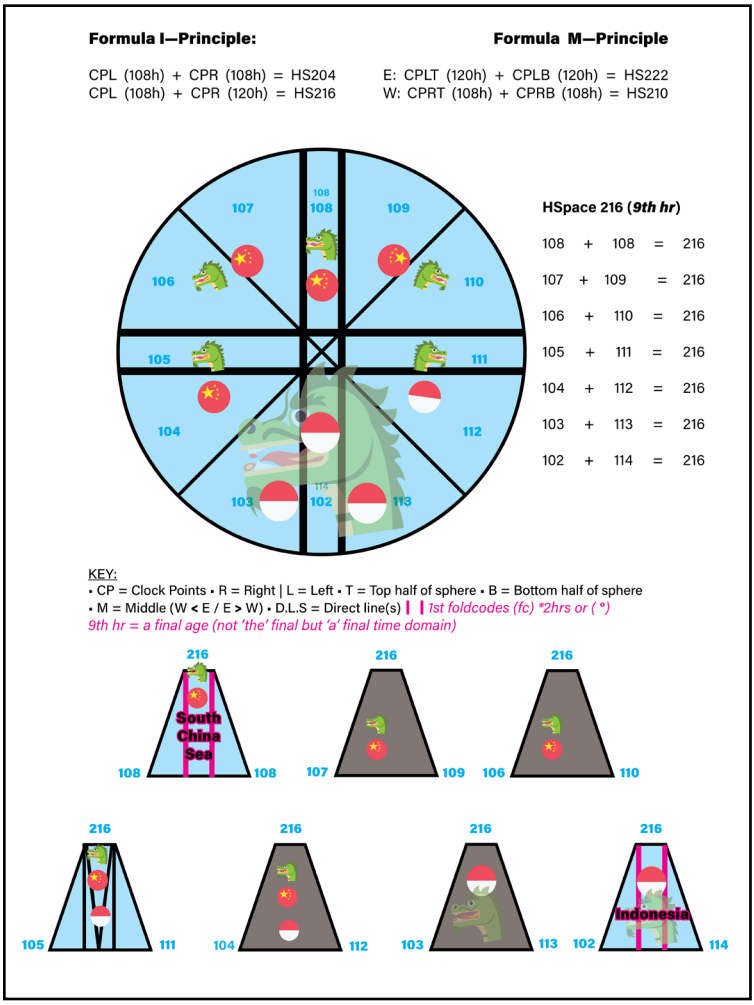
If I have seen a little further it is by standing on the shoulders of giants. — Issac Newton

CHINA AND INDONESIA

The HS216 discovery bore fruition after converting the hours used to reach solution 216 to coordinates used in the pie chart provided in the following page. The two countries of interest are China and Indonesia. According to the time map, Indonesia is bound to rise(ing) with China.

As we examine the pie chart, China is represented by its red flag and green dragon, indicating that China finances and influences Indonesia's airwaves (media) and reveals the spiritual prince behind it. Furthermore, knowing that 13 is *mem*—water also symbolises people or nations, as the blue pie chart indicates.

To maintain consistency in this book, a QR code has been provided so readers can magnify the HS216 provided earlier. The number 216 is the 18th hour listed, and 216 rounds to nine and the root for 18 is nine.



Formula I—Principle:
CPL (108h) + CPR (108h) = HS204
CPL (108h) + CPR (120h) = HS216
Formula M—Principle
E: CPLT (120h) + CPLB (120h) = HS222
W: CPRT (108h) + CPRB (108h) = HS210
107
108
109
106

To view magnified view
of dragon age

Note how the word sphere in the key in the pie chart represents multidimensions while W < E and E > W signify the possible changing of powers. Therefore, according to the data from the blue pie chart, the Middle East will rule. Volume one highlighted how the change of Western and Eastern powers may depend on the shifting of the magnetic north.

Ironically, Revelation 13:18 states,

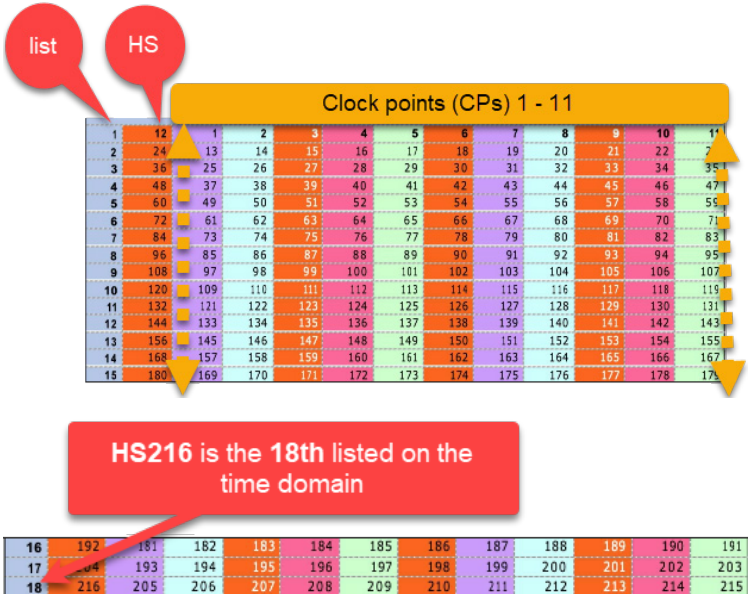
> *18 Here is divine wisdom: let anyone who understands these mysteries figure out the number of the beast because it is the number of a person. Its number is 666."*

Furthermore, 6 + 6 + 6 = 18 while $6^3 = 216$

The pie chart is the 'time domain' facet for the nations of interest, while the table on the following page is 'earth coordinates' facet discovered using Google Earth. One

anomaly discovered is that there is no SE or SW for the HS216 on Google Earth.

The two sheets above highlight where HS216 is listed among the HS hours time domain and how these are parallel to Revelation bible passage.



The following page provides a detailed table containing the coordinates and a QR code to guide readers to the PDF containing further information about economic relations with the nations mentioned above.

Readers will need to flip the page.

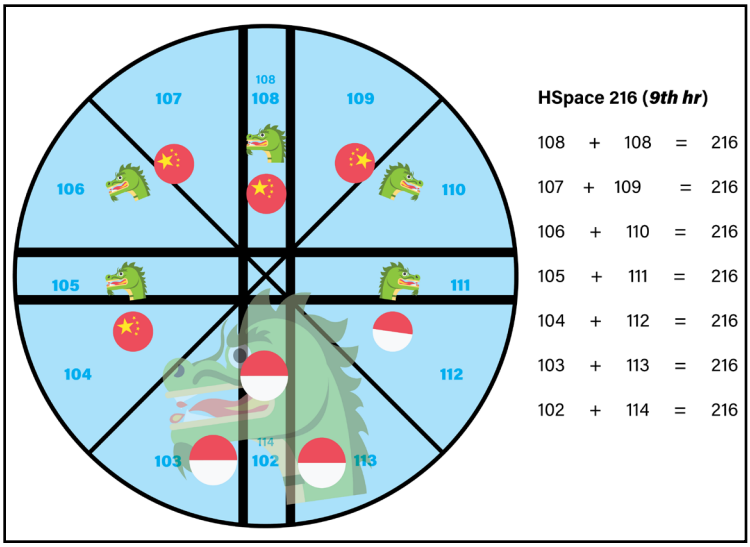
SUMMARY



One important thing to note about the HS216 is that the CPLs and CPRs are derived from the ninth and tenth hours listed. This points to Einstein's theory of relativity, where time slows down as we move further out into space. It seems that this principle also applies to this HS map.

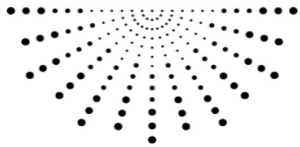
HYPERSPACE WATCH



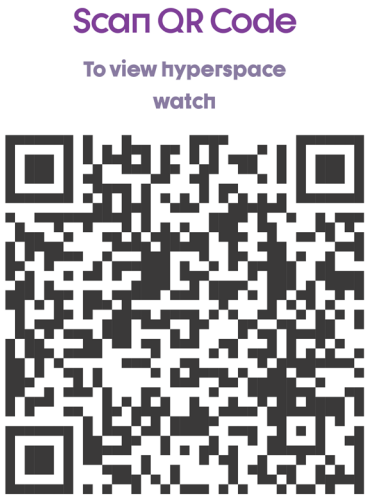
One [method] is by a Watch to keep time exactly. But, by reason of the motion of the Ship, the Variation of Heat and Cold, Wet and Dry, and the Difference of Gravity in different Latitudes, such a watch hath not yet been made. — Issac Newton

LET'S PLAY!

After diving deep into the topics from previous chapters, a brilliant idea occured after reading the above quote from Issac Newton! What if we could create an interactive hyperspace watch that takes into account variables like people's birthdays and how they align with the blueprint of the high priests' gemstone breastplates? We could use the hyperspace concept and pair these variables with the Essenes solar calendar and the stars of heaven. Imagine discovering which constellations were present at the time of our birth and how we resonate with the ancient hertz and patterns discussed in Exodus 12:2 from volume one.

The calendars were shifted to align with scripted numbers of time which was then added to the watch.

To play with this hyperspace watch, scan the code, click the link[1] if you are reading the Kindle version, or type in the link.

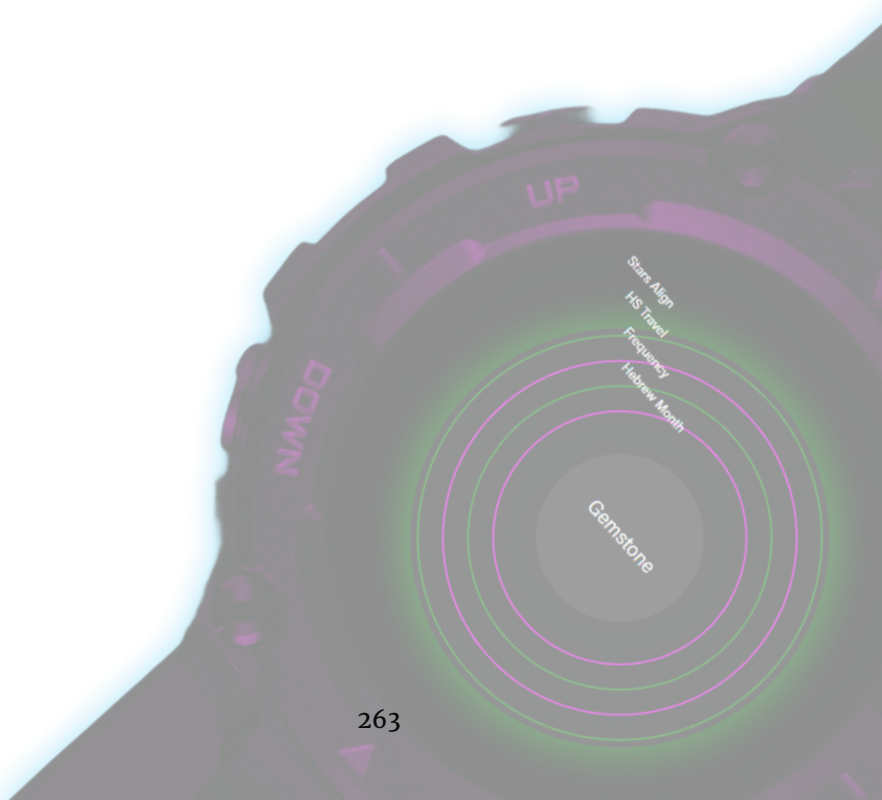


[1] Fabricated hyperspace watch, https://www.projectclockcodes.com/time-travel-codes/hyperspace-watch

Conclusion

Finally, Chapter 7 delves into a complex web of geopolitical, spiritual, and symbolic observations. The exploration of the pie chart and its symbolic elements sheds light on the potential shifts in global powers, hinting at the rise of the Middle East. The references to biblical verses and mathematical equations add layers of mystique and contemplation to the discourse. The chapter also introduces intriguing anomalies, such as the absence of certain coordinates on Google Earth, and points to the interconnectedness of time, space, and earthly coordinates.

The allusions to Einstein's theory of relativity and the concept of time dilation in space further enrich the narrative. Overall, Chapter 7 invites readers to ponder the intricate interplay of nations, spirituality, and cosmic forces, leaving them with a sense of anticipation for what the future may hold.



APPENDICES

List of Nations HS(3,6,9)

Rounded 3 (HS3)

1. Angola: 12 30 S, 18 30 E
2. Antigua and Barbuda: 17 03 N, 61 48 W
3. Bahamas: 24 15 N, 76 00 W
4. Barbados: 13 10 N, 59 32 W
5. Burkina Faso: 13 00 N, 2 00 W
6. Burundi: 3 30 S, 30 00 E
7. Cameroon: 6 00 N, 12 00 E
8. Central African Republic: 7 00 N, 21 00 E

Hyperspace Formulas

These formulas are stored in the appendices because of their metaphysical concepts fabricated using ChatGPT.

According to AI intelligence, if we were to conceptualise this framework as a time-skipping map, the formula would need to be adapted to account for the nonlinear nature of time travel, potential shifts in energy states, and how these energies might facilitate or influence the process of moving through time. This would introduce additional variables that reflect the dynamics of time manipulation.

Key Variables for time skipping would look like:

$$E_{total} = (E_{gem} + E_{ley} + (T_{numerical} \cdot F_{frequency} \cdot S_{season} \cdot D_{day})) \cdot T_{skip} \cdot A_{stability} \cdot C_{coherence}$$

The breakdown of the formula

- E_{total}: The total energy output necessary to execute the time skip.

- E_{gem}: The energy of the gemstone corresponding to the target time.

- E_{ley}: The energy from ley lines acting as conduits for the time skip.

- $T_{numerical}$: Represents the target date in numerical form, potentially influencing the skip.

- $F_{frequency}$: The frequency required to resonate with the energies of the target time.

- S_{season}: A factor reflecting how the time of year may amplify or reduce energy requirements.

- D_{day}: The daylight hours affecting energy availability during the target time.

- T_{skip}: Represents how far (in distance) in time one intends to travel, which might increase the energy needed based on the distance.

- $A_{stability}$: Reflects the stability of the timeline; a lower value indicates a more unstable timeline, requiring more energy.

- $C_{coherence}$: Indicates how aligned the current energies are with the target time period, affecting energy efficiency.

Example calculation

According to OpenAI (2024), if we were to calculate the energy required to skip from the present to a specific date in the past while using Amethyst as the gemstone. The Assuming values would look like:

1. **Assuming values:**
   - $E_{gem} = 12960$ (previously calculated for Passover)
   - $E_{ley} = 45000$ (hypothetical value)
   - $T_{numerical} = 14$ (specific day of the month)
   - $F_{frequency} = 0.9$ (based on a resonance frequency)
   - $S_{season} = 1.5$ (spring)
   - $D_{day} = 12$ (hours of daylight)
   - $T_{skip} = 2$ (representing 2 years into the past)
   - $A_{stability} = 0.8$ (timeline is fairly stable)
   - $C_{coherence} = 1.2$ (energies are well aligned)

While plugging values into the formula would look like this:

$$E_{total} = (12960 + 45000 + (14 \cdot 0.9 \cdot 1.5 \cdot 12)) \cdot 2 \cdot 0.8 \cdot 1.2$$

Calculating the contribution from the time-related aspect:

$$14 \cdot 0.9 = 12.6$$

$$12.6 \cdot 1.5 = 18.9$$

$$18.9 \cdot 12 = 226.8$$

Now summing up:

$$E_{total} = (12960 + 45000 + 226.8) \cdot 2 \cdot 0.8 \cdot 1.2$$

Calculating the total energy before multiplying by the skip factors:

$$E_{total} = (58286.8) \cdot 2 \cdot 0.8 \cdot 1.2$$

Calculating the multipliers:

$$2 \cdot 0.8 = 1.6$$

$$1.6 \cdot 1.2 = 1.92$$

Finally:

$$E_{total} = 58286.8 \cdot 1.92 \approx 111201.696 \text{ (energy units)}$$

Further enquiry regarding time skipping from one location to another, travelling through hyperspace rather than going to and fro from past to present and vice versa, led to these formulas.

Formula for location-based skipping

$$E_{total} = (E_{gem} + E_{ley} + (T_{numerical} \cdot F_{frequency} \cdot S_{season} \cdot D_{day})) \cdot T_{travel} \cdot A_{environment} \cdot C_{coherence}$$

The breakdown of the formula

- E_{total}: The total energy output necessary to execute the time skip.

- E_{gem}: The energy of the gemstone corresponding to the target time.

- E_{ley}: The energy from ley lines acting as conduits for the time skip.

- $T_{numerical}$: Represents the target date in numerical form, potentially influencing the skip.

- $F_{frequency}$: The frequency required to resonate with the energies of the target time.

- S_{season}: A factor reflecting how the time of year may amplify or reduce energy requirements.

- D_{day}: The daylight hours affecting energy availability during the target time.

- T_{travel}: A travel distance factor representing how far the traveller moves between locations, impacting the energy required.

- $A_{environment}$: A factor representing the environmental conditions of the target location (e.g., altitude, weather, electromagnetic fields).

- $C_{coherence}$: Indicates how aligned the current energies are with the target time period, affecting energy efficiency.

Protective gear for hyperspace travel

Appropriate protective gear would be necessary to ensure safety and maximise the efficacy of the skip. The gear could be designed based on several considerations:

Material Properties

Gear should be made from materials that can withstand energetic fluctuations. Fabrics with gemstones or minerals like copper, silver, or titanium could enhance energy flow and protection.

Insulating Layers

Multiple layers could insulate the traveller from unexpected environmental factors or energy spikes. This could include layers made from natural fibres for breathability and synthetic insulation materials.

Energetic Resonance

Gemstones or crystals in the gear could provide additional protection and harmony with the energies during the skip. Each gemstone could correspond to specific properties:

- Amethyst: Protective and calming energy.

-Tourmaline: Grounding and shielding against negative energies.

- Clear Quartz: Amplifying positive energies.

Mobility and Comfort

The suit should be designed for mobility, allowing travellers to move freely in different environments. Consider using stretchy or flexible materials that accommodate movement.

Environmental Adaptations

Depending on the target location, the gear could include features for temperature regulation, moisture-wicking properties, or reflective surfaces to adapt to varying weather conditions.

Example calculation

To calculate the energy required to skip to a location that is 100 miles away, where the conditions are very different from the starting location, you might use the following hypothetical values:

1. **Assumed values:**
   - $E_{gem} = 12960$ (as before)
   - $E_{ley} = 45000$ (hypothetical value)
   - $T_{numerical} = 14$ (specific day)
   - $F_{frequency} = 0.9$ (resonant frequency)
   - $S_{season} = 1.5$ (spring)
   - $D_{day} = 12$ (daylight hours)
   - $T_{travel} = 1.5$ (adjusted for 100 miles, higher energy for long distance)
   - $A_{environment} = 1.2$ (reflecting a stable, favorable environment)
   - $C_{coherence} = 1.1$ (good alignment between locations)

2. **Plugging values into the formula:**

$$E_{total} = (12960 + 45000 + (14 \cdot 0.9 \cdot 1.5 \cdot 12)) \cdot 1.5 \cdot 1.2 \cdot 1.1$$

Calculating the energy contribution from the time-related aspect:

$$14 \cdot 0.9 = 12.6$$

$$12.6 \cdot 1.5 = 18.9$$

$$18.9 \cdot 12 = 226.8$$

Now summing:

$$E_{total} = (12960 + 45000 + 226.8) \cdot 1.5 \cdot 1.2 \cdot 1.1$$

Calculating the total energy before multiplying by the environmental and coherence factors:

$$E_{total} = (58286.8) \cdot 1.5 \cdot 1.2 \cdot 1.1$$

Calculating the multipliers:

$$1.5 \cdot 1.2 = 1.8$$

$$1.8 \cdot 1.1 = 1.98$$

Finally:

$$E_{total} = 58286.8 \cdot 1.98 \approx 115000.784 \,(\text{energy units})$$

Conclusion

The revised formula for location-based time skipping incorporates variables that reflect the energies and conditions of both the starting and target locations. Including protective gear designed to harmonise with these energies ensures the traveller's safety and effectiveness in navigating different environments and forces at play. This framework provides a way to understand the dynamics of travel across space and time while maintaining a connection to the metaphysical principles discussed. In a future volume, such hypothetical formulas will be examined with their counterparts and variables like highpriests gemstones, Hebraic feasts, seasons that appear to affect the amount of UFO presence and the most common energy we take for granted, the sun as well as the stars.

Ultimately, whether these formulas can be proven through application remains a mystery. A diverse team of scientists skilled in chemistry, music, engineering, sewing, and, most importantly, those who have been redeemed may be essential, especially as we consider the significance of the Time of the Twos in the New Testament. Just as Jesus is the key to heaven, those who are redeemed may have the ability to travel through hyperspace or play a crucial role in its success.

For those who have come across this book and wish to delve deeper into its spiritual source, I invite you to reflect on your eternal future. I encourage you to consider receiving Jesus Christ as your Lord and Savior—the source who has inspired and revealed these insights, demonstrating that He exists and is real. As you approach the end of the conclusion of this journey through these pages, I invite you to take a moment for yourself. Open your heart to forge a deeper connection with Jesus. This prayer serves as a powerful step forward—should you

realise the depravity we have as humans. Feel free to pray these poetic words with conviction, knowing that He meets you exactly where you are:

An Invitation to Jesus' Guidance and Peace

Lord Jesus, guide me to the path You've planned,
Unbind my heart from fear, release my soul.
With trust, I lay my life within Your hand,
For only in Your light am I made whole.

If shadows linger, cast them all away,
That love and peace may fill this heart of mine.
Let patience, kindness, in my spirit stay,
And gentleness and strength through me entwine.

Where hurt remains, Lord, teach my heart to mend,
Forgive those wounds inflicted deep within.
Remind me we are human, all who've sinned,
And cleanse my soul to rise anew again.

Lord, open eyes, and make my vision clear,
With You as armor, I shall have no fear. I pray.

Amen.

The following page is your page to write your own version of the poem prayer where you can jolt down the day, date and time you've made this decision that affects your eternal well-being.

Time:

Notes:

Bonus Material

Interactive calculators have been created to plug and play with the aforementioned variables as a bonus. Firstly, we have:

• the "Beginner Level", where variables discussed can be added from coordinates to gemstones, solstices, seasons, calendar alignments and other variables. Each calculator has instructional manuals to guide users;

• the "Advanced Level" has extra variables like air pressure, natural hazards, etc.

It is assumed readers have read throughout the book and are now familiar with the terms dealing with hyperspace jumping, surfing or skipping, whichever term you prefer.

As usual, the QR Codes will take you on this fascinating and unusual hyperspace journey.

ALPHA ADULTS

Project Clock Codes: Releasing Messiah's Matrix (vol 1)

Ancient time map discovered tucked away in the Bible leading to leylines, pyramids, six-sided star and history.

Torah Data Analysis

We play around with all five books of Moses' data and examine them to see the hidden things of God buried beneath numbers we take for granted.

Poems—Project Clock Codes: Vol 1 Reflections

I express in poems my thoughts and reflections for my first book Project Clock Codes: Releasing Messiah's Matrix (vol 1).

Poems—Communion With The Secret:

On Earth As In Heaven

A continuation of my personal expressions in poems my thoughts and reflections for my first book Project Clock Codes: Releasing Messiah's Matrix (vol 1) and other Biblical reflections.

OMEGA CHILDREN

Am I a Butterfly?

A short story about self-discovery

Forbidden Lollipop

A story about a rebellious caterpillar whose actions separates him from his family.

Pete the Peach Tree: Picnic with Silver the Seal

A story about how a friend learns the reality of how careless decisions come at a cost.

PROJECT CLOCK CODES

Remember the Time Map (Vol. 2)

Continuing the journey from Volume One, ***Project Clock Codes: Remember the Time Map*** dives deeper into the hidden intersections of time, prophecy, and ancient wisdom. Building on foundational insights, Volume Two broadens the scope, unlocking new layers of divine connection and Earth's hidden pathways.

This volume invites readers to explore:

- ► **Ancient Crossroads & Pyramid Pathways:**
  Discover Egypt as a foundational base for understanding Earth's hidden portals, including the connections between biblical texts and geographical lines at 32° latitude, hinting at the physical Jacob's Ladder.

- ► **Divine Connections & UAP Sightings:**
  Delve into compelling data that interlinks divine guidance with historical UAP sightings, ancient waveforms, water memories, and hertz frequencies, blending science and spirituality in profound ways.

- ► **Earth's Hexagonal Foundation & Symbolic Objects:**
  Analyse the unique symbolism of Earth's hexagonal structures, supported by the works of Masaru Emoto and Wilson Bentley, and explore God's ancient ritual symbols—the Menorah and the dragon's mystifying presence in the heavens.

This volume is an invitation to expand your mind, explore time's mysteries, and consider new interpretations of reality. Supported by satellite imagery, ancient texts, and scientific exploration, *Remember the Time Map* offers readers a bridge between the seen and unseen worlds, merging the divine and physical realms through the concept of the 'gimmel.'

Step into this journey and embrace the Time Map that connects G-d, ancient mysteries, and the secrets of the world around us.
